#### DECLARED OFF BY SWEENEY

The Switchmen's Strike Came to an End at Mid-

night.

OTHER BODIES WOULD NOT COME OUT IN SYMPATHY.

The Grand Masters Refused to Call Out Their Meu Unless, They Had a Grievance-More Vintence by Strikers-A Soldier Budly Injured-Reward Offered by Gov. Flower for Conviction of Violators of Laws Belating to Railroads.

BUFFALO, Aug. 25 .- The unfortunate witchmen's strike of 1892 in New York s over. What little vitality there was left was effectually crushed out last evening at the close of the much heralded onference of the executives of the railway orders who came here in response to Frand Master Switchman Sweeney's inviation. Nothing then remained for the latter but to arrange the funeral, at which there are mourners in plenty, now that the strike is off.

In spite of the fact that the result bas been prophesied for days, the general unfamiliarity with the methods of proceedare of the organizations represented left a sufficient doubt and possibility that something might be done, and thus created an interest in the gathering which would otherwise have been unwarranted.

After leaving the conference Grand Master Sweeney and Local Master Moriarity, of the switchmen, called together the members of the committee that had been conducting the strike, and it was rebeen conducting the strike, and it was reported that at 11 o'clock a statement would be ready. As early as 10:30 there was a camp of newspaper men on the fourth floor of the Genessee Hotel, before the door of room 163, the quarters that have been the home of the switchmen's chief during his stay in Buffalo.

Shortly before 11 o'clock the door was opened, and the waiting throng entered. The statement of the end of the strike, made verbally by the Grand Master, was as follows:

as follows:

as follows:

"The duly authorized committee have declared the strike off, and I have sanctioned their decision. Five hundred and fifteen switchmen cannot cope with twelve big railway corporations and 8,000 militia and succeed. We have made a strong fight and have lost."

Asked if he had a systhing to say in re-

Asked if he had anything to say in re-gard to the failure of the other organiza-tions to come to the aid of the switchmen, Mr. Sweeney replied: "Let them speak for themselves. I have nothing further

to say."
When asked to give his views on the possibility that the present strike may lead to a renewal of the federation of railway employes, Mr. Sweeney declined to say anything further, in this respect following the lead of other executives, who, when asked the same question after the afternoon conference, simply an-swered that "the future was not dis-

It was more than ever the general opinion, just before the conference was called, that the leaders would advise declaring the strike off. It was also believed that a general federation agreement between the four organizations which was disrupted last June as the result of interal strife would be effected and their lines strengthened for next year.

Grand Master Sargent, of the firemen, has been here for two days, and Grand Master Wilkinson, of the trainmen, and Grand Chief Clark, of the conductors, arrived from Chicago yesterday. The four leaders went into secret conference at Sargent's at the Broezel House at 3 o'clock and were in session not quite four hours. When they finally reappeared the hotel corridor furnished a first-class imitation of the hours—during a political conference, the politicians in this case be-

Grand Master Sweeney slipped away, leaving the visitors to undergo an quisition, and the ease and tast with which the avalanche of questions was partied and all inquirers referred to Mr. Sweeney on the vital interrogation-"Is the strike off!" was evidence that the lenders are diplomats if not statesmen.

Messrs, Sargent, Wilkinson and Clark were in full harmony as to the position of the firemen, trainmen and conductors, which, in a nutshell, is no strike without a grievance. In talking with a reporter, a gravance. In taking with a reporter, Grand Master Wilkinson said: "The trainmen are in full sympathy with the original proposition of the switchmen, in fact, they think they deserved even more than they asked for."

Grand Master Sargent returned to Terre Hante at midnight, well satisfied that any hot-headed members of the Brotherhood of Firemen hereabouts have con cluded that his advice to "keep on boiling water" is too good to be disregarded at

the present juncture. Grand Master Wilkinson and Grand Chief Clark will remain until this after-

As soon as the news began to spread over the city, which it did very rapidly in spite of the storm, there was general rejoicing. The immediate withdrawal of the troops is not expected, as it will take more or less time for a complete restoration of quiet and cessation of the attacks to which the non-union men soldiers have

been subjected. The strikers and their sympathizers continued their night attacks upon the

troops and non-union men.

The Buffalo & South Western division of the Eric tried to send out an unguarded frieght train on its road shortly before

There were three non-union men on top of the cars. As the train slacked up near Senson street a lot of strikers boarded it and threw the three non-union switchmen off the cars and assaulted them with coupling pins. They are seriously in-

After the assault the men fled before an alarm could be given and escaped.

Another attempt was made to wreck a freight train in the yards at Suspension ridge early yesterday. An eacthound sw York Central freight was making by and getting ready to leave. While backing in on a spur at the eastern end near the Lockport road a switch was turned between the wheels of a car and the result was that a car in the middle of the train was derailed and thrown on it side. The train was stopped and the de railed car cut out.

