PETER'S PUNGENT PENCIL PUSHING REFLECTIONS ON LIVE TOPICS OF THE DAY.

IN WHICH ALL ARE INTERESTED

The Water Works Suits Will Involve the Girard Estate as Well as Torbert, the Joint Committee and Borough.

THE "request" of the Borough Council to the Judges of the county seat asking "prompt decisions on all questions" pertaining to the water works is a desperate measure. It implies that the court has been or is tardy in its work and when the judges read the communication they will be tempted to frown. The "request" appears to me to be an extraordinary measure and no less than a direct insult to the court.

The Borough Council and joint committee will have all the law they require by the time they get through with the suits arising out of the public water works. It is understood that the Girard Estate will have something to say in the matter, and ex-Senator Torbert has his war paint on and promises to have the law of eminent domain thoroughly sifted.

One of the joint committee stated the other evening that if he was a member of the Borough Council he would make the water company jump. Indeed! We hope the members of that committee are not losing their tempers. Idle threats will not change the law, or make the acts of the committee legal. The joint committee forgets that it now controls Council. If it had the power to make the water company jump it would have done so long ago, for there is but one member of the committee who would not snap at every advantage to crush the company out of existence as speedily as possible, regardless of all reason or equity.

Pottsville, Ashland and Mahanoy City are complaining of a shortage in their supplies of water, but the terrible corporation that supplies this town is meeting all demands. It could keep that brewery going, too, if somebody would build it. That brewery scheme is a jewel. It can't be built now because the projectors would have to pay for the water supply. They hope, by securing the public water works, to get the water for nothing. The tenants and property owners are expected to go down into their pockets to pay taxes to give a clique of men free water to be turned into beer. It's a great scheme.

The white elephant on the eastern outskirts of town, known as the stone crusher, has been granted a vacation and men are now cracking stone for the streets with hand hammers. The street administration this year will go upon record as a remarkable one for blunders.

The Borough Council has at last learned that it is not practicable to have the fire alarm system cared for by a policeman and it will be obliged to hire a man for the work after all. The Councilmen have learned another lesson on false economy.

If the Councilmen knew as much as they pretended to this would be one of the best governed towns in the state. But before they can become model rulers they must find out how much they don't know, and it would not take a stupendous effort to learn that.

The rain last night was welcomed. It came when the earth seemed about dried up and the people were becoming discouraged. The rain poured for several minutes, cooling the oppressive atmosphere, refreshing the plants and flowers of the garden and giving the streets and gardens a much-needed cleaning. We could stand a few more wettings of the same kind.

I have heard that William Wraga, who was recently made a member of the joint committee, expects to get a position at the pumping station in case the public water works are erected.

company store people more bold than they have ever been before and if the complaining business people are wise they will come to the front and strike while the iron is hot. If they do not do so let them hold their peace hereafter.

LITTLE LOCALS

That Cover Considerable Ground in This Vicinity.
Ice dealers run's the roof just now. The public library project is progressing. Hard work—breaking stones on the streets.
Work on the Penny extension to Wm Penn was commenced to-day.
Lodges do not hold lengthy meetings during this kind of weather.
It is reported that a zoological garden is to be opened near town.
Amour's detective agency will be open for business shortly.
A census of the town, just now, would show a dog population upwards of 2,000.
A new dry goods and notion store is to be opened in town within a week or two.
People complaining of the hot weather just now may want some of it next winter.
Shenandoah has several military companies, but is not represented in the National Guard.
Water seems to be scarce every where but in Shenandoah, but that is no reason why it should be wasted.
Fast driving on our public streets should be promptly checked. There is too much of it and a number of narrow escapes from being run over were witnessed lately.
The town is full of rumors of the queer doings of sundry people and many people are disappointed because we do not publish them. To all such people we refer to the Police News.

The stone crusher has taken a rest. Somebody tried to break a stone in it one day last week, but the stone broke the crusher. What is a stone crusher good for, anyhow?

THE GREAT FESTIVAL.

Final Arrangements for the Lakeside Jubilee in August.
All the arrangements for the great musical festival at Lakeside on Monday, August 16, are complete. The committee held a meeting in town last night and it was attended by representatives from Shamokin, Centra, Ashland and Mahanoy City.
The arrangements are far better than they were last year and precautions have been taken to prevent any inconvenience to the public. The committee last night appointed eight ticket sellers for duty on the grounds. This precaution will prevent a rush at the box office. The park management has lumber on the grounds for a platform in front of the grand stand, which will be 45 by 24 feet in size.
The railway arrangements for the day will be perfect this year. Special trains will be run from all points at reduced rates, so as to put the fare and admission to the park within the reach of all.
The Ashland and Hazleton German singing societies have already entered for the \$500 German competition. During the past three days the secretary has received numerous entries for the solos and duets. All the musical entries are to be in by August 1st. Rev. Fred. Evans, of Philadelphia, has been appointed adjudicator on the poem competition, "The Miner." All the competitive poems are to be in the hands of Rev. Evans by August 6th.

Mr. Huttenstine Alive.
In the HERALD obituary announcements yesterday Peter Huttenstine, of West Coal street, was reported dead. After the paper was issued it was discovered that the report was groundless. Mr. Huttenstine is alive and there is no likelihood of his demise for some time, at least. The HERALD called its informant to account to-day and an explanation made. The informant says that one of the Reading newspapers that comes to town contained an account of the death of Henry Huttenstine, an old and well known resident of that city. People who read the account confounded the party with Mr. Huttenstine of town, and in that manner the erroneous report gained circulation. We are pleased to learn that Mr. Huttenstine is alive and hope will remain with us for many years to come, as he has the reputation of making the finest yeast sold in the market.

