All voters should bear in mind that Sept. Sth is the last day on which to be legally registered. This is an important point to the voter and should not be neglected. The right of franchise is one of the greatest in the world, and should be carefully guarded. Voters should not fool away the least point that may result in debarring them from depositing their ballots.

The total shipmonts of anthracite coal from the three regions, Wyoming, Lehigh and Schuylkill, for the year 1892 up to Saturday, August 27th, is 26,143,781 tons, an increase of 1,888,493 tons, compared with last year.

"Two Old Cronles,"

If the entertainment at the Academy last night is a sample of what Manager Stuart has in store for the people of Philadelphia, he is to be complimented. "Two Old Cronies" was one of the best of its class ever given here, and but few better pleased audiences have ever left the house at the close of any performance. Mesars Ryan and Sheehan are a very original pair. Miss Hart, as a dudess, was a little starting at first, but she had many friends at the close. Miss Hollywood's songs and dances were warmly applauded. Elvira Frencelli's voice is magnificent. Frederick Carberry has a very beautiful tenor voice and Will Ahern, in his silence and fun act, was all right. The rest of the company was up to the standard in every respect. and the scenic effects very fine .- Philadelphia Press. "Two Old Cronies" will be produced at Ferguson's theatre to-morrow evening

Foochow organized the exploring ex-pedition. The vast forests there had never been penetrated by traders, but it was known that the country was broken by high and rugged mountains that had very heavy timber. The expedition started from the Chinese port of Samalan. After seven days of hard travel it reached the Hualin river. It

found no roads, not even a trail, and in many cases the members journeyed for hours along the tracks of wild beasis through beavy timber. Many signs of natives were seen, but the savages were too timid to show themselves. Whether Coughing Leads to Consumption the party succeeded in establishing borter with them is not recorded. In one of the great forests trees of enor-

mous size and height were found. Ten men, joining their outstretched arms, were unable to clasp the trunk near the ground. They estimated the beight at two hundred or more feet. Another peculiar tree bore red and white flowers as large as an ordinary sleve The forest life, from the descriptions of the Chinese, resembles that of the Am-