The switch house where the switch tender stood with his lantern was only four rods distant, but the marauder made good his escape.

Highest of all in Leavening Power.-Latest U. S. Gov't Report.

ABSOLUTELY PURE

Private Charles Delelianty of Company D, Twelfth Regiment, New York, was injured by being struck by a freight train and was taken to the Emergency Hospital. Delehanty was dozing on the track and did not notice the freight which was backing down. He was thrown from the track and injured about the head and

The State Board of Arbitration is hard at work making an investigation of the causes leading to the switchmen's strike, and which will be embodied in their annual report.

The report yesterday from Rochester that 75 switchmen on the Central at East Rochester had struck cheered the strikers here, but proved to be partially

There are but 75 or 100 switchmen along all the Central tracks in Rochester, and only twenty-two are employed in the East Rochester yards, ten night and twelve day switchmen.

These twenty-two struck at 4 o'clock, but the trouble was of short duration. The men do not belong to the union and the strike was not so much in sympathy with the Buffalo men as it was because the men there had a slight grievance in that they did not get extra pay for Sun-day work as was the custom in Buffalo. Assistant Superintendent Gould went

to the yards and talked with the men, adjusting the grievance. The men went home to change their clothes and soon afterward they returned to work.

Section men and extra trainmen num

bering one bundred and ten were brought to Buffalo from Scranton shortly after noon by the D. L. & W. railroad to supplant the switchmen who struck Tuesday afternoon on that system.

They were secured principally from the Southern and Bloomsbury divisions. General Manager Halstead had hurried direct from New York to Buffalo, and Superintendent Bogart had charge of the

gathering of this force of recruits.

They were not informed as to the work expected of them until nearly time to leave Scranton. Some of them rebelled against going, but were given the alternative of working or quitting the em ploy of the company.

Gov. Flower Offers Reward.

ALBANY, N. Y., Aug. 25.—Gov. Flower yesterday issued a proclamation, which, after reciting the ordnances regarding railroads, says: "I hereby offer a reward of \$100, to be paid upon the arrest and conviction of each person who shall dur-ing the next 30 days violate any of the provisions of the Penal Code relating to steam railroads. The failure or omission of any sheriff, district attorney, or other civil officer to take the most active steps in his power to enforce the provisions of the Penal Code will be considered suffi-cient cause for his removal.

SHIPPERS WILL NOT SUFFER

Canada to Re-imburse Them for Losses Caused by Retaliatory Tolls.

OTTAWA, Ont., Aug. 25.-It has been decided that the government will reimburse the Canadiau shippers for this season for any loss they may sustain through the imposition of tolls on freight going to a Canadian port through the St. Mary's At a meeting of the Cabinet the outlook

and the probable effect of President Harrison's proclamation on Canadian shipping was discussed. A member of the Cabinet states that no

attempt at retaliation will be made in the on of imposing discriminatory tolls on American vessels passing through the Welland canal, as has been suggested

by some of the government press.

It was further decided to carry to the notice of the British government the ab surdity of continuing the Washington treaty in force, in view of the fact that it has been denuded of every clause by which special privileges were conceded to Canadian citizens, and urge the abro-gation of the treaty at the earliest possible moment.

DABOLL'S FAINT HEART. Fear that He Would Fail in "Puritana" Caused His Death.

HOLLISTON, Mass., Aug. 25 .- After a short service to-day the remains of the dead actor, W. S. Daboll, will be taken to Providence.

Owing to the illness of his sisters in that city there will be only a brief service and that at the grave.

It has been excertained that Daboll took the poison while passing up stairs behind his wife, and also that he was sufficiently read in medicine to prepare the poison. It is stated that quite recently he told how he had once attempted suicide with bendanum.

Later developments lead to the belief that Daboll committed suicide because he feared he could not master his role in "Purifana," and he chose death rather than failure.

WILL THEY INVADE GEORGIA! Militia Under Arms to Repel Tennouses

Miners.

ATLANTA, Aug. 25.—Atlanta's military companies are under arms to-day. special train stands ready to rush them through to Cole City in three hours. The Dalton Guards and the Rome Cadets are all ready to get away.

A rumor reached the city yesterday that A rumor reached the city yeaternay that the Tennessee miners were contemplating an attack on the coal mines in Dade county in order to liberate the Georgia convicts confined there.

The Governor was not in the city, but he was soon in communication with the office here by telegraph, and since theo the wires have been in constant use conveying messages to and from the Gover for to the city officials here and in Cole

City.

