PENNSYLVANIA RAILROAD

To the G. A. R. Encampment at Washington During September.

Undoubtedly the most interesting encampment of G. A. R. men ever held will convene at Washington during September. The interest manifested in the encampment has been national, and the Government and local authorities in the National City are making elaborate preparations for entertaining the old soldiers.

The Pennsylvania Railroad Company will sell excursion tickets from all stations on its lines to Washington, from September 13th to 20th, valid for return until October 10th, inclusive, at a rate of a single fare for the round trip. These tickets will be valid to stop off at Baltimore and Philadelphia in each direction within limit. A stop-over privilege will also be allowed at Harrisburg and other points south of Washington on foreign roads' issue of tickets from the West.

The Pennsylvania Railroad Company has also issued one of the most comprehensive guides as you compiled of the National Capital.

A Sunset.

On Great Salt Lake is but one of the matchless spectacles to be seen in Utah. A new book "Utah, a Peep into a Mountain Walled Treasury of the Gods," is now issued and can be had postpaid by sending 25 cents to J. H. Bennett, Salt Lake City. It is expected that the Knights Templar and others visiting Colorado the coming season will extend their trip to Utah, via the Rio Grande Western Railroad in both directions. That road affords choice of three distinct routes and the most magnificent scenery in the world. Equipment unequalled in the West. Two trains daily across the continent.

The land of sunshine and flowers—rich also in mineral and agricultural resources—is best reached by the Rio Grande Western Railway. See that your excursion tickets read both ways via that road, which offers choice of three distinct routes and the most magnificent railroad scenery in the world. Send the J. H. Bennett, Salt Lake City, for copy of illustrated book, "Utah, a Peep into the Mountain Walled Treasury of the Gods."

NEW BLOOD.

A Shenandoah's Opinion of "Sleepy Hollow."

A correspondent to the Tamaqua Recorder, who is well known to the editor of the HERALD as one who knows what he is talking about and is not afraid to say it. Knowing the facts to be true, we can fully corroborate every word written:

It makes your correspondent tired to write about Tamaqua, saying nothing about the shopworn town. It is a nice town in which to live quietly and be buried, but for business it is not "in it." Even Huns and Poles cannot live there, and they are as essential to a town's life as the winged scavengers are to our health. Your town is dead. It needs a resurrection, a rejuvenation; but taking it as it is and sparing annihilation what does Tamaqua want?

It needs new blood, new men who know the meaning of progress and enterprise; it needs a new Town Council composed of such men who stop not for fear or favor in the performance of their duty; it needs a School Board composed of live, enterprising men who are up to date in school work; it needs industries to bring men and business to the place. The infusion of new blood means new energy and they must come from outside, unless your business men awake from the lethargy which has bound them for these long years.

An influx of new blood will either drive out these fossils or arouse them to enter the great race of competition in this age of wonders. You lack energy; your town sees no benefit in such demonstrations of patriotism as surrounding towns are eager to inaugurate. Why does not Tamaqua entertain grand lodges and unveil monuments?

Go to your study, my friends, and reason it out for yourself. Let each one ask, "What can and will I do towards it?" Then when the great day comes let the hotels do the hotel business, the tobacconists sell cigars, not sandwiches; the fruit vendors fruit, the confectionery stores ice cream, candies and cakes. Give credit to those who use their best efforts to bring about a big day. Bury every jealousy and hatred for one day at least and your town will breathe stronger.

The enterprises of your town are few and not liable to increase. The most progressive is the Tamaqua Manufacturing Company and its success is due to Isaac Christ. The plant must be enlarged to meet its growing business. The Lehigh Coal and Navigation Company refuse to give enough land to enlarge unless a good sum is paid for it. That is progress.

Mr. Carter, the owner of the large stone buildings along the railroad, refuses to lease his shops or sell for a marketable price. What is to become of them? Why Mr. Carter will hold them until his death, when they will be sold at a sacrifice to his estate, while now he could get possibly \$40,000 for them. The rapid improvements in machinery have relegated his plant and lessened its once great value.

RECKLESS LANDLORDS.

What the Board of Health is Doing in New York.

Reckless landlords in the tenement streets are now learning that the Board of Health, of New York, possesses a power by which they can be controlled, though it is hardly ever exercised. In Ludlow street there is a vile double tenement, packed with woful Jewish tenants in the number of nearly a hundred, living in a state of dry rot under a landlord who, though of their own race, is as exacting toward them as the Russian Czar was before they came to this country. The police captain of the precinct entered a complaint against it, but this had no effect upon the landlord. A sanitary inspector next made a report against it, but this also was disregarded by the landlord. The Board of Health then sent him a notice about it, which he took no heed of. At last, however, he has been brought to his senses and taught that even landlords are subject to the law in this country. The Board has issued a peremptory order for the immediate vacation of the big Ludlow street tenement, which is to be held vacant until such time as it shall be put in a condition satisfactory to the Sanitary Superintendent, who now has it under his control.

No more rents for that landlord until he has paid good-sized bills for plumbing and repairing and cleansing out and squaring up and lots of other things. This is the law. It is a law which the Board of Health is in duty bound to enforce, and which is now to be enforced against other reckless landlords, without regard to their religion.

Two of the enlightened Jewish papers of that city have for some time been urging the health authorities to take means to prevent the Russian immigrants from creating a big "Ghetto" in New York, where over a hundred thousand of these Russians have settled within a few years. Those who have explored the east side are aware that a ghetto as bad as any of the ghettos in European cities is growing up there. Ludlow street is in the ghetto region. The Board of Health has begun operations thereabout, and has done some good work during the past fortnight. The work will be carried on in a determined way, though a thousand landlords lose money by it.

Were our officials imbued with half a sense of their duty the numerous pest holes in town would be cleaned out. Let the same course be pursued here as in New York and the landlords will take a "tumble" that will be surprising.

Regeneration.

To secure a normal and regular tissue change throughout the body use Brandreth's Pills. This tissue metamorphosis consists in constantly proceeding waste of tissue and its regeneration. Brandreth's Pills are the best solvent of the products of disintegration of the tissues and increases their elasticity. They are an alternative and eliminative remedy, which always irritate and remove obstruction by aiding nature and are of great benefit in cases of temporary and habitual constipation, torpid liver, biliousness, headache, indigestion, rheumatism and diseases arising from an impure state of the blood. Brandreth's Pills are purely vegetable, absolutely harmless, and safe to take at any time.
