THE Buffalo roughs do not like the solidier boys. "We've run this town for thirty years," say they, "and we don't want a gang of militia from Brooklyn intefering. Just so. But the mistake lay in allowing the roughs to run even a slum in Buffalo thirty days, to say nothing of years. The way to head off such rascality is to trample it out before it gets headway. The way to make respect for authority is to enforce the law. Violators of the law never like policemen or soldiers, because both in this country represent the law. Wherever you find abuse of the police or citizen-soldiers rampant you strike a nest of transgressors, either in fact or in purpose. Honest men do not hate policemen. Law-abiding men do not hate the soldiers. It is the element of society that is either criminal or on the edge of crime that has nothing but abuse of these representatives of the law. Every man who must be protected in his right to work. A man is more than a slave or he is no man at all. The right to work is indefeasible.

ONE thing demonstrated beyond a doubt by the latest Canadian correspondence is that this country does not intend to be trifled with by Canada. The general comment on the letter written by Secretary Foster is that it is strong and to the point, and is a suitable response to the extremely arrogant and impudent communication from the British representative on behalf of the Canadian government. The policy of this government from this time forward in dealing with Can ada is well defined. The minimum measure of retaliation only has as yet been resorted to. What has been done does not fear more aggressive and damaging retaliation if there is a necessity for it. It may be accepted by Canada as settled that this country will tolerate no more impositions, nor the longer continuation of those now in operation, without full and proper resentment.

THE free-trade party is quite willing to tax every American worker for the support of foreign merchants and manufacturers. It does not propose to diminish taxes for the support of the government one farthing. It demands that the people out of their wages shall pay just as much tax as the government receives now, but it demands it by a direct system called "a tariff for revenue, and for revenue only." The same amount or more, but the idea of protection to American industries and labor is obnoxious to them, because protection eudeavors to exclude foreign goods and thus gives our

Evening Herald. people work and wages at home Take from the free-trade party the influence of those pecuniarily interested in foreign goods, take away their contribution of free-trade trash literature, send back their contributions of money used to assist the Democratic party in its efforts to close American mills and workskops, nothing would remain of it but a few dry and rattling bones. The question of the day is the wiping out of all protective measures; the demand by the Democratic party that American workers shall compete with the low paid workers abroad, and if they can't do that, or refuse to do it, then they can shut up shop and apply to the almshouse for support.

NO MORE DEATHS IN BERLIN-

The Number of New Cases Throughout Germany to Be Published Each Day.

BERLIN, Aug. 29. -At the conference of the Ministry of the Interior it was decided to publish daily the number of cases of cholera reported throughout Germany.

The Ministry of the Interior took this action at the suggestion of the Emperor, who believes that the plague can be fought most advantageously if the people understand the exact nature of the peril to which they are exposed. In Berlin especially such a course is regarded as advisable, because a panic can be averted by the publication of all the facts.

For the last 36 hours no new cases have

For the last 36 hours no new cases have

been discovered.
While the authorities are enforcing the most rigid sanitary precautions, they profess to be satisfied that the cholera will make no serious progress in Berlin. There is no great panic among the people, and a general disposition to obey the and a general disposition to obey the sanitary regulations is manifested. The trains at the points on the Russian frontier, where access is permitted, are most carefully inspected, and all persons from the districts in which choiers has been prevalent are debarred from entering Germany.

New York's Postmaster Alert.

Washington, Aug. 29.—Postmaster Van Cott of New York asked the Superintendent of foreign mails for instruction as to what measures should be adopted to prevent the introduction of choiera through the mails. He has been instructed to confer with the New York health officers and to report what measures they deem necessary.

Still on the Increase in Russia.

St. Peterssuno, Aug. 20. - Official cholera returns yesterday showed an increase of nearly 600 new cases and 50 deaths. There is no panic in this city as the inhabitants are being led to believe that the disease has done its worst. The approach of the frost is auxiously awaited as likely to put a stop to the further spread of the pestilence.

THEIR BUSINESS ILLEGAL. State Bank Examiner Whitton Score Buffalo Loan Associations.