Adjt. Gen. Keli has put himself in communication with the Dalton Guards and the Rome Light Infantry, and has and the Rome Light infantry, and has ordered them to be ready to march at a moment's notice. These are the only companies in the northern part of the State, but ft any more soldiers should be needed they could be obtained in a very short while

An Over-Officious Reporter Ejected. CHICAGO, Aug. 25.—A despatch from Coal Crock says that correspondent Har-grave of Nashville was ejected from the telegraph office at Coal Crock yesterday. by order of Gen. Carnes, commander of the Tennessee troops. The charge against him is said to be the too officious use of the privileges given him.

The Convicts Sent Back.

NASHVILLE, Aug. 25,-The 600 convicts recently sent back here from Oliver Springs, Tracey City and Inman by rioters, were formally returned to these branch prisons. They will be protected by guards.

THE CHILD-WIFE BURIED. Fourteen-Year-Old Lulu Yost Finds Res at Last.

NEWARK, N. J., Aug. 25 .- The funeral of Mrs. Lulu Yost, the child-wife of Christopher Yost, was largely attended at her late home, 107 Somerset street. She died Sunday from the effects of phos phorous, obtained by soaking matches in water, swallowed with suicidal intent.

The young wife was fourteen years, six months and nineteen days old, and had been married five months. Her husband

When the girl was married last March a good deal of comment was caused, owing to her extreme youth. She was owing to her extreme youth. She was very protty, and unusually well-developed for her years. Her husband seemed very much in love with her, but it is said by those who knew them that the young bride has not been happy. It is said that she has of late given indications of mental derangement — "acting queerly," the neighbors say. It is known that she was in a delicate condition.

Her husband, who is a leather worker, found her ill when he came home from

found her ill when he came home from his work last Wednesday. "Chris, I've done it this time," she said. She was suffering great agony, and a physician was summoned. To him she declared that she had taken some chloroform lini-ment by mistake. The doctor's prescription relieved her pain, and she became able to resume her household duties.

Mrs. Yost was taken ill again Saturday, and told a neighbor, Mrs. Heinrich, that she had swallowed the phosphorus and how she obtained it. All measures adopted to counteract the effects of the on were in vain, and she died Sunday.

There are many phases of selfishness and perhaps the most trying of the various manifestations of this fault of faults is not recognized under this name at all. What is called sensitiveness, however, is very often nothing but selfishness pure and simple-a morbid. miserable form too-making the person herself and every one around her uncomfortable. A frank, generous, unselfish nature is not forever on the lookout for slights and unkindnesses on the part of others. What can be more trying than a person who is continually having her feelings hurt, who magnifies every hasty, unintentional word into a grievance, brooding thereon until it assumes exaggerated proportions! What can be more distinctly, morbidly selfish and self-seeking than such a disposition? Yet people of that temperament seldom if ever properly diagnose their troubles, but if they are honest they must acknowledge that they are continually thinking of themselves and of the rela lations of others to them. These people except where the telegraph reaches. are generally well-meaning and easy to please, not realizing that they are not living for others but only for themselves by thus indulging their "feelings" and hypersensitiveness.—N. Y. Tribune.

Withdraws from Iron Hall.

New Haven, Conn., Aug. 25.—The lo-cal lodge of the Order of the Iron Hall has practically withdrawn from the general body. There are 166 members, and at a meeting just held it was decided not to remit \$3,700 of assessments now due. The money in the treasury will be divided pro rata among the members in good

Another Carnegie Mili Started.

Pirranulu, Ang. 25.—The Carnegis 29th street mill was put in operation yesterday. The plate mill was the only mill started, but Superintendent Dillen says the other departments will soon be in operation. The strikers are as hopeful as ever, and not one of them has thus far shown the white feather.

Gladatone Re-elected. London, Aug. 25.—Mr. Gladstone has been re-elected in Midlothian.

TO KEEP CHOLERA OUT

Extraordinary Precautions at United States Ports.

THE PLAGUE REACHES ANTWERP.

It is Now Present in Three Great European Ports-Increasing Rapidly in Hamburg-New Cases at Havre-Reports from Other Sections Where the Disease is Prevalent.

NEW YORK, Aug. 25.—In view of the rapid western march of the dread Asiatic cholers, and to prevent its entering the United States at the port of New York, stringent precautionary measures have been adopted at Quarantine by Health Officer Jenkins of the port of New York and his assistants.

The fact that the cholers has appeared at Hamburg and Havre, two of the most important European ports to which the Atlantic lines run, has made the situation all the more alarming, and has increased tenfold the probability of its reaching the United States,

Dr. Jenkins has been carefully watching the steady westward march of the dread disease ever since its first appear ance, and has been making preparations to cope with it should it be brought here by any steamships entering the port.

