DOCTOR

538 North Fourth Street, below Green, Phila.
Solely and exclusively for the cure of

SURE THEEL CURE

All effects of venereal infection, such as, Blood Poison, Swelling, Stricture, Hydrocele, Etc., Painful Discharge, Pimples, Poor Memory, Headaches and Delirium. Relieves acute cases of gonorrhea, and restores the system to its normal condition. It is the only medicine that will cure the disease in its early stages, and prevent its progress to a fatal issue. It is the only medicine that will cure the disease in its advanced stages, and prevent its progress to a fatal issue. It is the only medicine that will cure the disease in its advanced stages, and prevent its progress to a fatal issue.

To Investigate Canada's Quarantine.

CONCORD, N. H., Aug. 30.—Dr. J. N. McCord, of Bowling Green, Kentucky, President and Dr. Probst, Secretary of the National Conference of State Boards of Health, and Dr. J. A. Watson of this city, Secretary of the American Public Health Association, will go to Quebec on Tuesday next where they will make an examination of the quarantine arrangements and regulations in force there and make an investigation as to what means are being used by the Dominion Government to protect the country from an invasion of cholera.

The Red Cross Called Upon.

VIENNA, Aug. 30.—Emperor Franz Joseph has ordered the Red Cross Society to organize for the cholera service throughout Austria. In different parts of the Empire and most of those will be under the supervision of the Red Cross. The society will also undertake the transport service, it is said, for conveying patients from their homes to the hospitals.

Columbia's Prompt Action.

PANAMA, via Galveston, Aug. 30.—The Federal authorities of the United States of Columbia have issued an order closing the ports on the Atlantic coast of Columbia to all vessels arriving from ports infected with cholera. This stops trade with Germany, France and Belgium, so far as connected through Antwerp, Hamburg, Havre and other places where cholera is known or suspected to exist.

Say No Cases Exist in Bremen.

NEW YORK, Aug. 30.—Messrs. Oelrichs & Co., agents of the North German Lloyd steamships, have received a dispatch stating that it is officially denied by the authorities that a single case of Asiatic cholera exists in Bremen.

NERVE & LIVER PILLS

SPREAD OF THE SCOURGE

Several New Cholera Cases Reported in England.

SAID TO BE ABATING IN HAMBURG

This Statement is Made by Officials, and is Not Given Much Credence—Death Record for the Week in the German Port—Precautions Extraordinary at New York—A Suspect at Boston—Reports from the Infected Districts.

HAMBURG, Aug. 30.—During the week which ended at noon there have been 3,837 cases of cholera in this city; 1,087 of them have been fatal. The authorities express the opinion that a climax has been reached and that a steady abatement of the disease may be expected. Their reasons for this opinion are not given, and it is thought they are merely trying to allay the fears of the people.

The sanitary officials say that the spread of cholera in Hamburg is directly traceable to the use of the Elbe water for drinking. The water is filthy, they say, and so impregnated with poisonous matter that it menaces the city with epidemics.

The presence of Russian emigrants in the city is pronounced to have been of but secondary importance in the spreading of the plague. Had the health of the people not already been undermined by impure drinking water, it is said, there or no damage would have attended the transport through the city of families from the infected districts of Russia.

Nevertheless the local government board has ordered that dirty and filthy emigrants shall not be allowed to land, unless they give their names, occupations and addresses, so that they can be easily followed and watched.

MORE DEATHS IN LONDON.

Another of the Infected Gerona's Crew Succumbs.

LONDON, Aug. 30.—On account of the cholera the steamship service of Daniel Currie & Co. to Hamburg, Flushing and South Africa, has been suspended. The company, moreover, will not book passengers for Madeira or Las Palmas.

Maria Samyan, a Russian Pole from Hamburg, was admitted to the London Hospital yesterday, dying with a disease believed to be Asiatic cholera. Caroline Lane, an English girl, aged 10 years was also admitted to the London Hospital, believed to be suffering from Asiatic cholera.

John Carse, a seaman on the infected steamship Gerona, from Hamburg to Middlesborough, is dead in Middlesborough of Asiatic cholera. The Gerona seaman who died of cholera on Saturday, was buried in Middlesborough yesterday. Body and coffin were saturated with disinfectants.

The Gerona is the steamer whose crew appeared to be all right when they landed, but one of whose seamen was seized with cholera soon after, and died during the night.

The population of Middlesborough is unfortunately in altogether too favorable a condition for the spread of cholera, owing to the destitution and want and consequent physical debility caused among thousands of the inhabitants by the recent strikes in the coal regions, which supplied the iron and other industries of Middlesborough.

The local sanitary authorities are now doing what they can to prevent any serious result from their carelessness by tracing up and ascertaining the condition of every member of the Gerona's crew.

The steamship companies at Glasgow have telegraphed to their European agents to suspend for the present the acceptance of any immigrants by the Glasgow lines for American and other destinations abroad.

Considerable apprehension already exists in Glasgow in regard to the Russian and other immigrants who have recently arrived there to take passage.

At Gravesend two emigrant steamers arrived during the morning, one from Hamburg, the other bound for Hamburg. The steamer from Hamburg is the Portia. She was subjected to an examination and all the passengers were mustered for medical examination. Not a trace of cholera was found.

