Plans on Foot for Resurrect ing the Defunct Order.

RESERVE FUNDS TO BE POOLED

The 1,200 Lodges in the Country Hav Over a Million Dollars, and If This Sum Can Re Utilized the Order Will B Reorganized.

INDIANAPOLIS, Aug. 29.—The determin ation of the visiting members of the Iron Hall to call a meeting of representatives of all the branches throughout the coun try for Sept. 12, and endeavor to resur rect the order, is causing great activity among local members and they generally agree that something in the way of order may be brought out of the chaos of af-

There are 1,200 local branches, which have reserve funds aggregating \$1,300,-000. If this sum can be utilized by the

represented either by credited delegates or by proxy, in the meeting, and the first step will be in the direction of making radical reforms in the constitution.

If the meeting agrees to continue the order the supreme officers will be form-ally deposed and new officers elected. The meeting will then ask the court to res-cind the several orders recently made and

restore the property to the new order.
It is the purpose of local members to present all the facts relating to Somerby's presentall tan tacks relating to Somerby's methods to the grand jury, which meets one week from to-day, and ask that he be indicted. One thousand two hundred circular letters addressed to the secretaries of the local branches were sent out to-day, and the projectors of the meeting believe that nearly all will be represented.

PROCEEDINGS AT BOSTON. Petition Filed Praying that Iron Hall Moneys Remain in the State,

Boston, Aug. 29.-Joshua B. Stearns, a member of local branch 34 of the Order of the Iron Hall, and other members of the organization have filed in the Supreme Court a petition asking the court to re-State, paying any money, transacting any travel. further business in this commonwealth or withdrawing any assets from any persons or corporations with whom they are deposited.

The court is also asked to appoint a re ceiver to distribute the assets among the petitioners and creditors of the organiza-

It is stated that the officers of branch 34, of Cambridgeport, have more than \$10,000 as part of the reserve fund, and have also a part of the relief fund of the corporation. The petitioners claim that the corporation has become hopelessly insolvent and utterly unable to meet its obligations to its creditors.

BIG BET AT TEN TO SIX. A New Yorker Reported to Have Placed \$10,000 on John L.

New ORLEANS, Aug. 29 .- The city is looking forward with marked eagerness to the three fights of next month. The visitors have not begun to arrive yet. They are not expected until to-morrow, but the usual forerunners of large assemblages, the tramps and crooked gentry, are dropping into town and are being accommodated with jail facilities as rapid-

The Seizure of the Caracas' Passengers

May Call Forth Vigorous Action Washington, Aug. 29 .- The State Department officials await with no little interest the official report of Minister Scruggs apropos of the recent arrest of the six political refugees on board the American merchant vessel Caracas in the harbor of Puerto Cabello.

It is only on extraordinary occasions that the State Department has recourse to the cable, and Minister Scruggs' statement of the affair will therefore be received through the medium of the mails. Secretary Foster has not said anything

on the subject, but several officials ex-pressed their gratification on the vigorous protests which both Minister Scruggs and Consul Reilly made against the seizure of the six Venezuelans after they had sought the protection of the American flag.

Mr. Scruggs' report confirms the statement that the only charge against the gentlemen arrested was that they are political offenders, this Government will act promptly. In the Barrundai case President Harrison took the ground that political refugees who had sought an asylum on board any American vessel should not be delivered to the authorities of the Government under whom they had pre-viously resided.

The failure of Mr. Mizner, who was our diplomatic representative at Guatemala at the time, and of Commander Reiter, of the United States steamer Ranger, properly to protect Gen. Barrundia, led to the dismissal of the Minister and to the re-primanding of the naval officer and his suspension from duty for one year.
As Gen. Barrundia was dead there was

nothing further that President Harrison could do in the matter, but so far as the dereliction of our diplomatic and naval representatives was concerned the pishment was both prompt and severe It will probably be some weeks before enclusive action regarding the affair will have been taken. A vast deal of

correspondence will pass in the mean-time between the two countries and diplomatic correspondence is proverbially

DAILY GROWING WORSE

The Cholera Epidemic at Hamburg Causes Gravest Alarm.

