A PASSENGER FROM THE "NORMANIA"

HE TELLS A VERY INTERESTING STORY.

MANY SILENT BURIALS AT SEA

Passengers Kept in Ignorance of the True Situation of Affairs on the Steamship—Searching for Fire Island.

MAX SCHMIDT, the Main street business man, arrived in town Saturday night with his daughter, Millie. They were passengers from Hamburg on the steamer "Normania" and consequently were obliged to suffer the quarantine. Mr. Schmidt was too much worn out immediately after his arrival to relate his experiences, but last night he was more refreshed and spoke frankly to a HERALD reporter.

The story is an interesting one, but the recital of all the incidents during the quarantine are too lengthy for one publication. Mr. Schmidt said: "We left Hamburg on the 'Normania' on August 26th, last. All the passengers were well when we started, but after we got on our journey most of the passengers were sea sick for three days. The sea was very rough. On August 28th a passenger was taken out of the second cabin and carried away to the ship's hospital. His bedding and clothing were thrown overboard, but nothing was said to the other passengers as to the nature of his illness. The passenger died early the next morning and was buried at sea. The same day a passenger was taken from the first cabin and he died in the ship's hospital six hours after his removal. This body was also buried at sea. The ship's officers kept the passengers in total ignorance of the nature of the sickness and of the deaths and burials. But when the passengers finally showed signs of nervousness the officers said the sickness was diabetes. They afterwards acknowledged it was diarrhoea. Three passengers then took sick in the steerage and they died.

"On the 3rd of September we arrived in New York. There was no sickness on board then, but when we passed through the upper bay Dr. Jenkins, of the New York health department, ordered our ship back to quarantine. All this time the passengers had been kept in ignorance of the deaths and burials, and the friends of those who had been sent to the hospital continued sending them dainties and notes. The officers received them as if the victims were alive.

"The deaths were not announced until after we got in quarantine. We remained there for three days when ten more deaths occurred."

Mr. Schmidt's recital of the sufferings of the passengers while detained upon the quarantined "Normania," their experience with the "Stonington," which was called to their relief, but proved useless on account of her lack of fitness for sea duty, and their imprisonment on the "Cephus," is told in a thrilling manner. The "Stonington" engine was unfit for duty. The "Cephus" started from the "Normania" with 600 passengers on board for quarantine at Fire Island, but when the "Cephus" got to sea it was discovered that the pilot was not acquainted with the route to Fire Island. For hours she cruised about almost at random. Night came on. The luckless passengers shivered in the cool sea breeze. They had no bedding, and nothing to eat or drink. "It was a dreadful night," Mr. Schmidt says. At the break of day the "Cephus" was started back for the "Normania" and the passengers offered thanks when they were safely at her side. A pilot was secured and Fire Island was reached at last.

Mr. Schmidt says he hopes he will never experience another trip of the kind from Europe.

The Prohibitionists.
The Prohibitionists of this county have filed their nomination papers with the Secretary of State, for Congress and Representative in the first and third districts. Those of the 2nd district will be filed today. The Prohibitionists, contrary to the current rumor, have secured the requisite number of signatures to have the names of their county nominees placed upon the official ballots.

UP SHE GOES.
The Soldiers' Monument Fund Jumps Over the \$500 Mark.

Monday, \$10
GRAND TOTAL, \$501.

Camp No. 6, Patriotic Order of True Americans, has stepped to the front. The Camp held a meeting last night and having learned that less than ten dollars will put the fund above the 500-dollar mark, passed a resolution pledging ten dollars to the fund.

Now keep the ball rolling. The fund is now on its journey to the \$1,000 mark. Let all put their shoulder to the wheel and see if they cannot have the \$1,000 pledged by the time the veterans return from Washington. Give the "yees" a surprise. Let them know that the people of Shenandoah are heart and soul in the movement.

PETER'S PUNGENT PENCIL PUSHING

LOCAL MATTERS BRIEFLY REPORTED.

SHENANDOAH'S SANITARY LAWS

"Peter" Handles Several Local Questions That are Now Agitating the Minds of Our People.

THE people of the borough view with satisfaction the efforts of the borough authorities to put up a network against any possible invasion of cholera. The start has been a good one. Let the good work go on, and let the people who have heretofore been dull in their appreciation of the truth get upon their feet and give the officials all the aid they possibly can. The situation with regard to cholera at the ports of entry may be described as decidedly encouraging, but that should in no way weaken the energies of our citizens in cleaning up. We must be ready for the unexpected.

Paved streets would save the borough heavy annual expenditure, and the saving would enable the people to secure that which they are sorely in need of—sewerage. Surface drainages will keep the borough in hot water until sewerage is established.

Perhaps, after all, the late fight between "Do Ase," the "Seven," the joint committee and others will result in a benefit to all concerned and a better feeling will take root for the near future. A disposition is growing on all sides to drop hostilities and turn combined attention to paved streets and the soldiers' monument. There is nothing else at present to keep the people thinking.

The World's Fair managers have issued several circulars touching upon the public school question recently and they appeal to the interest of all people interested in the worthy institution. One circular announces that each public school pupil can have an opportunity to place a sample of his or her school work on exhibition at the Columbian Exposition, provided the work can stand the tests of examination.

Among the passengers who alighted at the Lehigh Valley depot this morning were Alfred Kelly, wife and members of his "Widow Murphy's Goat" company. The goat was on hand, too. It is a knowing animal and winked amusingly at John Smothers when he shouted, "Ferguson House." Kelly and the goat will appear at the theatre this evening. The latter—that is the goat—is not like the regulation Shenandoah breed, it is said. It does not chew its oats and bill posters' buckets. Since it has made its debut upon the stage the goat has foregone such fare.

