## OUR DUTY.

We agree with the New York Press that, with the calling out of the Na tional Guard to protect trains from being wrecked, the lives of innocent people from being risked and property from being wantonly destroyed by fire every difference between capital and labor or between employer and employe, or between Democrat and R-publican, retire from the arena, and all good citizens, without distinction of party name or platform, unite in support of the law, of the institutions of the state and the United States In the conflict with anarchy the the American nation expects every man to do his duty.

There must be no recoil, no negotiation, no settlement with crime and to Ohio of three weeks, violence presenting a defiant front to state. The supremacy of the law must be recognized and established then let corporations and individuals called some time ago.

## PROVES TO BE MURDER

Veteran Loveman Was Killed for His Money.

HIS FRIENDS THOUGHT IT SUICIDE.

Investigation By the Coroner Reveals Bullet and Stab Wounds on the Body-He Had Just Received a Large Sum of Pension Money.

TRENTON, N. J., Aug. 22.-William Loveman, an old soldier, who was found dead in his home at Cranberry Park, Burlington county, on Friday, was supposed to have committed suicide, and the police made no investigation and simply notified the coroner. As a consequence the latter did not go at once to the scene, and the matter remained uninvestigated.

Yesterday afternoon Coroner De Worth drove to the house, impaneled a jury and proceeded to make a formal post-mortem men whose acts have made them out- examination. He was startled by the result. Loveman had been shot and stabbed laws, and every one who knows Mr. in several places. The shots had entered McLeod, or who has watched his bis abdomen. On his breast was a deep stab wound. There were two stab wounds in the neck and one in the back of the head.

The coroner after finishing the postmortem adjourned the inquest until to-day at Cookstown, when a rigid investigation will be made

Loveman was a veteran of the late war and for some years he had been in receipt Louis eastward to a settlement in the of a pension. He took advantage of the State of Illinois at the rate of 100 recent acts of Congress and applied for a miles an hour. The preliminary work cation was favorably reported upon and encouraging. We learn that there is trace of this money, and it is thought by

any bank and he is supposed to have kept it about him as a means of greater security.

Cranberry Park is a small place, and Loveland's house was situated some distance from the village. Although every-one in the village believes the old man was murdered and is ready to assign a cause for the crime, no one has been able to advance any clew to the perpetra-

## THE BORDEN MURDERS.

The sentiment in the city, which early in the week was on the side of the defendant, has, during the past few days, rapidly drifted to the support of the po-lice officials. Lizzie's supporters are not doing much talking of late, but are working under cover and in conjunction with Attorney Jennings, in building up a defence. Part of the government's case will go in at the examination to-day, but the best part of it will probably

not.

The defence will not produce any evidence, but depend upon an argument that the government's case does not warrant the holding for the grand jury. Emma Borden and J. O. Morse

now making preparations to leave the old house on Second street where the murder was committed, and will move to a much more modern house on June street. It is pleasantly situated on a hill above the main streets, and is much more congenial than the Second street house. The old house will be offered for rental, and, if not capable of being let, eventually will be torn down.

MAbout 35 witnesses have been summoned for the examination. District-Attorney Knowlton will conduct the case for the State and Andrew J. Jennings will defend the prisoner. The defense has secured the services of Melvin O. Adams, the wellknown Boston criminal lawyer to assist Mr. Jennings.

## CHOLERA DECREASING.

A Better Condition of Affairs Reported In the Infected Districts.

St. Petersauro, Aug. 22.-The official cholera report issued to-day shows a better general condition of affairs in the cholera infected districts. According to the report there were 6,903 new cases of the disease yesterday throughout the country and 2,376 deaths. That is a decrease of 974 new cases and 1,106 deaths, as compared with the figures for Friday. It also shows a large decrease in the propor-tion of deaths to cases.

The Governor of Nijni Novgorod has

caused 150 strokes with a rod to be administered to a hospital attendant who had spread false reports about the cholers. In addition to this punishment the attendant, together with six other persons who had also spread false reports concerning the disease, was sentenced to three months' imprisonment.

