LIZZIE BORDEN AGAIN EXAMINED.

A Great Change in Her Appearance Creates Comment - Growing Sentiment in Her Favor - Feeling Against Inspector Hanson and Counsellor Jennings.

FALL RIVER, Mass., Aug. 11.—This morning it cannot be said that the police have any substantial clue to the murders of Mr. and Mrs. Andrew J. Borden.

Last evening State Detective Seaver handed the following bulletin to the representatives: "The inquest was continued at 10 o'clock to-day. The witnesses examined were Miss Lizzie Borden, John V. Morse, Miss Emma L. Borden, Dr. S. W. Bowen, Adelaide B. Churchill and Hiram C. Harrington.

This was all that was given out after examinations lasting four and a half hours. The principal witness was Miss Lizzie Borden. The change in Miss Borden's appearance, after her examination, is the chief topic of conversation at the police station.

Prof. Wood, the analyst, appeared at the station early, in company with Medical Examiner Dolan. Shortly after the inquest was resumed the two men were admitted and were behind closed doors about twenty minutes.

When Mr. Morse came from his examination he was calm and collected as he has been since suspicion has been directed toward him.

Dr. Bowen told a straightforward story, covering the time since he was called to the Borden house, a few days before the murder. He incidentally gave some testimony which startled the authorities.

Hiram Harrington could offer very little testimony regarding the circumstances surrounding the murder.

It is now generally admitted that a great deal of hope is being placed in the accuracy of analysis and the examination of the blood on the clothing.

The police have again become active in the search after evidence and one or two details in regard to the missing letter said to have been received by Mrs. Borden are again being sought by the officials.

Much credit is being given in police circles to the work of Dr. Dolan, who has practically neglected a remunerative business since he was called on to act officially.

Miss Borden was asked some nerve-shaking questions and when she came from the police station her face was tear stained and she was very much upset.

HANGED HIM IN EFFIGY

Gov. Buchanan's Act Enrages Memphis Citizens.

KING SPIRITED TO NASHVILLE.

A Plot Formed to Take Him from Jail and Strang Him Up—The Sheriff Warned, and Takes the Colonel Away Secretly—Great Excitement Prevails.

MEMPHIS, Tenn., Aug. 11.—The commutation of the sentence of H. Clay King, the murderer of H. D. Poston, has caused much excitement here. Gov. Buchanan is bitterly attacked by some of the local newspapers.

Intense feeling was aroused. A mass meeting was arranged for last night, and it was given out that the jail would be attacked and King lynched. So great was the anxiety that Criminal Judge J. J. Dabose issued the following order:

It appearing to the Court that there is now undue excitement in the public mind because of the commutation of sentence of H. Clay King, who was by the Supreme Court sentenced to hang on the 12th day of August, 1892, and it further appearing that the commutation of his sentence is not safe to longer keep said King in the county jail of Shelby county, it is, therefore, ordered by the Court, that the sheriff of Shelby county, without delay, take said King and deliver him to the keeper of the penitentiary at Nashville, in pursuance to the order as made by the Governor commuting his sentence to life imprisonment in the penitentiary of the State.

How much these frauds would amount to is not known, but it is believed that the total is many thousands of dollars. Much of this has been the money of poor people, transmitted through the consul from America, legacies, the residue of settled estates and so forth.

Since the great increase of Scandinavian emigration within the past decade, Ryder's opportunities for fraud have been unusually large, and it is understood that he has taken full advantage of them. He had long been suspected before the authorities took action.

Much indignation is felt against Ryder for having dragged his wife into his predicament, and in view of Ryder's confession she will be let off with a light penalty, or none at all.

Some of the victims of Ryder's frauds say that the United States Government ought to repay those who have been robbed, on the ground that the United States authorities ought not to have kept such a man in office.

Ryder appears to have used much of his money in speculation, as there is no evidence that he lived extravagantly.

The police have no doubt that he endeavored to commit suicide after his arrest, by the removal of the canula from his throat, and it was this circumstance that first roused their suspicions that his delinquencies involved much more than the case on account of which he was arrested.

Many Lives Lost in a Collision. LONDON, Aug. 11.—Fuller details of the collision, attended by great loss of life, between steamers near the coast of Finland, show that two coasting steamers, the Ajax and the Blueberg, collided off the port of Helsinki, the capital of Finland, on Monday last, during a fog. There was no time to lower boats, as the Ajax sank almost instantly, carrying down nearly one hundred persons.

The Blueberg was badly injured, and could not have remained afloat long, but her Captain stood by as long as possible to save all that he could of the Ajax's passengers and crew. Eighty-six persons are missing, and thirty-nine bodies have been recovered.