The steamer's physician reported the death of a baby on the voyage, and this occasioned alarm. Later it was found that the child had died from some infantile complaint.

All the emigrants were allowed to land at Tilbury, opposite Gravesend. They all belonged to the poorer classes.

A London House has received an order from the authorities of Hamburg for thirty-eight thousand gallons of disinfecting fluid and thirty-five tons of disinfecting powder.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

OUTBREAK NEAR BERLIN.

Kiel University Sends Out 150 Physicians to Combat the Plague.

BERLIN, Aug. 30.—Kiel University has sent out 150 physicians, under special instructions, to work in cities where cholera has appeared. About half of the more advanced students in the medical department are among the number.

Several cases of cholera are reported from Bendelsburg, 18 miles west of Kiel, Oldesloe, about an hour's ride from Hamburg, and Neumunster, 17 miles southwest of Kiel. In all these towns families from Hamburg are said to have taken temporary residence within the last week.

Following the policy of the Kaiser to let the public know all about the progress and extent of the cholera visitation, official placards have been posted throughout the city, announcing that cholera exists here, and containing exhaustive advice to the public on the subject of sanitary arrangements.

The authorities are everywhere enforcing the strictest attention and obedience to sanitary regulations, and the streets are being cleaned with more than usual thoroughness.

Dr. Harris Graham, an American physician, said to have had experience with cholera in Syria, is organizing the medical students to act as assistants and nurses should cholera become epidemic in Berlin.

DETENTIONS AT BOSTON.

A Cholera Suspect and an Undesirable Immigrant Not Allowed to Land.

BOSTON, Aug. 30.—A saloon passenger of the Cunard Steamer Cephalonia, which arrived here from Liverpool Sunday, a lady who moves in the upper circles of Boston society, was taken ill on the day of the steamer's arrival, and is detained on board as a precautionary measure against cholera.

Mrs. Lizzie C. McAndrews, aged 25, a native of Roxford, County Mayo, Ireland, a steamer passenger, is also detained on board the Cephalonia by order of Emigration Inspector Colehour. Her husband owns a public house in the old country, and can give her a comfortable home.

She deserted him and their six small children, on the ground that her husband was a drinking man and often beat and abused her. She has friends in Cambridge, but the chances are that she will not be allowed to land, as the officials think that a woman who could desert her six little children would not prove a desirable acquisition to our population.

Sixty New Cases at Havre.

HAVRE, Aug. 30.—Sixty fresh cases of cholera were found here yesterday, and twenty-four cases ended fatally.

KILLED UNDER A TRELLIS.

Two Citizens of Rockland County, N. Y., Crushed Beneath Falling Lumber.

NANUET, N. Y., Aug. 30.—Early yesterday evening Henry O. Hutton, of the firm of Hutton Brothers, well-known in Rockland county, and Henry Mairis, who has been employed by the firm over 30 years, were under a lumber trestle, the supports gave way and both men were crushed under the weight.

Mairis was so badly hurt that he died at 8 o'clock. Hutton received a fractured skull and will die.

Hutton was 65 years old and Mairis 61 years.

Armor for the Cruiser New York.

PHILADELPHIA, Aug. 30.—In regard to the contemplated changes in the armor of the cruiser New York, it is stated by Mr. Henry W. Cronin, of the establishment which is building the cruiser, that the trouble arose from a fight in the Navy Department at Washington. The alterations have been ordered by the Ordnance Bureau. The most radical change was the substitution of the vertical faced for the inclined armor plate.

Gov. Eagle Much Worse.

LOUISVILLE, Ky., Aug. 30.—A message received from Richmond, Ky., last night, stated that Gov. Eagle, of Arkansas, was much worse and it was feared he was dying. Dr. Stucky, of Louisville, left at once for Richmond.

Hop Harvest Under Way.

UTICA, N. Y., Aug. 30.—The hop harvest has begun in central New York. Pickers are scarce this year, and prices have been somewhat advanced. The hops are of excellent quality, but the yield is not a large one.

Consul Woodley Dies Abroad.

ATHENS, Aug. 30.—Thomas Woodley, Consular Agent for the United States in Corfu, died in Corfu Sunday and was buried there.

RHODE ISLAND'S NAME.

Various Theories That Have Been Advanced for Its Origin.

Several explanations are given of the manner in which Rhode Island acquired a name. One supposition is that from the abundance of cranberries found in the marshes of this province it was called by the Dutch Roode Eylandt. Others suppose that the original name was Ruel de Eplant (the red island), from the fact that some clay banks at certain points along the coast gave it a reddish tinge. It is most likely, however, that it was named from the island of Rhodes in the Mediterranean, and this supposition is strengthened by the discovery of the fact that on January 13, 1644, the general court of elections passed an ordinance reading as follows: "It is ordained by this court that the island commonly called Aquethneck shall be from henceforth called the island of Rhodes, or Rhode Island." Aquethneck was the Indian name, and it is probable that some odds and ends of learning among the colonists induced them to select this classical name.

The First City to Use Coal.