The Governor announces that similar action will be taken in all cases where false reports are circulated for the purpose of frightening the people. The dis-ease continues to abate at Nijni Novgorod and many strangers are now in attendance

upon the fair.

Travelers report that cholers has been imported into Siberia by batches of con-victs. No sanitary precautions are taken in the cases of convicts. No examination is made of them, and if they are suffering with the disease or carry the contagion with them, no attention is given. They are not even isolated.

## The President's Movements,

Loon Lake House, N. Y., Aug. 22.— Although Saturday was the fifty-minth anniversary of the birth of President Harrison, the fact was kept rather quiet, or at least not much was said about it until evening. Then the President attended a sleight-of-hand performance.

#### QUIET AT COAL CREEK. Miners Awed by the Troops-Trouble Fenred at Jellico.

KNOXVIILE, Tenn., Aug. 22.-Absolute peace reigns throughout Coal Creek valley to-day, and but for the movements of the soldiers the village, that for nearly a week has been the scene of fierce conflict, is as quiet as a New land farm town. There are a great many strangers in the place visiting the scene

of the riots. The trains leaving here yesterday car-ried large numbers of Knoxville people anxious to view the ground where two of their fellow-citizens fell in battle. On arriving at Coal Creek and properly identifying themselves they were given passes and allowed to go inside the lines. Fort Anderson and the scene of Friday morning's fight were visited by hun-

While General Carnes is of the opinion that the miners cannot again raily a sufficient force to do much damage, he will not advise the recall of his troops a few days, as there are several bunches of miners in the hills who still show an inclination to be ugly, and it is claimed that they are responsible for the numerous alarming reports of the gathering of large numbers of miners and the threatened attacks that reach here.

The latest reports from the Jellico district are not, it is believed, exaggerated. The report says that all the miners in the Jellico district, including those from mines at Middlesboro, Ky., are massed at Jellico. A great deal of whiskey is being used, and the leaders are endeavoring to organize a force sufficient in size to take Coal Creek. About eleven hundred of them were at a meeting which was very enthusiastic until volunteers were called for to make the attempt to capture the fort. Only 200 volunteered. Less than three hundred guns were found in the place, and they will not attempt further trouble

unless they get re-inforcements.

Fort Anderson is on a hill overlooking the stockade and the valley below, and could not now be attacked by the miners without great loss of life on the part of the invaders. In addition to the large supply of ammunition already on hand there are 40,000 rounds in the depot in Knoxville awaiting shipment to Coal Creek. Some of the men arrested were set at

liberty by Gen. Carnes after the presenta-tion in evidence that they were quiet and

peaceably disposed persons.

After the prisoners are all gathered in it is probable they will be placed in jail at Clinton, the county seat, and guarded by a military force until the authorities have dealt with them. The force will be large enough to make

a strong resistance in the event friends of the prisoners should make an effort to rescue them. There are threats from the miners, but it is not believed they will be so foolhardy as to rush into the face of certain death.

Despite the assurance that the State troops are in full command at Coal Creek, the volunteers of this city are still ready to be called together at short notice.

CASHIER MURRAY'S SHORTAGE. It is Said to be \$75,000-His Whereabouts

### SISTARE WAS NOT INSANE. It is Now Believed That Penury Drove the Broker to Suicide.

New York, Aug. 22 .- It is now gener ally believed that George K. Sistare, who committed suicide by shooting himself in the reception room of the Manhattan Club July 28, was not insane, but was driven to desperation by penury and disappoint-

and the time of his death Mr. Sistare had ess than five cents in his pocket, and from etters now in the hands of Public Administrator Lydecker it is known that he went to the club to meet Lawyer H. S. Bennett of No. 45 Broadway, who was custodian of \$16,750, in which Mr. Sistare had a half interest. It is believed that on Mr. Bennett's refusal to pay him what was due he became desperate and shot himself. At present Mr. Bennett is out of the city.
