3RD LEGISLATIVE DISTRICT, JOHN W. KERSHNER.

4TH LEGISLATIVE DISTRICT, GEORGE W. KENNEDY.

5TH LEGISLATIVE DISTRICT, SAMUEL S. COOPER.

THE RIGHT STEP.

The Advisory Council of the Junior Order United American Mechanics, of Allegheny county, directly representing a membership of 25,000 voters in Allegheny county, comprising members of the different political parties, believing that suffrage is a privilege, and when conferred becomes a duty and that the institutions of our land are only safe in an enlightened electorate, has appointed a committee of five to visit the courts of Allegheny county and district and otherwise to take practical steps lest the ballot be placed in unworthy if not dangerous hands.

MAINE NEWS.

The Philadelphia North American facetiously says our Democrats are rising like the boy who fell out of the cherry tree in Vermont the other day, and with the same joyful surprise they ask, "Ain't I dead?" They have not even elected a rum Sheriff in the worst rum hole in the State of Maine, nor a single member of Congress, nor hardly enough members of the Legislature to count. On the other hand, the Republicans have elected a Governor, a Legislature, a Congressional delegation and pretty much all of the county officers. Of the sixteen counties of Maine the Republicans have carried thirteen, and their candidate for Governor will be elected by a majority of ten thousand.

That is what some of our facetious Democratic organs call a "Republican slump." They evidently feel like rejoicing that the Republicans did not carry the whole sixteen counties and the Legislature solid. It is a most happy faculty to be able to thank your stars that you are not utterly wiped out. That is the Democratic faculty. The fact that the Republican majority is not as large as it was in the September election four years ago seems to give our Democratic friends some comfort. But a majority all along the line in thirteen out of sixteen counties is rather a bitter flower from which to extract honey.

It has been reduced to an almost positive certainty that railway accidents, whether small or great, are almost invariably the result of neglect on the part of employes. An axle or rail may break, a train may run off the track, and cause great loss of life and property, or a bridge may prove too weak to withstand the weight of trains imposed upon it, but such accidents are of rare occurrence. Five times out of six collisions are the result of disobedience to orders. If switches are misplaced, they are the result of neglect on the part of somebody, and if signals are disregarded, it is because the engineer is sufficiently watchful

as in the case of the late disaster on the Fitchburg Railroad. In that case the engineer pleaded that the dense fog prevented him from seeing the signal, which may have been the case; but if the fog was as dense as stated, was it not the engineer's duty to "make haste slowly," and felt his way, as it were? The block system, so thoroughly tested on the Pennsylvania Railroad, is almost a positive specific against collisions, if the rules regulating it are strictly observed, and no doubt the train regulations on other roads are nearly as perfect a protection against accidents; but until employes, and especially engineers, obey to the letter the laws laid down for their observance, there will continue to be appalling disasters.

THE GREAT REVIEW

At Washington—Half Rates by the Pennsylvania Railroad.

The national encampment of the Grand Army of the Republic will be held at Washington, September 10th to 24th, 1892. The occasion will undoubtedly attract the largest number of veterans ever assembled on a similar occasion, and the review will be the most imposing demonstration ever witnessed in this country since the historic review of the army in 1865. It will be the event of a lifetime, as never again will there be so large a gathering of old soldiers in any city of the land.

In order that every one may witness the grand spectacle the Pennsylvania Railroad Company will sell excursion tickets to Washington from all principal ticket stations on its system, September 13th to 20th, valid for return until October 10th, 1892, at a single fare for the round trip. Ample facilities will be afforded for the prompt movement of all visitors.

Utah. The land of sunshine and flowers—rich also in mineral and agricultural resources—is best reached by the Rio Grande Western Railway. See that your excursion ticket reads both ways via that road, which offers choice of three distinct routes and the most magnificent railroad scenery in the world. Send 25c to J. H. Bennett, Salt Lake City, for copy of illustrated book, "Utah, a Peep into the Mountain Walled Treasury of the Gods."

Standing of the Clubs.

Table with columns: Won, Lost, Per Cent, Philadelphia, Boston, Chicago, Cincinnati, Brooklyn, New York.

Weather Forecast.

WASHINGTON, D. C., Sep. 17.—For Eastern New York: Fair, with north winds. For Eastern Pennsylvania, New Jersey and Delaware: Fair, easterly winds. For Western New York: Continued cool, fair weather, westerly winds. For Western Pennsylvania: Continued cool, fair weather, west to north winds. For New England: Fair, slightly cooler, west to north winds.

