**SENSIBLE PLAN
FOR A COMPROMISE**

**WILL IT BE PROPOSED TO
COUNCIL TO-NIGHT?**

GENERAL PAVING IS SUGGESTED

It is Rumored that South Main Street Business Men Will Suggest the Plan and Will Bear Their Share.

It is hoped the rumor that South Main street business men will tonight ask the Borough Council to co-operate with them and the electric railway company in paving the

square on Main street between Centre and Oak streets has good foundation. The plan is an excellent one and if carried out will lead to the most sensible solution of the difficulties that have hovered over the progress of the electric railway. It will conciliate all parties. The road will then be laid in accordance with the wishes of everybody and the people will be given a street that will be permanent and to which they will be able to point with pride.

We must all concede that the town is sorely in need of permanent street improvements and that the only true method by which such improvements can be brought about is by paving.

We must also concede that the electric railway is in demand. The section now in operation has shown that the railway is a great convenience and of great benefit to the town. The people who have occasion to frequently travel down the valley say so, and the business people of town say so. The patronage the road has received and is receiving proves its popularity.

Why, then, should not some effort be made to get all parties together on some agreement that will be just to the people and the railway company and be of lasting beneficial effect. If the square mentioned can be paved it will set an example that will eventually revolutionize the present system of street work, by making repairs seldom necessary and saving the borough an expense of several thousands of dollars annually.

Let us all view this matter calmly and deliberately; let all hostile feeling be supplanted by common sense measures; let the stitch in time that saves nine be made now. Paving is expensive, of course, but it is only the first cost that runs a little high. When once paved a street ceases to be a drain upon the public treasury. Property owners who have been put to expense putting in new board pavements for old ones know that flag stones are cheaper in the end, and it is the same way with the public streets. Hauling dirt upon the streets and mixing it up into mud for the carts during the following season is a system with which the people have become disgusted.

Will the Borough Council, the people and the electric railway people get together and act upon a plan like the one suggested? We hope they will.

The pledges to the fund now sum up as follows:

PUT DOWN THE BARS.

**The President Should Hesitate no Longer
to Act.**

The New York Sun is much alarmed, and justly so, over the prospects of danger which the Pestilence Transportation Company is threatening this country. It says: How many more pest-laden ships shall the Hamburg-American Packet Company be permitted to thrust into this port and unload upon our overtaxed Quarantine?

This is the main question now. By the vigilance and firmness of the Health Officer, aided by favoring circumstances of weather and luck, New York has thus far escaped the cholera. The barrier is not yet broken. But the disease is banked up high against our gates, and every day or two brings another ship load despatched from the infected port by this avaricious, mendacious, and irresponsible corporation of foreign money-givers.

This cannot continue indefinitely. If it continues, as sure as fate the day will come when the latest re-enforcement to the deadly Hamburg fleet outside of the Narrows will prove too much for the already overstrained safeguards, and just enough to break them down and to send the cholera into this city.

The problem, the difficulty, and the danger are all due to this one transportation line. Our Quarantine would have no trouble in dealing with the ships that are coming from every other port in the world. Has the course of the Hamburg-American Packet Company since the outbreak in Hamburg up to the present time been such as to entitle the pockets of its stockholders to the slightest consideration as against the lives of our own people?

We believe that public opinion is already prepared to answer that question.

How many more ships of the Pestilence Transportation Company shall be allowed to enter before the first ship of that company is turned on her course before she reaches Sandy Hook, and with a fresh supply of food and water, furnished at the company's cost, sent back to the infected port from which he sailed?

Public opinion is getting ready to answer this question also, and to answer it with no lack of emphasis.

STILL INCREASING.

Active Work in Behalf of the Soldiers.

The work of raising subscriptions to a fund for the erection of a soldiers' monument in town is meeting with very satisfactory success. Among the townsmen who pledged themselves to its support yesterday was Mr. John A. Titman, who makes \$5 his figure, but will increase it to \$25 if the site for the monument is fixed at the corner of Main and Centro streets.

