OUR POTTSVILLE

POLITICAL LETTER

CAMPAIGN PREPARATIONS AT THE COUNTY SEAT.

THE RYON INDEPENDENT TICKET

Reasons Why the Democratic Votes Should go to Either Ryon or Koch—Mr. Shepherd Much Displeased.

Special Correspondence to the HERALD.

POTTSTVILLE, July 28. WITH the opening of the coming month will come the opening of the campaign in this county. Chairman Davis, whose headquarters are temporarily with Burd Edwards, or Charlie Breckons, will by that time have selected his permanent rooms, and Chairman Marr will have taken possession of his suite of offices in the south wing, ground floor, Seitz building. Mr. Marr claims that everything will be conducted on the ground floor in his headquarters and every one who takes stock in the Democratic ticket will be let in on the ground floor, and if they do not like that treatment they can dump themselves into the sub-cellar and stay there. Marr means business and our Mr. Davis must hump himself if he wants to keep in the procession.

THE UNTERIFIED TICKET.

Your news columns recorded the result of the late Democratic county and district tickets and it only remains for your correspondent to remark that so far as he is concerned, he and other Knights of the Quill, they are perfectly satisfied, because it betokens a lively contest, a regular and continued fusillade all along the line which will give us plenty of material to write about. But there is much dissatisfaction (notwithstanding the bulk of the ticket is a strong one) expressed by representatives of that party from nearly every quarter, especially the farming districts. The nomination of Judge Pershing was so apparently the outcome of a deal arranged by his wily managers and backed by corporate power that many old-time Democratic warriors will make a still hunt to defeat him. It is not charged that he set up the combination himself; but he knew of them and is believed to be more than true. The Judge is a way-back politician of no mean calibre, a veritable heavy gun in a political battery. He knew he was slated with Relly and "Jimmy" Ryan, and he also knew he was slated with Shepherd and "Jimmy" Ryan, which proves our refutation of the *Journals*' charge that John W. Ryon was the one who had entered into combines. The fact is John W. Ryon was beaten because he had not done the very thing the *Journals* charged him with. Had he selected a lively running mate like ex-Senator King, of Mahanoy City, to go for the Congressional stake they would have distanced Pershing and Relly in the first heat and left them at the quarter pole. Ryon's strength was 3,500 votes and he only needed 350 and King could have brought him over a thousand.

A REAL INDEPENDENT.

Mr. Ryon has gone to his Toga county farm for six weeks. Meanwhile his coaches are spreading petitions and having them signed to bring the big lawyer out as an Independent candidate. They will get all the signers they need and Mr. Koch, who has just returned from an extended trip to Niagara, the Canadas, and all over that part of the world, will wait into the seat now occupied by Judge Bechtel and Bechtel will become President Judge vice Pershing retired. And this means a real Independent Judge, for has not Koch got just what Pershing had ten years ago when he was styled the Independent Judiciary candidate, to wit the Republican nomination? And has not Pershing got just what Relly had when Pershing beat him—the Democratic? And yet our Irish fellow citizens who smarted in 1882 over Relly's defeat has so far forgotten their discomfiture as to turn in and nominate the man who beat their favorite. To even things they should keep up their queer antics now and vote for John W. Ryon, or what would be more to the point, cast their ballots for Mr. Koch and make them count double. This will give them a first class chance to down the man who downed Relly.

MAD MR. SHEPHERD.

But the maddest man who "got left" is Mr. Shepherd, who trusted in Jack Toole and Jimmy Ryan to carry him through. Toole may have been true to Shepherd and Ryan may have wanted to be, but Jimmy, who controlled by far the largest strength of any candidate, could not deliver enough delegates to help Shepherd and so was obliged to abandon him and look out for himself alone. Should Watson F. live until another campaign he will have learned a thing or two. He might have seen the friends of young Ryan would be friends for Relly. They were snuckled at the same tent. Try again, Mr. Shepherd.

POINTS.

Mr. Farin, who withdrew as a candi-

date for the Legislature, has returned to literary work. His masterly article in *The Green Bag* on Montesquieu is most favorably commented on by the legal profession.

The two Kennedys, George W., Republican, and William, Democrat, gaze at each other from their shop doors on Centre street and wonder whether they will both go to Harrisburg.

