The caucus was held to endeavor to effect an agreement by which the present deadlock on the World's Fair Appropria-tion clause in the Sundry Civil bill could be broken and a speedy adjournment be brought about. There were about 100 members present, with Representative Holman in the chair.

But the canal is inefficient; wofully so A resolution was offered by Mr. Mutchin the opinion of the extra energetic shippers at the Lake Superior ports, ler of Pennsylzania, which in effect was that there should be a vote on a separate World's Fair bill, making an appropria-tion of \$5,000,000 in aid of the World's largest vessels fully laden operates to the advantage of their great rival, Chi-Fair, on the first Wednesday in December next, after six bours debate, and that in 1890 ran from fourteen feet and nine only 3 amendments thereto should be in inches to fifteen feet and three inches, order. was adopted—60 to 81.

The first business in order when the House assembled yesterday was the resolution presented by Mr. Holman (Dem., Ind.) to extend the government appropriations for four days. He explained the necessity for the appropriation and said the House was confronted with a peculiar situation. The gentleman from Illinois (Mr. Hopkins) had stopped the wheels of the Government by objecting to ried between thirteen feet and ten inches to fourteen feet five inches. Such vessels as are now being added to the lake service draw sixteen and a half feet, and in view of the present depth of water in the canal it will be seen that peculiar situation. The gentleman from Illinois (Mr. Hopkins) had stopped the wheels of the Government by objecting to the consideration of the resolution on Saturday last. Never before in the histrip by carrying only partial loads. The government is awake to the situation, and the new lock which is now building, at a cost of four millions of dollars, will tory of the Government had such a state of affairs existed. the House, and so objected.

Mr. Reed (Rep., Me.) followed with a characteristic speech and said that the blame for the fallure to pass the Sundry Civil bill rested with the Democratic majority and the filibustering against the World's Fair. Mr. Holman was responsible in a large degree for the present condition of things. The appropriation for the World's Fair had the sanction of the Senate and also of 140 members in the House, and there was nothing urged against it except the miserable technical ity that some think it ought not to pear in an appropriation bill. The gentle-man from indiana had the boldness to stand up here and charge his sins on other men. A House with 140 Democratic majority was responsible for legislation, and yet Mr. Holman had blamed this mat-

General Meyer, of Louisiana, was the ext witness. He was of the opinion that Mr. Cobb was soler when he delivered his speech on the Noyes-Rockwell con-tested election case. He noticed that he was somewhat mixed toward the end of his speech, but that was doubtless due to the frequency of the interruptions which occurred during the colloquy. Gen. THE CONFERENCE IN WASHINGTON

Secretary Poster and Mr. Herbert, British Charge d'Affaires. Discuss the Marter-Bir John Thompson Coming to Washington to See the President.

Washington, Aug. 2.-The results, if any were reached, of the conference yes terday between Mr. Foster and Mr. Herbert, British Charge d'Affaires, over toffs on the Canadian canals, is connection with the retaliation act passed by Congress, are carefully guarded. It is said, however, that Mr. Herbet in-

timated that the discriminating tolls charged against American vessels for using the Canadian canals, while within the letter of the treaty between the two countries respecting the navigation of the canals and the St. Lawrence, was probably not in accordance with the spirit of the document.

He disclaimed any knowledge of an intention on the part of the Dominion government or that of the mother country to enter upon or to authorize a series of reprisals against the United States in case President Harrison acts under the terms of the new law.

He probably recognized if he did not admit the inutility of such a course, as it would at once lead to the entire suspen-sion of a great part, if not the greater part, of the traffic of the Canadian transcontinental line.

It is said at the State Department that

the officials there did not know that Sir John Thompson of Canada is on his way to Washington to secure a pledge from the President that he will not issue his proclamation until the opportunity has been given the Canadian Government to hear from England and decide on a line of imrediate action.

While President Harrison does not usu-

ally act precipitately in public matters, it is probable that whatever delay there may be in issuing a proclamation will be due to a consideration of interests on this side of the border.

DON'T WANT TO BE NUMBERED. Why Four Pundred Employes Are Strik-Ing at Newtown, Conn.