The Health Department at Quarantine has never before been in such excellent condition, or better able to cope with contagious diseases, and should the choiera appear on any of the Atlantic lines Dr. Jenkins is confident that he can prevent its reaching further than Quarantine.

The August Solvet one of the best

Dr. August Siebert, one of the best known German physicians in the city, starts for Hamburg to-day, provided with instructions from our health authorities to the authorities there. His mission is to observe the methods of cholera treat-ment there and their system of quaran-tine against the Russian immigration that brought the scourge to that port, as it threatens to bring it here.

SPREAD OF THE DISEASE.

It Now Has Obtained a Foothold In Antwerp.

ANTWERP, Aug. 25 .- Yesterday it was officially announced that there was not a single case of Asiatic cholers in Belgium, the suspicions cases being simply cholera nostras. To-may the leading physicians of Antwerp declare the disease is true

This disease is now admittedly present in three of the great Northern European ports—Hamburg, Antwerp and Havre and there is a very strong suspicion that that the so-called cholerine prevalent at Stettin will turn out to be Asiatic chol-

HAMBURG, Aug. 25.-Up to this evening there have been 210 undisputed cases of Asiatic cholera in this city. Seventy of them have been fatal. There have been also about 200 cases which are said to have been cholerine, but

are believed to be of genuine Asiatic type. About 65 of these have proved fa-The hospitals and morgues are crowded

and the ambulances are now in constant The city is in a panic. Many wealthy citizens are leaving, and more are to fol-

London, Ang 25.—The people of Lon-don are becoming excited on the subject of choiera, now that it is known to have a foothold in a place so closely connected by passenger and commercial traffic with

Great Britain as Hamburg.

It is loudly complained that the regulations for examining foreigners arriving in this country from the infected districts are inadequate. These foreigners are chiefly dumped in the East End, where they settle down with the habits and customs of living as nearly as possible in their new situation that they have practiced at home.

The local government board, under the

impulse of public alarm and criticism, is preparing to strengthen its sanitary force and endow sanitary officers with additional powers. The newspapers complain of the sale of rotten fruit in the streets as tending to promote an epidemic of without a parallel in the history of medicine. cholera should the disease find its way here. This fruit is chiefly the refuse of itive guarantee, a test that no other cure can sucforeign imports.

St. Petersburg, Aug. 25 .- The official report on the subject of cholora states that the mortality exceeds 2,500 daily. Nearly every garrison in Russia has been attacked by the pestilence.

Pants, Aug. 25.—An official telegram from Havre, before midnight, states that there were recorded yesterday 46 cases of cholera and 13 deaths. This dispatch was withheld from the press. Two disinfecting engines have been sent to Havre,

TEREBRAN, Aug. 25.—The cholera scourge rages with unshecked violence throughout Persia, and countiess corpses He everywhere unburied.

Notwithstanding the urgent orders of the government, the Mollahs, or clergy, refuse to perform the last rites required in the case of the dead as preliminary to burist. These rites include the washing of the bodies, and this the Mollaha positively decline to perform when death is coursed by cholera

The drivers of the donkeys that carry the mail have deserted the service, and communication is everywhere suspended

MUST STOP FOR INSPECTION. Vess els En Route to Baltimore to Be Looked After at Cape Charles.

Washington, Aug. 25 .- The quarantine ship Charles Foster, near the Cape Charles quarantine station is now in po sition with quarantine officers on board at the mouth of the Chespeake Bay, and all vessels from infected ports are required to stop there for Inspection.

The steamers of the North German Lloyd and Bremen lines en route to Balti more are to be looked after especially with a view to protection against any cases of cholars that may be found of

The facilities for the bearing and inspection of incoming vessels are such that the quarantine officers can make the inspection without causing much dalay.

Restrictions at Beston.

Boston, Aug. 23.—In view of the rapid spread of cholera in Furope, the Custom House authorities of Boston have issued an order that no rags should be landed from any European port until examina-tions are made in each case in order to be assured that they did not come from any chalers infected district, until they were thoroughly fumigated. Best photographs and crayons at Dabb's; thoroughly fumigated.

A CME BLACKING is cheaper at 20 cents a bottle than any other Dressing at 5 cents.

A LITTLE GOES A LONG WAYS

because shoes once blackened with it can be kept clean by washing them with water. People in moderate circumstances find it profitable to buy it at 20c. a bottle, because what they spend for Blacking they save in shoo leather.

It is the cheapest blacking considering its quality, and yet we want to sell it cheaper if it can be done. We will pay

## \$10,000 Reward

for a recipe that will enable us to make WOLFF'S ACME BLACKING at such a price that a retailer can profitably sell it at 10c, a bottle. This offer is open until Jan. 1st, 1893. WOLFF & RANDOLPH, Philadelphia.