LONDON has the distinction of being the first city to use coal. This was in the latter part of the twelfth century. Its use was prohibited shortly after its introduction, and one man was actually executed for violating this law.

No Time to Be Lost.

"We had better be married to-morrow," said he.

"So soon?"

"Oh, yes. Your father and I differ in politics, and there is no telling how soon we may be deadly enemies."—Indianapolis Journal.

To Drive Dull Care Away.

HE WILL VISIT NEW YORK

The President to Confer With Mr. Reid

ABOUT LETTERS OF ACCEPTANCE.

No Formal Reception Will be Given Mr. Harrison on His Arrival—He Will Return to Loon Lake Thursday—To be Ex-Senator Miller's Guest.

New York, Aug. 30.—President Harrison will arrive at the Grand Central Station at 7:30 o'clock to-morrow morning. The purpose of his visit to New York is mainly to confer with Whitelaw Reid about their letters of acceptance, so that immediately on arriving at 424 street, the President will take another train for Mr. Reid's country house at Ophir Farm. There the President will remain quietly, if the present plans are carried out, until Thursday, when he will return to Loon Lake.

President Harrison's journey from Loon Lake to New York will be at night and without stops, except those made by the regular train to which his special car will be attached. On the way to New York, therefore, there will be no speeches. It is probable that he will be greeted on his arrival at the Grand Central Station by National Chairman Carter, General Clarkson, State Chairman Brookfield and other members of both National and State committees. As he has arranged to leave at once for Ophir Farm, no formal reception or public demonstration is probable at that hour of the morning.

The President's exact movements after leaving Ophir Farm on Thursday are not yet determined. It is known that he is averse to making political speeches, because he is sensitive about being led into any position which would not be in accord with his official dignity. Nevertheless, Chairman Hackett of the State Committee is anxious that the President consent to a public reception of some kind during his journey back to Loon Lake, if not while in New York city.

Arrangements have partly been made for the President during his return journey to Loon Lake, to stop at Herkimer Thursday night as the guest of ex-Senator Warner Miller. These arrangements were not finally concluded because of the difficulty of communicating with Mr. Miller, who is on a fishing trip in Canada, but who is expected to return to New York in time to join the President at Ophir Farm to-morrow night or Thursday morning.

It is hoped, also, that the President will consent to short stops at Foughkeepsie and Albany on Thursday while en route to Herkimer, and also to make short stops at Ogdensburg and one or two other places in Northern New York between Friday morning and Saturday afternoon, when he will return to Loon Lake.

President Harrison's letter of acceptance, which he will bring with him, and which will probably be given out for publication within two days, has been written entirely during the intervals of his attendance upon Mrs. Harrison at Loon Lake.

President Harrison's letter of acceptance, which he will bring with him, and which will probably be given out for publication within two days, has been written entirely during the intervals of his attendance upon Mrs. Harrison at Loon Lake.

ARRESTS AT HOMESTEAD.

Secretary Lovejoy Resumes His Prosecution of the strikers.

PITTSBURG, Aug. 30.—Secretary Lovejoy, of the Carnegie Steel Company, has resumed his prosecutions against the Homestead strikers again, and as a result six persons who were in Homestead on the 6th of July, the day the Little Bill was forced to surrender, were arrested yesterday, charged with conspiracy and aggravated riot.

Five of the men were arrested in Homestead. They are Burgess John McLuckie and George Ryland, charged with conspiracy; Thomas J. Crawford, chairman of the Advisory Committee, and William Gatches, charged with riot and conspiracy, and William Deffner, charged with riot. John Edwards, the sixth man, was arrested in Allegheny last night at a museum, where he had secured a position as musician. Edwards is charged with riot.

The men all gave bail for a hearing and were released, with the exception of Edwards, who, in default of bail, was sent to jail.

The search for Pinkerton weapons at Homestead did not prove very successful, as only a box of Winchester rifles was secured.

ONLY A MEMORY NOW.

All Traces of the Railroad Strike at Buffalo Have Disappeared.

BUFFALO, N. Y., Aug. 30.—All trace of the great railroad strike has disappeared. The soldiers have gone home, and the duty of protecting the property of the railroad companies has devolved upon Chief of Police Morgensorn and Sheriff Beck. Everything is quiet in the yards, and the police details say they have yet to find the first sign of an outbreak.

West Side residents are to hold a mass meeting to take steps toward bringing justice to the soldier who shot and killed the boy, Michael Broderick, Thursday last. On that day a detail of the 22d Regiment of New York were attacked by a crowd at one of the crossings. Broderick was in the party, although it was subsequently claimed that he was on his way home from work and that he had not participated in the assault upon the military.

When the soldiers charged upon the crowd Broderick took to his heels. As he was climbing over a fence he was shot. He died Thursday at the Emergency Hospital.

Gen. Husted Decidedly Improved.

PERRYSVILLE, N. Y., Aug. 30.—There is a decided change for the better in General James V. Husted's condition. His partook of a considerable amount of solid food yesterday and slept well last night. Both New York physicians were up yesterday, and last night a long consultation was held between Drs. Leal and Pratt of New York, and Dr. E. H. Mason of Poughkeepsie.