NEW YORK MARKETS.

Table with columns: New York, Sep. 16.—Money, 3/4 call easy, 1/2 call per cent. Bonds—Closing prices. Stocks—Closing prices. Grain Market.

PRODUCE MARKET.

Table with columns: Creamery, State and Penn., extra, 24 1/2c; Butter, western, Brant, 23c; Eggs, Western, new laid, 20c.

Lamp-chimneys cost so little that we let them go on breaking. We go on buying and grumbling. What should we do? Get Macbeth's "Pearl-top" and "Pearl-glass," they are made of tough glass, tough against heat; they do not break in use; they do from accident. They are fine, well made, exact; they fit the lamps they are made for; stand upright; the shade is right; they make a right draught for light; they are uniform. Both bear a label for your protection. Look for it. Be willing to pay a nickel more and stop this constant expense and annoyance.

HAMBURG'S FILTHINESS

The Tenement Districts in a Terrible Condition.

EVERY SANITARY LAW DEFIED

People Living on Refuse Meat—Clothes or Cholera Patients Hidden So That They Cannot be Disinfected—The Mortality Especially Heavy in These Districts—2,400 Orphans Left a Charge on the Community—The Plague's Ravages Elsewhere.

HAMBURG, Sep. 17.—The thermometer here varies between 70 and 75 degrees Fahrenheit. The air is humid and oppressive, and the city is suffering under a dead calm.

There have been 687 fresh cases to-day, or 11 less than yesterday; 213 deaths, or ten more than yesterday; 345 burials, or 18 more than yesterday. In the cholera hospitals and barracks the number of patients is 3,098.

Some 2,800 of the patients now under treatment are of the drugs of the city's population. They live in abject misery in the filthiest quarters, and are of the class which has suffered most severely from every epidemic of the last fifty years.

The other 300 patients, with hardly a dozen exceptions, belong to the families of fairly prosperous artisans. Of the persons who have died of the cholera in the last three weeks, 3,040, or about 40 per cent., were children.

In 1,000 families both parents have been taken, and thus 2,400 orphans have been left a charge on the community.

The Board of Health has just finished an investigation of the tenement districts of Hamna, Horn, Barnbeck and Hammerbrook. An appalling condition of affairs was revealed.

A member of the investigation committee says that even since the outbreak of the plague the people have defied every law of sanitation. Hardly a tenement house was found in the four suburbs where any sanitary convenience whatever had been provided by the landlord.

Since the scarcity of employment has been felt, the commissioners said, the people in these houses have only had vegetables and refuse meat to eat. After deaths from cholera they have neglected to use any of the disinfecting materials delivered to them, and have put on dead men's clothes before sanitary officials were notified of the deaths.

The people from these localities have constituted, consequently, two-thirds of the victims of the plague, and are still filling the hospitals with their sick. In Wandbeck, where the cholera was supposed to have been stamped out, there were some 35 new cases and 13 deaths to-day.

The outbreak is said to be due to the impossibility of collecting all the clothes in the death rooms for disinfection. As soon as the people apprehend that officers are coming they smuggle away garments which they think might be injured by disinfection.

The expected rush homeward, prophesied for the last part of this week has not come, and probably will not come until the sick list and death list shall have been considerably shortened.

LIVERPOOL, Sep. 17.—A cargo of fruit arrived yesterday from Hamburg, consigned to dealers in London. As the fruit was sound, the health officers concluded they had no right to confiscate it, and most of it went to jam factories.

CADIZ, Sep. 17.—All vessels arriving from New York are under an order just issued, to be subjected to quarantine at Spanish ports. The passengers will thus be protected from catching a variety of diseases prevalent in Spain.

ST. PETERSBURG, Sep. 17.—The cholera epidemic is subsiding throughout Russia. To-day in St. Petersburg there were eight deaths from cholera, and fifty-nine persons were seized with the disease.

PARIS, Sep. 17.—There were four deaths from cholera, yesterday, in this city, according to the official report, and fifteen new cases.

GRAVESSEND, Sep. 17.—Schooner Titanic, from Antwerp, is detained in quarantine at Gravesend, with one case of cholera on board.

STETTIN, Sep. 17.—There were seven deaths from cholera, to-day, in this city.

The Newport Dilemma.