THE HERALD has very wisely concluded not to make any correction of a notice in its columns until it first thoroughly investigated the statement made by the parties asking for the corrections. This decision has been brought about by the discovery that in cases where such requests have been made the parties making them have been ignorant of the facts, or purposely misrepresented them. On Saturday last the HERALD published the sentence imposed upon August Dulcamp by Judge Pershing. One of Dulcamp's relatives called upon a HERALD representative on Sunday and stated that the report was wrong and that the sentence was not as severe as stated in the paper. The HERALD caused an examination of the Pottsville records to be made yesterday and has learned that the sentence was just as published.

"Ah, ha!" shouted one little boy to another on Centre street yesterday, "Your mama was at school to-day and you was not there. The teacher says you are going to be expelled."
"What do I care," answered the other, "I can re-studiate."

A number of firemen passed through town to-day on the numerous east bound trains, bound for the firemen's convention at Hazleton, Shenandoah will not send large delegations until Thursday, when the parade will take place. The Columbia, Phoenix and Rescue companies will be represented in line. The Columbias will take the Grand band with them.

In conversation with a young lady at the house of a friend's, a few days ago, the phrases, "my lady friend" and "my gentleman friend" were very often used by this fair damsel. There are few more grating phrases and far more strictly tabooed by well spoken people than these I have quoted. If you want to express the facts it must be done in separate phrases, as "I have a friend, a gentleman," or "a friend of mine, a lady," of course, unless you feel that it is necessary to state that your friend is a lady or gentleman, you can use "man" or "woman." In fact, it has become the practice to use these titles in preference to the former aim at entirely. The most perfect lady does not object to being called a

woman—he glories in it rather. As for the men—well they are just called men. How ridiculous it would be if they insisted on being called gentlemen whenever one spoke to them. It would be like Thackeray's valet in "Pendennis," who was a "gentleman's gentleman."

PETER.

HERE AND THERE.

Interesting Items Concerning Different Sections of the Region.

Ladies of Mahanoy City have organized a guitar and mandolin club and have hired an instructor. Shamokin men employed by the borough in digging a sewer beyond Mullen's foundry while at work struck an old drift which it is believed was driven more than forty years ago.

The Shamokin Borough Council has passed an ordinance establishing a Board of Health which has two physicians as members. Mount Carmel is to be lighted up with forty arc lights, the Borough Council of that place having passed an ordinance to that effect at its last meeting. The cost will be \$90 per light.

A Blaze on Coal Street.

The fire companies were summoned to a house on Coal street, between Market alley and White street, at half past nine o'clock last night. A high wind was blowing clouds of dust through the streets when the electric alarm sounded the taps and many at once recalled the conflagration of 1885. "This is a bad night for a fire," they said. The flames were located in the kitchen shanty at the rear of the house occupied by John B. Glis and owned by M. H. Kehler. The fire had secured good headway and the shanty was completely wrapped in flames. The prompt work of the firemen subdued them, however, and in about 20 minutes the company were on their way back to their quarters. The fire is supposed to have been caused by the heating of the woodwork about the range in the kitchen. The damage was light. While some of the Hook and Ladder Company men were handling a Babcock in the shanty the apparatus became unmanageable. Some of the acid fell into the eyes of Patrick Feeley and over the hands of others. The man who received the dose suffered severe pain for a while, but recovered from the effects in a few minutes.

Experience of an Ex-Champion.

Athletes and men who take ordinary outdoor exercise such as walking, running, bicycle riding, jumping, swimming, tennis, etc., are often the subjects of acute troubles. The experience of an ex-champion walker will be of interest to all who are afflicted. Harry Brooks writes: "No. 324 E. 19th St., New York, Apr. 2, '86. "Numerous statements relative to the merits of different plasters having been brought to my attention, I take this opportunity to state that I have used Alcock's Porous Plaster for over 20 years and prefer them to any other kind. I would furthermore state that I was very sick with catarrh of the kidneys, and attribute my recovery entirely to Alcock's Porous Plaster."

"Widow Murphy's Goat."

At Ferguson's theatre to-night the great and only Kelly, supported by a great company, including London's famous prima donna, Lillie LaRosa, will present Col. Theodore Hoppenheimer's London production of "Widow Murphy's Goat," rightly termed a barn of fun. It made all London scream with delight for 200 performances. Special new scenery painted by Savoy & Co., of New York city, also props and calcium lights will be used in this performance. In fact everything that was used in the London production will be seen at the theatre to-night. This is the same company that will appear at the Grand Opera House, Chicago, during the World's Fair.

The True Laxative Principle.

Of the plants used in manufacturing the pleasant remedy, Syrup of Figs, has a permanently beneficial effect on the human system, while the chemically prepared cathartics and mineral solutions, usually sold as medicines, are permanently injurious. Being well informed, you will use the true remedy only. Manufactured by the California Fig Syrup Co.

League of Republican Clubs.

The Republican State League convention will be held at Williamsport on Wednesday, September 28th. The occasion will mark the opening of the campaign in the Keystone State.

Junco.

The people north of the mountain when at the county seat will find it to their advantage to visit Junco, the largest man in Pennsylvania. Mr. John Trout is genial, pleasant and a good fellow all around. He keeps the best of liquors, wines, beers and cigars. Also serves hot lunch from 9 to 12 o'clock every morning. His weight is 380 lbs. 9-1-92