BERLIN FREE FROM THE DISEASE.

The Number of New Cases Reported Each Day Will Be Published-Many More Victims at St. Petersburg-Precautions Along the Canadian Border-Rigid In spection of Vessels at New York-A Scare in the Metropulia.

Hamsure, Aug. 29.—The number of fresh cases of cholera on Saturday was 469; the number of deaths, 197. Returns for yesterday show there were 510 fresh cases. The number of deaths has not yet been ascertained. The mortality from cholera has raised the number of funerals of the buildings which fell in the Wooster daily from an average of 85 to one of

The city is not yet panie-stricken, bet the presence of the plague is apparent everywhere. The usual Sonday excursions were abandoned. No excursion trains were run, and the steamers which usually take out parties lay idle at the Theaters, circuses and music halls

were empty. Most merchants, and shop-keepers still stick to their business, but to morrow may see trade practically suspended and the men who constitute the business world here leaving with their families for other parts of Germany.

The persons of wealth and no regular occupation have gone already to Rostock, Insheck and Fiensburg and other seaside resorts. Dissatisfaction with the measures adopted by the sanitary authorities and with their policy of trying to hold back the worst news is largely responsible for the growing unrest which may culminate almost at any hour in a panic.

The sale of fruit in the city has become a dead branch of trude. Dealers who sell Southern fruits find their stocks practi-

cally a total loss.

The funerals which take place constantly are conducted without the usual ostentation. Not more than two or three ostentation. Not more than two or three carriages follow a hearse, and in many cases the body is taken to the grave without a friend or relative to accompany it. The services are limited to a prayer, most to a prayer and hymn. This sim-plicity of coremony is the result of the re-peated warm good the sanitary authori-

ties and private physicians.

The Hamburg coate has requested an extra credit of 3,000,000 marks for medi-

cal purposes.
In Altona, just below here, there have been 47 fresh cases to-day and 19 deaths

RIGID INSPECTION AT NEW YORK Nothing Suspicious Yet. Discovered on the Vessels Examined. New York, Aug. 29.—The steamship

Sorrento, from Hamburg, arrived here yesterday. She was subjected to a close inspection before she was allowed to pro ceed from Quarantine. No case of a contagious disease was found aboard. The Servia also had a thorough inspection but nothing suspicious was found.

If a case of cholera is found on any o

the ships all vessels will be detained and a thorough system of isolation established. It is believed that the present cholera will arouse the authorities in Halifax and Nova Scotia to a better system of quarantine. The last time the cholera epidemic struck New York it came by way of New Orleans, while the harbor was vigilantly

There is every probability that the im migrant traffic will be suspended if the disease spreads much further, as every day brings the scourge nearer to New York. The first step has been taken by the Hamburg-American line which announces that it has decided to suspend its immigrant traffic between the home ports and New York until danger is over. This was done on the advice of the health board. Several ships belonging to this company are now on the way here, some of them bringing passengers from the cholera districts. Among these are Moravia, due here on August 31: the Nourmannia, due next Saturday, and the Rugia, which is

due on the same day. The Nourmannia was reported as having arrived Saturday in London, which port she left after taking passengers and mails on board witout any inspection from the health officers.

VIGILANCE AT LONDON. No Case of Genuine Cholera Known to

LONDON, Aug. 29.-The officers of the Local Government Board are showing the greatest dilligence in performing their duty in regard to keeping the cholera out of England as far as possible. As yet no case of genuine cholera is known to exist in London. It is believed that two genuine cases of Asiatic cholera have appeared in Glasgow.

Precautions Along Canada's Border. WASHINGTON, Aug. 29 .- In reply to an inquiry as to what measures would be taken to prevent the importation of cholers from Canada, Assistant Secretary of the Treasury Spalling stated that the provisions of the department circular regarding the disinfection of baggage of emigrants would be enforced along the Canadian frontier. He also stated that the Surgeon-General of the Marine Hospital service had taken steps for the appoint ment of medical inspectors at the differ-ent ports along the border.