Aregood is preparing to stump the district with his Senatorial boom and says he will make it hot for Keeler, but— Rumors that Brumm will withdraw are thickening. Mr. B. himself keeps his own counsel on the subject with surprising reticence, for him.

The investigation of the county commissioners by the county auditors is attracting great interest. Look out for the breakers. There will be no duel between Councilors Henning and Mingo resulting from the investigation into the county affairs. Henning keeps Mingo in hot water continually and the latter needs a ton of ice on his head every day. He should take a day off and go to a cooler climate.

Sweltering in the heat at 100 degrees is not the most inspiring condition to write for a first class daily paper. So an excu-

A hatchet fell from the hand of a carpenter at work on the new Carter & Co. breaker at Beaver Meadow. In its fall it struck Thomas Brown, who was working on a scaffold below, and almost severed his right cheek from his face.
John Williams' foot caught in a frog at the Ferrand colliery at Shamokin just as a trip of wagons approached. Seeing he could not free himself, he leaned against the side of a gangway and beheld the wheels mangle his foot so badly it had to be amputated.
Rosa Gobit, a French girl, fled from her home in Shamokin about a month ago. The distress of her parents has been relieved by a letter stating that Rosa has married an old-time lover in Paris, France. The lover, Lorenzo Foiseri, fled from Shamokin with Rosa.
Charles Young, a Philadelphia and Reading Railroad brakeman, whose home is at Shamokin, was drowned Tuesday. His train was side-tracked at Clement, a station opposite Sunbury and several rail-roads were bathing in the canal, Young being drowned.
The Reading Railroad Company is gradually going away with ashes and coal dirt as ballast, especially on the main line. The tracks are being raised from four to seven inches, and slag ballast is being used. It was found that the heavy locomotives were too hard on the tracks where ashes and coal dirt were used, and a more substantial article was found necessary.
John Kline and Anthony Pabusitus, two Polanders, of Mahanoy City, were arrested for killing a game out of season. When arrested a rabbit was found in their possession, which they had shot on the mountain. They each paid \$5 fine and the cost of the suit, and were released. The suit was brought by the Mahanoy City Game and Fish Protective Association. The association is keeping a sharp lookout for all offenders.

ELECTRIC RAILWAY PATRONS

Notice Should be Given the Conductors by Passengers Who Wish to Leave the Cars—Other Matters.

THE conductors and motor men on the electric railway say that they would feel grateful to the patrons of the road if they would indicate when they want to leave the cars before their destinations are reached and give the motor men time to slacken speed before they bring the cars to a stop. Many people wait until they reach the point at which they wish to get off before notifying the conductor and then growl if the car goes a yard beyond the point. The cars cannot be stopped instantly and the passengers who remain on the cars are uncomfortably jarred when sudden stops are made.

It was reported to-day that Barber Creedon, of the First ward, and Andy Brennan, of Lanigans, had a trial of static supremacy last night and the barber shamed his opponent in the seventh round.

Creedon is gaining considerable notoriety in sporting circles. A few days ago a newspaper announced that he was anxious to wrestle any 150 pound man in the county, catch-as-catch-can, for \$100 a side. Last night a young man from Girardville called at Tom Moakier's and said he was anxious to take up the challenge. Moakier turned a ten dollar bill off his money making machine and slapped it down on the counter to tie a match and said he would back Creedon with all the money the machine could make. The Girardville young man took water and left the place.

The amusing feature of the challenge is that Creedon is not a candidate for honors in the wrestling arena and Moakier's offer of a forfeit was only a bluff.

There are in town eighty Dagoes who constitute one of the hardest working gangs in this section. They work at Packer No. 5 colliery. They leave town every morning at 5 o'clock, on the first electric car, and reach their homes in the evening between 8 and 9 o'clock, and their is no sliding scale in this working time. They never get home earlier, but frequently start for their work at 4:30 a. m.

A shanty for the Dagoes who are to work on the Pennsylvania section of railroad between this town and Girardville has been erected near Turkey Run crossing. Some of the Dagoes moved into it last night. A number of bunks are erected in tiers on each side of the shanty and a narrow passage way is left between the rows of bunks for the men to pass in and out. If the hot spell continues much longer we may expect to see a stream of melted Italians running down the embankment from the shanty to the creek. The only means of ventilation for the shanty is the doorway. One would expect a brass monkey to melt away in the place.

