THE SWITCHMEN HOPE

But It Seems Certain That Their Cause Is Lost.

OTHER ORGANIZATIONS ARE FIRM-

No Indications of a Sympathetic Movement on the Part of the Trainmen, Upon Which the Strikers Were Depending-Invidents Which Have Burt the Men In Public Regard-The Troops to Remain Until the Trouble Is Over-All the Reads Moving Preight in Large Quantities.

BUFFALO, N. Y., Aug. 22 .- "The strike is ended. The men are beaten. They acted prematurely, were ill advised, and if they cannot make terms with the companies within 48 hours their places will be lost to them." This is the summary of the situation as expressed this morn ing by Florence F. Donovan, a member of the State Board of Arbitration. He has been a sympathizer with the men, and therefore his opinion is of value.

The side strikes at Niagara and El-

mira are inactive; the firemen have not gone out; the railroad telegraphers have made no move; the trainmen are in an aggravatingly hesitating mood, and altogether the unfortunate switchmen, in the face of the defeat which stares at them, have the added grief of realizing that they went into action without having taken the most elementary steps to-ward forming sympathetic alliances that would almost surely have been able to pull them through.

Freight traffic was resumed with a vengeance by all the roads to day, and the officials of all the lines give out the most encouraging reports. Within three or four days the freight blockade will probably be removed.

The Erie is no longer crippled. Supt. Charles A. Brunn told a United Press re-Charles A. Brunn told a United Fress re-porter this morning that his read sent out 13 full freight trains yesterday, besides opening up the Black Rock and Suspen-sion Bridge yards.

"I have ten switch engines at work to-day, and they are kept busy, too. We have to-day begun loading our grain cars

and in a day or so our elevators will be relieved of the blockade."

The Central no longer feels the strike, so far as its road is concerned. To day they have a full force of switchmen at work. The new Eastern hands are turn-ing out well, but those from the West are failures, with few exceptions. Freight trains in the big East Buffalo yards are being sent out regularly. The Black Rock and Niagara Falls yards are open too, while the Ohio street yards, where the grain trains are made up, are being cleared up rapidly.

There is a marked improvement in the

Lake Shore, West Shore and Nickel Plate and Lehigh yards. The new men are being broken in rapidly, and as they become acquainted with the track and switches their work improves. All the yards did a good day's work yesterday and most of the roads resumed the night

freight service.

Two very unfortunate affairs have done much to turn public sympathy against the switchmen. One was the derailing of the Erie train and the other was the capture last night of Daniel Cabill, who confessed himself a striking switchman. William Kaye, a non-union man, was turning a switch at the Lehigh Junction, East Buffalo, when Cahill set upon him and assaulted him. The timely arrival of the guard alone saved the man's life. Cahill was arrested and turned over to the police. He confessed the assault, said he was a striker, and that he committed the act because he felt that a man who took his place deserved to suffer for it.

The authorities are hard at work endeavoring to locate the miscreants who came so near wrecking the passenger train late Saturday night near Linden station. It is reported that five suspicious characters were seen in that vicinity during the afternoon, and the railroad officials think they are the victims of a conspiracy, but until fuller information is obtained it is impossible to tell whether the attempt emanates from the strikers or from tough characters, a large party of the latter being in this vicinity.

That the train was not wrecked is a mystery. While running at good speed the engine jumped the track and the baggage car followed.

baggage car followed.

Prompt application of the air brakes brought things to a standstill with a shock that threw the passengers into consternation and they swarmed from the cars thoroughly alarmed. Examination of the track showed that fish plates had been wedged in a blind switch and indicate from the convents. judging from the remnants, what appeared like a freight car door had also

been placed across the rails.

John Brown, Thomas O'Brien, John
Hughes and Michael Fallen, all striking
switchmen, were arrested last night in
the East Euffalo yards of the Erie. They were acting suspiciously, and the police thought they meant trouble. Brown was

pin, and Gould's injuries consist of cuts on his body.

The strikers were pretty hadly pune tured with bayonets, one of them, probably Intally. Notwithstanding all the hubbulb about

there being too many soldiers here it is evident their presence is felt to be a necessity by those who have property at anufacturers and business men who

campaign is now believed to be to neg the roads into a compliance with his demands by successive strikes. Sweamey is said to be not at all sanguine of the result of the present strike here, but he is not greatly disturbed at the probability of failure. The women relatives and friends of the strikers are giving the soldiers as much if not more trouble than the strikers. They annoy the troops in every possible way, mounting cars and trestles and dropping stones and big pieces of coal on the militiamen and jeering at them. The soldiers are at a loss to know how to do with these female disturbers of the peace They can hardly fire upon them and do not like to deal harshly with them. These women are mischlevous, also and do not hesitate to dare to do what the strikers

would ordinarily pause at.

Two women were detected in a freight car, and after being driven out a can of kerosene was found in the car. It is possible the intention of the women was to

ignite the oil at an opportune time.
With Governor Flower in Watertown at home and Adjurant General Porter in Buffalo, the military headquarters of the State have practically been transferred from the capital to the opposite end of the State.

All the important general staff officers of the National Guard are here, and it is evident they are greatly interested—not only because of the strike but by reason of the mobilization of so large a number of the State troops in one locality.

Gen. Forter, when interviewed to day,

said: "If find myself among many friends in your city, about 7,000 of them (all in uniform) and I expect to have a chance to see them all. I do not recall an in-stance where the militia of the State has ever been congregated at one place before. In 1877 Governor Robinson called before.
