A REPUBLICAN STATE. Those Democrats who still have hopes of carrying Illinois for Cleveland should read and ponder over the following choice extract, with reference to the Chicago fair, taken from the New York Sun, the shining light of Democratic papers :

"Illinois is a Republican state any way, and, even if it were not so under normal conditions, the Hon, John McLuckie Palmer's spirited touting for striker sovereignty would have there. The only ticket which the Treasury of the Gods." Democrats would draw by going into the Chicago game would be a ticket entitled them to one rainbow. Rainbows are not so valuable in the present depressed condition of the rainbow market as to justify any considerable expenditure for one. Illinois is Republican whether the Democrats in the House had supported or should yet support the \$5,000,000 steal

man that there must be a superior industrial system in operation in the United States. There is. We have a protective tariff.

Selling price 48 cents a dozen.

It is very evident that the farmer, the carpenter and people generally who use hand-saws are not "tariff taxed," 75 cents a dozen (the duty on imported files) on the files they buy to keep their tools in order. Good American 41-inch files, made by American workingmen at American rates of wages, are advertised in the trade papers for 27 cents a dozen less than Grover Cleveland's alleged tax on them.

THE POOR BOY'S PANTS. "Tariff-taxed"-58 cents-

Retail price-27 cents.

It is a small thing, but large enough to demolish the free trade assertion that it is "tariff taxed" 53 cents. The little garment is neatly and strongly made of good, firm material, capable of withstanding many slides down a cellar door. Hundreds more like it were for sale where this one was found, all for just about half the sum which the demogogue tariff "reformer" says they are taxed. The pants and the bill of the seller are open to inspection at this office.-American Economist.
