THE Colliery Engineer says as a result of the advanced price of anthracite coal, the wages of the miners in the Schuylkill region, for the latter half of August and the first half of September, have been advanced to three per cent. above the basis. This is an advance of twelve per cent. since the first of March, and is indi-putable evidence of the benefit to miners of the consolidation of the coal interests. Theadvance in price is not unreasonable. The capital, brains and labor employed in mining anthracite coal have just as much right to expect fair remuneration, as have those employed in any other business. For several years anthracite coal has been sold at prices that did not warrant much, if any profit, to the capital invested in it, and therefore did not yield to the miners such wages as they should have had, in return for their laborious and hazardous work. So both parties staeted right, and the result was that an understanding was arrived at satisfactory to both, and eminently so to the people of the state. GUILTY OF CONTEMPT.

Sheriff Laumeister Imprisoned for Refusing to Execute a Murderor

SAN FRANCISCO, Sep. 15.-Judge Murphy found Sheriff Laumeister guilty of contempt of court for refusing to exeonte murderer John McNulty, and sentenced him to 24 hours imprisonment in the county jail.

McNuity was found guilty of the murder of Thomas Collins and was sentenced to be hanged August 19.

Governor Markharm, however, granted a reprieve of 15 days.

A new trial was refused, but the sheriff at the expiration of the reprieve refused to proceed with the execution without a new order from the court. An order was issued fixing the date of

execution for October 14. Judge Murphy holds that the first order, fixing the date of the execution, was still good after the eprieve had expired. The judge accordingly found the sheriff

guilty of contempt for not obeying it. The shertiff is considering the advisa-
