A MEMBER of the Borough Council stated the other evening that it was "easy enough for the newspapers t ery clean up," but if the newspaper men were to start out to find the publie places that need cleaning they would have very little time to work on their papers." The HEBALD today publishes the result of a trip by two newspaper men yesterday afternoon that took less than an hour's time:

A NEW YORK paper in its desire to advertise itself sent its city editor and corps of reporters down to visit the cholers ship Moravia, but, fortunately, the party was discovered in time and were grested. If these men had reached the ship they would have made their way back to the city, maybe carrying the germs of the dreaded disease. If they had been treated right they would have been quarantined among the Moravia's passengers, where they would have had plenty of time to reflect on the wisdom of an enterprise that was so dangerous to the public welfare.

NEW ORLEANS, Sep. 3.-As the time for the big carnival of fists approaches the regardless of party lines, are placing interest increases, and the city is fast filling up with sporting men. The genthen selves openly on record against a aral admission tickets which were put on proposition to go back to the old wildale by the Olympic Club yesterday are fast being disposed of. Bets on the fights continue to improve, but they are mostly on combinations.

Another bet of \$4,500 to \$3,000 on the A Little Girl's Experience in a Corbett, Myer and Skelly combination was made last evening, and one of \$1,000 to \$400 on Sullivan, McAuliffe and Dixon. Mr. and Mrs. Loren Trescott are keeper f the Gov. Lighthouse at Sand Boach, A bet of \$2,500 even on Myer was also Mich and are blessed with a daughter, for made at the pool room. The latter has \$30,000 bet against the Corbett, Myer and coars old. Dectors These have been reduced from 20 to 1 to t home and at Datroit treated her, but in

over the charge that Dixon frequently fouls in fights, offers to find a light-weight who will meet Carroll for \$3,500 a side

The Sullivan-Co. bett fight is, of course, the great topic of discussion. A sporting man who is known the country over and who saw both the puglists just before he started from New York, sums up the conlition of the men and the situation like this:

"Sullivan's real weak spot is his stomach. Here is the spot which still has perfluons fat lagging upon it. As fat is less elastic than hard muscle, a blow upon it will tell much more severely than upon the latter substance. Knock-out blows through the pit of the stomach are not unknown, though they do not often occur, but other things even, this seems to be the best spot for Corbett to attack

"Corbett has the advantage of a far "Corbett has the advantage of a far better pair of legs than Sullivan. He will therefore be abla to keep his feet with much less exhaustion of his muscuiar powers. His neck, while not so well defended by muscles as that of Sullivan, is still handsomely enough endowed. At the same time, if Sullivan could get in one of his terrible blows early in the fight upon this part of Corbett's anatomy it is likely that the contest would be ended in

Sullivan's favor there and then. "Corbett, judging from what his back ers say, will adopt this line of battle. He will keep away, or rather make a sprint-ing fight. If he succeeds in doing this

he will in all probability win. "From Sullivan in his prime he would not be able to keep away under the rules, but Sullivan covered with fat and weak in the wind is a different man, and makes the contest more doubtful. "The fact that he bits twice as hard as

Corbett is his chief chance of victory If he lands once or twice on the Califor nian a full right at any stage of the game he will win

The special train bearing Sullivan and his party is expected to arrive late to-night. His progress has been marked by

a series of ovations.

Jack Clifford and Matthew Foy, Home

steaders, Held for Murder. PITTSHURG, Sep. 8 .- Of the eight addi-tional arrests of Homestead strikers charged with the several crimes of mur der, riot and conspiracy by Secretary Lovejoy of the Carnegie Steel Company, all but two of the number have been re leased on bail. Jack Clifford and Matthew Foy were held on the charge of murder until the court fixes bail.

Clifford is the man who gave the Pinkerton detectives information about the Homestead Advisory Committee. It is supposed the Carnegie Company wants to get Clifford out of the way of all influence and keep him safe until the Homestead

cases are tried. For this reason they had him locked up rather than depend upon uncertain and expensive surveillance, which they would have had to keep him under were he to be

at liberty Warrants are also out for the arrest of Hugh O'Donnell, Hugh Ross and William Foy on the charge of murder.

OUR COMMERCE WITH CUBA. Spain Modifying Her Demands and Cou-

ceding American Claims. MADRID, Sep. 2. - Mr. McNutt, the spec-

al American representative, is now at San Sebastian pressing upon Senor Rob-ledo, Minister of the Colonies, the claims made by Mr. Foster, the United States Secretary of State, relative to the Comnercial treaty between Spain and the

United States. At the outset of the negotiations Senor Robledo held that the introduction into Cuba of the numerous articles that the United States Government demanded should be included in the new treaty would render all industry and commerces in Cuba impossible. Senor Robledo is now modifying his attitude, and is disposed to concede part of the American cinims.

E. E. MEREDITH is -Cleveland's candidate for Congress in a Virginia district. In a furious speech the other day Meredith declared that three of every four Union veterans now drawing pensions are not entitled to them, and that most of the women on the pension rolls are without character. Gen. Dan. Sickles told the Chicago Democratic convention that of the 25.000 "Grand Army boys" in New York state not one could vote for Cleveland. The Democratic leaders have a hatred of our veterans, bitter in its Intensity.

ONE good result which will probably follow the cholera scare will be the strong direction of public attention to the necessity of doing something to rescue our streams and wells from becoming hot-bads of disease germs. Pollutted water causes the majority of the typhoid fevers and other intestinal diseases from which our people suffer. If cholera should he allowed to gain a foothold here, it will spread solely among those who take contaminated waters into their stomachs. In some way we must stop turning sewerage into our streams, and if we can succeed in this we shall do more to promote the health and happiness of our people than by any other single thing.

CONSERVATIVE bankers throughout the United States, with scarcely an exception, and without regard to their political predilections, are absolutely opposed to the plank in the Democrat-ic platform which favors the removal of the 10 per cent. tax on state bank opposed to the plank in the Democrat-