"Johnny Comes Marching Home."
The Eighth Regiment, National Guard, to which most of the Schuylkill county boys are attached, broke camp yesterday and started for home, and by the time the HERALD goes to press they will be eating a square meal at their home tables. Welcome home, boys. While Homestead may not have been as comfortable as home, you have the consolation that you obeyed the call to duty.

A TALLY-HO PARTY FOR EAGLE'S MERE

EARLY MORNING START FOR A LONG JOURNEY.

NAMES OF PLEASURE SEEKERS

A Miner's Face Terribly Mutilated by an Accident in the Ellengowan Colliery—Gleanings by the Reporters.

TALLY-HO expedition is a novelty in this section of the country and therefore the departure of a party from town on a tally-ho coach this morning created some interest. The party consisted of Miss Florence A. Brown, of Corning, N. Y., daughter of G. R. Brown, general superintendent of the Fall Brook Railroad; Mrs. Bertolotto, of Mahanoy Plane, wife of Wellington Bertolotto, superintendent of the Williamsport division, P. & R. Railroad; Mr. and Mrs. C. E. Titman and H. H. Zuleik, of town.
The party left here at 5 a. m., bound for Eagle's Mere, the famous summer resort. According to the programme they expected to reach Mainville, Columbia county, in time for dinner to-day and make Bloomsburg in time for a night's rest. They expect to reach Eagle's Mere Friday afternoon and will remain there two or three weeks. Before their return they will visit Cammel and Williamsport. The home journey will be made on the coach.

THE LAST BODY.

Honicker's Remains Found in York Farm Mine This Morning.
Mine Inspector Stein returned last night from York Farm colliery, where he spent most of his time since the terrible disaster of Saturday last. The work since Monday was directed solely to the recovery of the body of Honicker and at 1 a. m. to-day the searchers succeeded in recovering it.
The main heading that Honicker went into Saturday morning when Llewellyn left him was cleared of debris yesterday. Llewellyn assisted in this work. When the body was not found in the heading the searchers were greatly disappointed. The work was then directed to breast No. 1, in which Honicker and Llewellyn worked.
To reach this breast a canvas brattice for air purposes was first put up. Several men then entered the manway. The place was full of loose coal and the breast was full of gas. After a careful removal of debris in the breast the decomposed body of the unfortunate man was found. The body was in such a bad state that several of the men who handled it were sickened.
The cause of the terrible explosion is as deeply shrouded by mystery as ever. Some officials are inclined to the opinion that Honicker ignited the gas.

The Mahanoy City Fish and Game Protective Association have placed eleven more rabbits in the woods and twenty more will be put out next week.
A letter from Seattle says that Reese Daniels, formerly of Mahanoy City, is becoming wealthy practicing law in that city.
Twenty-five guests at a Lithuanian wedding in Mahanoy City were arrested and fined \$5 each for disturbing the peace of the neighborhood.
One of the largest judgments ever entered in Northumberland county has been received by Prothonotary Fasold. The judgment is for \$1,230,556.06, and was secured by E. A. Packer and trustees of the Packer estate, James Ryan and others, against Nathan Taylor and the Penn Anthracite Coal Company, tenants brought on a mortgage given by Taylor at the time of the purchase of what is known as the Northumberland Coal Company's lands, comprising 2,700 acres in Northumberland and Columbia counties.

Picnic at Pastime Park.
The High school class of '92 and a number of invited friends held a picnic at Pastime Park yesterday. The afternoon and evening were spent very pleasantly. Refreshments were served between dances.

POLITICAL POINTS.

Local, County, State and National Themes Considered.
The fight for the judiciary is among the Democrats. The Republicans have nothing to do with it.
John J. Coyle, of Mahanoy City, is not losing any sleep over his candidacy. He feels perfectly safe of his election to the Legislature.

The farmers and pioneers of the county will vote for James B. Loeisig for Poor Director. "Jim" is well known in every part of the county.
There will be three "R's" in the field after all—Ryan, Reilly and Ryan—all Democrats.

Ryan, the Democratic candidate for District Attorney, is counting almost entirely on the young Irish vote. J. Harry James will look after the old gentlemen of that nationality to help to swell his majority.
If any one tries to make you believe all is serene in the Democratic ranks do not take any stock in it. The discussions are greater than the leaders will let on, and many of the leaders are affected the way, too.

For 30 Days Only.
We will give to any lady purchasing a pair of our ladies' fine shoes which sell at \$1.00 and upwards, a beautiful purse worth 25 cents. Peoples' Store, 121 North Main street, three doors above J. J. Price's dry goods store. 6-21-92

FACE TERRIBLY LACERATED.

Severe Injuries Suffered by a Miner This Morning.
Martin Koef, of Ellengowan, was seriously injured by a fall of coal in the Ellengowan colliery to-day. The fall pressed Koef's face down into the coal and Dr. Stein says he was never called upon to attend such a mutilated face. Seventeen stitches were required. One cut extends from the chin down the throat, about six inches. The right jaw bone and the wind pipe were laid bare. The latter organ was slightly punctured. The right cheek is badly gashed and a wound above the right eye was so bad that it could not be stitched. The flesh was cut from the bone and great care will be required to heal the wound. Fortunately none of the injuries are dangerous and the victim will recover, but his face will be permanently disfigured.
