BUFFALO, N. Y., Aug. 26.-The military authorities are stirred up because of conflicting suggestions. Sheriff Beck has asked for the withdrawal of the troops, and some of the railroad officials urge their retention for the present. A conservative policy is being pursued and only about 2,000 of the men have been ordered home up to this morning.

The 10th Battalion of Albany, with the 6th and 21st Separate companies of Troy, the 44th of Utica and the 46th of Amster dam, left by special train on the Central road last evening, and were followed shortly after by Troop A. cavairy, who shared their train with the First Brigads Signal Corps. The 23d Regiment, Col. Partridge, left

on a special over the West Shore Railroad at 10 p. m., and were followed an hour later on the same road by the 13th Regiment, Col. Austin, of Brooklyn. The Catskill company, the 16th, went home on the regular 9 p. m. train on the West Shore road.

It is expected that about the same num-

ber will be ordered home to-day and to-morrow, providing no disturbance occurs. The regiments and companies of the 4th Brigade, Gen. Doyle's immediate command, will remain and garrison the va-

The question that is now agitating the minds of the defeated switchmen is whether or not they will be able to get

back their positions.

It is given out that on several roads an understanding to that effect has been arrived at. Arbitration Commissioner Donovan is quoted as saying:

"I had interviews with the superin-tendents of the principal roads involved and requested that in the event of the strike being declared off they give employment to as many of the men who were out on strike as possible. The superintendents of the Lehigh and Erie

assured me that they would do so.
"I am no creatin about the Central, but on the other would where the strike was sympathetic the men will all be taken back, I am sure, except such as have violated the law and forfeited the confidence of their employers by riotous conduct.

"On these assurances I recommended to Mr. Sweeney that the strike be declared off. Our interview followed the conference which Mr. Sweeney had with Messra. Sargent, Clark and Wilkinson. Mr. Sweeney was at first loth to give up, but after laboring with him for two hours, he at last consented if he could get the ac-quiescence of the local switchmen."

From other sources it was learned that the Lackawanna people will probably take back all their old men. The re-instatement of the old men will prob-ably be slow, as the railroads do not feel like letting the new men go.
General Superintendant Bartlett of the

Buffalo, Rochester and Pittsburg, said.
"We have men engaged and on the way to take the strikers places and will have no vacancies. We may take back some of our old men, but it would hardly be consistent. We granted our men everything they asked for, but it seemed that they were determined to strike. When they were determined to strike.
When they went out I discharged them
and told them plainly that they had not
acted fairly with the road."
General Superintendant Canniff, of the

Lake Shore, said: Lake Shore, said:

"The relations between the men and the company have always been pleasant and I regretted that they saw fit to leave the service of the company. We now have 85 men at work. When they were employed it was with the understanding that their places would be permanent. It would be unfair to these men to discharge them to make room for former

charge them to make room for former employes. They will give us a full force." There was very little disturbance along the military outposts during the night by strikers or their sympathizers. The former were too much occupied with the weightier subject of what the roads would do in the matter of taking them

A round of the hospitals was made this A round of the hospitals was made this morning to ascertain the condition of the victims, in one way or another, of the strike. Charles Delehanty, of the 12th New York is reported as doing well. Charles Gable, who was assaulted by Tom Manaher at the Tifft farm is improving. Manaher is also improving and will recover. Allen Richardson, the non-union man from Boston, who was beaten Tuesday night, is doing well. William Moran, the striker who was shot through the leg at the Tifft Farm, will soon be discharged from the hospital. Charles the leg at the fiftt Farm, will soon be discharged from the hospital. Charles Snyder, the soldier who fell from a car in a fit of epilepsy has recovered and returned to his company. Timothy Coffee, the Eric. characterized by the strikers as cowardly and brutal, and entirely unprovoked.

Mr. Sweeney and 75 switchmen had been attending the investigation ordered by the State Board of Arbitration and had left the hall and were standing at the corner of Swann and Main streets. Quinn approached and told Sweeney he was responsible for the loss of his job.

Before Sweeney had time to answer Quinn dealt him a fearful blow on the head and followed it up by several sledge-hammer punches in the face.

hammer punches in the face.

Mr. Sweeney says he does not know why Quinn hit him, but supposes it was because he had lost his job by the failure of the strike. Mr. Sweeney said it was the first time in the history of the order that he had been assaulted by a striker or any member of the switchmen's organization. He had often heard threats against him, but had never been touched by a man who was disappointed over the outcome of a strike.