The Pottsville Chronicle has this to say concerning a site for the monument: "The fund for the erection of a soldiers' monument in town is meeting with very satisfactory success. Among the townsmen who pledged themselves to its support yesterday was Mr. John A. Titman, who makes \$5 his figure, but will increase it to \$25 if the site for the monument is fixed at the corner of Main and Centro streets."

The committee appointed by the Sons of Veterans to help the work along met last night and decided to make overtures for a special production of "The Old Home stead" to raise funds.

The pledges to the fund now sum up as follows:

J. A. Titman	\$5.00	
H. W. Czyszkowski	1.00	
James R. Lewis	1.00	
F. H. Hopkins, Jr.	1.00	
.....		\$8.00
Previously reported	\$302.00	

Grand total \$302.00

Keep it rolling.

A STRANGE EXPERIENCE.

A Man's Stomach Becomes a Temporary Fish Pond.

Several weeks ago P. J. O'Neill, of Gilberton, complained of very unpleasant sensations in his stomach and throat. He suffered more or less for some time. About a week ago he vomited frequently. One of the spells caused him much pain. This spell was followed by O'Neill vomiting a cat fish five inches long. His throat has been raw and very painful since, but he is recovering his former good health.

The True Laxative Principle.

Under the management of Edwin G. Maytum, general manager of the Pottsville Home M. A. Life Insurance Company, in the past two years 7,000 policies have been issued. In that brief period the company has paid over \$8,000 in claims. Mr. Maytum's management speaks for itself.

Speaks for itself.

Under the management of Edwin G. Maytum, general manager of the Pottsville Home M. A. Life Insurance Company, in the past two years 7,000 policies have been issued. In that brief period the company has paid over \$8,000 in claims. Mr. Maytum's management speaks for itself.

POTTSVILLE LETTER**

**FROM AN OBSERVING AND
INTELLIGENT WRITER.**

PROGRESS OF THE CAMPAIGN

Koch Busy Preparing and Trying Cases—Judge Pershing Sitting on the Bench—Ryon Files His Papers.

Special Correspondence to the HERALD.

POTTSVILLE, Sept. 15.

HE apathy in the campaign still continues very marked. As was remarked yesterday by a prominent Republican, if the show don't soon open the fun will be short lived. The candidates are contenting themselves with visiting fairs and picnics, except those who aspire for the judicial position.

To those gentlemen, Judge Pershing is busy presiding in Court No. 1. Mr. Koch is just as busy looking after the multifarious duties appertaining to the district attorney's office and Farmer Ryon has just returned from his Tioga county farm, flushed with the rosy hue of health and ready and eager to begin a fight to the finish against the corporate power which interfered in his nomination.

RYON'S PETITION FILED.

On Monday the petition of Mr. Ryon, containing over seven hundred Democratic signatures, was filed at Harrisburg and thus all that was necessary to place his name on the ticket as an independent candidate for Judge was done. Upwards of two thousand names were obtained for the different petitions sent broadcast over the county, but it was only necessary to file three hundred and thirty-three of them, which is three per centum of the vote cast for Ebbing for Poor Director last fall, he having received the "largest entire vote for any officer elected at the last preceding election." Thus the 3rd section of the Ballot Reform law has been more than complied with and Hon. John W. Ryon becomes a full-fledged candidate.

WHAT WILL THE HARVEST BE?

Every one has his right to conjecture and prognosticate. This is an unanswerable right, just as the right to think, and everyone who can think generally exercises that privilege, but there are very many who congregate around the gossip marts who think they are thinking when they are only voicing the sentiments of others who have heard some one else talk in a barber shop or cigar store or possibly in that great reservoir for news and the expression of opinion, the library room of the court house, where the wiseacres on all subjects air their knowledge or ignorance as the case may be. The prevailing sentiment is, however, that Mr. Ryon has enough votes pledged to secure the election of the Republican candidate. It is wise, therefore, to stick to the calculation set out in a former letter in your columns. Only about one-third of the names signed were sent to Harrisburg and it is