BUFFALO, Aug. 29 .- The announcement Saturday that State Bank Examiner Whitton had found two sayings and loan associations practically insolvent, and that many others are in an unsafe condition is still the exciting topic in this

The institutions reported as insolvent are the Third WardPermanent Savings & Loan Association and the Erie County Permanent Savings & Loan Association.

"These associations," Mr. Whitton says, "have been doing an entirely illegal business. Their system was merely making false entries on somebody's books. They have been dividing and paying money representing a premium which could only be earned, so much per annum. during the life of a loan. The loan usually ran from ten to twelve years. Profits were declared the very night money was sold. They were anticipating profits by twelve years. These concerns should be wound up at once.

"There are probably eighty of these per

Mr. Whitton is awaiting the action of the Banking Department in regard to these two associations, and is continuing his examination of other concerns doing business in a similar way.

SUNDAY AT OCEAN GROVE. The Largest Crowds of the Summer Attended the Meetings.

OCEAN GROVE, N. J., Aug. 29.-Yesterday was the greatest day in the history of this summer's "Mocca of American Methodism." The great camp meeting was never so great, the crowds never so large, the religious fervor never so deep. The meetings commenced at daybreak and continued without cessation until

o'clock. The sermon in the auditorium was preached by the Rev. Dr. George E. Reed, president of the Dickinson Co Overflow meeeings were held in the Tabernacle, young people's temple and the only chapel, as well as at the two large

HAS A GOOD CHARACTER.

The Question of Bridget Sultivan's Verseity-Hearing Continues To-Day.

FAIL RIVER, Mass., Aug. 29. - The hearing in the Borden case was resumed at 10:45 this morning. The defence has been actively engaged in Newport learning something regarding the career of Bridget Sullivan, the servant, whose evidence seems to be so damaging to Lizzle Borden. Detective Richards and Attorney Phillips looked up her record there, but found nothing of importance except a rumor that she has a very hot temper.

She worked in two places besides the Perry House, as she stated on the witness stand Saturday. The purpose of inquiry is to determine how reliable her evidence is, also to learn if she could become so much provoked that she would quarrel seriously with Mr. and Mrs. Borden.

It is believed here that Miss Sullivan's character is above reproach. A search into her career while in this city shows that Miss Sullivan is a very truthful woman. Her past employers speak very good of her, and say she was always a devoted church member. Her unshaken testimony has done much to establish the strength of the case of the State.

The accused will be put on the stand this week and it is believed that her ex-amination will consume fully three days. It is hoped that she may be able to greatly aid her case, for although many have been forced to believe her guilty, they still have a suspicion that possibly she is innocent, and as a consequence of this wavering belief there is really no animosity against her, but rather a feeling

of sorrow and a hope that the authorities may prove themselves asses in the matter. Marshal Hilliard has repeated his in-structions to the matrons in charge of Miss Borden, cautioning them to obey the police rules.

Some reporters have been admitted to Lizzie's cell since her imprisonment hers, and other breaches of jail, prison and home discipline have been recorded.

Mr. Morse, Miss Emma Borden, Rev.

Michael Burnham of Springfield, her

father's former pastor, were among her callers during the Sabbath. An official who stands high in the government's counsels was asked by a reporter

his opinion concerning the guilt or inno-cence of Lizzie Borden. He said in

"I have no hesitation in saying that I believe her guilty of the crime."

and in consequence will possibly cause de-lays in the production of the plays.

INTERIOR TOTALLY DESTROYED.

The Metropolitan Opera House Fire—Less About Half a Million.

New York, Aug. 29.—Crowds of sightseers visit the Metropolitan Opera House and gaze at the wreck caused by Saturday's fire. The four walls of the big building look as perfect as the day they were completed, but through the large door on the Seventh avenue side the dismantled interior is visible. Inside where brick walls with twitsted and broken beams projecting. The roof is gone and every vestige of woodwork and scenory is completely wiped out.

The loss is particularly great in more ways than one. Including the valuable property destroyed were many works of at, in different stages of completion, by Mr. Operti, the scenic artist. Upon these works he had spent considerable of his man and had traveled over the world to get sketches of.