PROVIDENCE, R. I., Sep. 17.—Gov. Brown has not come to a decision in regard to the petition of Newport citizens for a special meeting of the General Assembly to authorize a city election in their city to enable them to vote at the Presidential election, as they may not be able to do in the present deadlock. It is expected, however, that he will convene the Assembly the first week in October.

NEWS OF THE DAY.

The convention of the National Republican League of Clubs in Buffalo ended last night with a monster parade.

The Keeley League is the new name adopted by the hibernolite of gold clubs. The annual meeting next year will be held at Cincinnati.

The installation of Rev. Dr. Striker, as President of Hamilton College, will occur about Nov. 15. Four new professors have been appointed.

Secretary Foster has directed a special Treasury agent to proceed to Philadelphia and select a site for the new Mint to be erected in that city.

Gen. N. M. Curtis of St. Lawrence county has been nominated for Congress by the Republicans of the Twenty-second New York Congressional district.

Ex-President Cleveland has accepted an invitation to attend the exercises of the 25th anniversary celebration of Woburn, Mass., and will speak at the banquet.

Private telegrams from Prescott, Arizona, say that the report that work had been stopped on the Santa Fe & Prescott railroad is false. One thousand men are said to be working.

A telegram has been sent to General Ruler from the War Department instructing him to reduce the force of regular troops now in the Idaho mining region. Trouble there is about over.

Four men were killed and two injured in a head end collision between a freight and an accommodation train on the Chicago & Northwestern near Marshalltown, Ia., yesterday.

The "Republican" publishing company of Williamsport, Pa., an afternoon paper, has failed. The paper had not been making money for some time. The assignee will continue the publication for the present.

Rev. Henry P. Torsey, D. D., LL. D., for about 40 years President of the Maine Wesleyan Seminary, is dead at Kent's Hill, Me., aged 82. Dr. Torsey was always recognized as one of the leading educators of the country.

Cornelius Vanderbilt and S. D. Babcock, of the Columbus Commission of One Hundred, have assumed the responsibility of raising the \$100,000 necessary to pay the expenses of the ceremonies in honor of the discovery of America.

Minister Lincoln, Lieut. Emory and other well-known Americans as well as English friends attended the funeral at Folkestone, Eng., of the late Rear Admiral John Cumming Howell, of the United States Navy, retired, who died on September 13.

Physicians who have visited Voronezh, Kasau, Samara and Saratoff state that in each city there are between 900 and 600 fresh cases, and between 100 and 300 deaths daily. In the Caucasus the daily number of fresh cases is 1,500; of deaths 700.

The death of Cardinal Howard is announced from Brighton, Eng. He was 60 years old, and was created a Cardinal in 1877. He was a deep scholar. In his later years his mind was under a cloud, and he was unable to attend to his ecclesiastical duties.

George Meyer's carriage factory, 307 36th street, New York, was destroyed by fire at 9 a. m. The flames extended to Charles Filis' furniture factory and the furniture factory of F. Vogel & Co., both of which were more or less damaged. The loss is placed at \$100,000.

The big steamship Campana, built for the Cunard line's New York and Liverpool service, is afloat in the harbor at Glasgow, Scotland. She is the largest steamer in the world—600 feet long and a tonnage of 14,000 tons. The City of Paris, Majestic and the Teutonic range between 10,000 and 10,500 tons.

Minister Ryan telegraphs to the State Department that, by a decree of the Mexican Government, corn, cornmeal and beans will continue to be admitted free from tariff duty until the 30th of next November, and after that until the last day of January, 1893, subject to a reduction of 75 per cent. of the tariff duty.

The Riverside Athletic Club cyclists of Newark, N. J., have arranged for one of the largest bicycle meetings that has ever been held in that part of the country. Waverly Park has been secured with its half-mile track, and the races will take place there on Oct. 15. Zimmerman, Berio, Wheeler and Winile have all decided to enter.

The French imports for August amounted to 253,488,900 francs, as against 288,095,000 francs for the corresponding month of 1891; and the exports to 296,705,000, as against 376,844,000 francs for the same period last year. The exports of manufactured articles have diminished 27,400,000 francs since the new tariff regime went into force in February.

NEWS KILLED IN A WEEK.

LEWIS, Sep. 17.—A passenger train was wrecked yesterday about 30 miles from Torres Novas. Nine were killed and eight were seriously hurt. A loose rail caused the accident.