PERSONAL

Harry Hicks, of Conestoga, is visiting his friend J. M. Boek.

Letter Carrier Kehler returned from Lakeside yesterday greatly recuperated. A letter from J. C. Powell states he is having an elegant time abroad.

Thos. F. Christwaite, of Ashley, and Joseph A. Boyle, of Hazleton, are visiting friends in town.

Miss Georgia Lake, of Easton, who has been the guest of Miss Virgie Holloper, left for Philadelphia yesterday.

A. F. Ake, of Zions Grove, spent yesterday in town, the guest of Col. Scheidt. "Jim" treated him royally.

Hon. D. D. Phillips is at Atlantic City. He is laid up with his old trouble—the stomach.

Hon. Elias Davis, Republican County Chairman, was in town yesterday. He is confident of success this year, everything looking favorable for such a result.

Messrs. Finney and Sadler were called to New York yesterday on important business which, in the near future, is expected to bear good fruit.

Assistant Postmaster Dengler was inspecting farm lands in the Catawissa Valley yesterday. We have not learned how many acres he purchased.

Last evening a party of college boys came to town for the purpose of visiting the mines about town and vicinity. We notice R. A. Leonard, an old friend, with the crowd.

"Sam" MacLish, of St. Paul, Minn., a prominent electric expert, was in town yesterday examining our railway system and making suggestions which, if followed, will add to the efficiency of the road.

Our friend, Capt. A. H. Roads, will regret to learn that Moritz E. Doering, editor and proprietor of the Hamburg *Schneidpost*, is dead. He died suddenly on Tuesday, aged 65 years. This paper was at one time published by John Scheidt of this borough.

James H. Benedict, from near Fort Wayne, Indiana, a well-to-do merchant, who has been sojourning with friends in town, left for home yesterday, fully impressed with the importance of this place as a manufacturing centre and his visit may result in securing for us a plant of some kind.

A party of ladies to the number of ten or twelve, in charge of Miss Marie Prescott, of Olney, spent last evening and part of this morning in viewing all points of interest in town and taking a trip over the electric road. The party was delighted with our city and the people. Their time was limited and will make another trip soon and go down into the coal mines.

TIMELY TOPICS.

What People Are Talking About These Times.

People are talking about the new deal just made by the P. & R. Co. It is a good one.

They say the Dagoes can stand work in this kind of weather better than any other nationality.

The saloonkeepers are not complaining. They are kept busy tapping ice cold beer for the thirsty.

"Dave" Llewellyn is sporting a costly watch chain, the present of a lady friend.

The most cheerful reading nowadays is that concerning Siberia.

Some of the farmers who came to town this morning were fearful of their barns taking fire unless relieved soon by cooler weather. The hay and grain already stored is hot enough to cause alarm.

There ought to be plenty of ice water on the passenger trains. A wise traveler always has with him a bottle of Jamaica ginger. It comes handy in case of stomach sickness.

The poor horses have to suffer most, especially when driven by careless and cruel hearted drivers. No one should take a drive in this hot weather just for the pleasure. Save the horses.

Let Us Advise You, Ladies.

We again feel called upon to do the female portion of our readers the favor of drawing their attention to the publications of Messrs. A. McDowell & Co., 4 and 6 West 14th street, New York. This firm imports and publish the American Edition of the *Parisian Fashion Journals*, "*La Mode de Paris*," "*Paris Album of Fashion*," "*La Courtisane*," "*Paris*," and "*La Mode*" 15c. These books have been favorably commented upon by us in previous writings, but in consideration of the many improvements we have noticed we do not hesitate to speak of them as the first journals of their kind to be found on the bookstands. Their September numbers will contain all the latest fall styles at least a month earlier than any other fashion paper. The plates in McDowell's *Journals* are not reproductions but are the work of French artists, done in Paris. Send for sample copy.

Another Big Deal.

President McLeod has again "scooped" in another railroad, the Central New England and Western Railroad, the outcome of the Poughkeepsie Bridge deal. The capital of the new corporation is \$6,000,000, and will add greatly to the earnings of the P. & R., and open up new markets for anthracite coal.
