THE PEST IN HAMBURG

Rapid Abatement in All But Three Suburbs.

16,470 CASES REPORTED UP TO DATE

Nearly One-Half of These Have Proved Fatal—Summary Measures in the Infected Districts—Six Thousand Clerks Dismissed—Situation at New York Grows Brighter Every Day—No Cholera at Elizabeth, N. J.

HAMBURG, Sep. 20.—The total number of cholera cases up to today has been 16,470, of which 8,110 have ended in death. The reports for to-day indicate a rapid abatement of the disease in all except two or three suburbs. The number of fresh cases has been 621, or 82 fewer than yesterday; the number of deaths, 187, or 37 fewer than yesterday; the number of burials, 292, or 37 less than yesterday. In public institutions there are, this evening, 2,939 cholera patients, or 92 fewer than yesterday.

The Health Board has now inspectors enough to watch closely all the infected districts and the most painstaking disinfection is enforced in all cases. Persons refusing to observe the Health Board's directions are fined, and, if still recalcitrant, are punished by arrest and imprisonment. These summary measures have worked like magic and even in the worst districts there are now few persons who oppose the sanitary officials in the discharge of their duties.

The first substantial evidence of the approaching collapse of small business houses was given yesterday, when the newspapers announced that 6,000 clerks had been dismissed by tradesmen, who could no longer afford to keep them. More such announcements may be expected before Oct. 1. Thousands of men will be obliged to seek employment in other cities if they and their families are not to be condemned to pauperism during the winter.

Prof. Koch has told the people of Berlin that the epidemic cannot be communicated through the mails. Nevertheless, all matter leaving the postoffice here is carefully disinfected. Mr. Stanhope, who was inoculated by Pasteur and came here to expose himself to cholera, has been excluded from all hospitals and cholera barracks. The work on the artificial wells is being pushed rapidly. Several engineers have been brought from other cities to hasten the work.

ST. PETERSBURG, Sep. 20.—The corn and potato crops of North Finland have been almost entirely destroyed by frosts. A famine is imminent.

HAYRE, Sep. 20.—There were four deaths from cholera in this city on Sunday and nine new cases of the disease.

HAD PASSED QUARANTINE.

Cholera Suddenly Breaks Out on a Vessel at Hull, England.

LONDON, Sep. 20.—The steamer Oranus, which arrived at Hull from Hamburg, was duly inspected by the health authorities of Hull and pronounced free from infection.

Thereupon the vessel was admitted last evening to its dock to unload.

The unloading was nearly completed when one of the firemen of the Oranus was taken suddenly ill, with every symptom of cholera.

He was at once taken to the fever hospital, where a careful diagnosis left no doubt that the case was one of Asiatic cholera, which had remained latent during the short voyage from Hamburg to Hull.

The unloading of the Oranus was stopped and the steamer was placed in quarantine.

The Record at Paris.

PARIS, Sep. 20.—There have been 29 fresh cases of cholera and eight deaths in the city to-day. In the suburbs 11 fresh cases and seven deaths have been reported.

Fresh Cases in Antwerp.

ANTWERP, Sep. 20.—Two fresh cases of Asiatic cholera were found in this city to-day.

SITUATION AT FIRE ISLAND.

Sheriff Darling May Demand the Evacuation of Quarantine to-day.

BARYLON, Sep. 20.—President Young of the Health Board has gone to Riverhead to consult with Sheriff Darling. It is generally believed that the sheriff will go to Fire Island to-day and make a formal demand for obedience to the orders of the health authorities.

Lawyer Fishel says a suit for permanent injunction restraining the authorities from establishing a permanent quarantine on Fire Island will be tried at Riverhead before Justice Gullen in October.

Some of the Thirtieth's men complain that they are doing more than their duty to the State as they were one of the first regiments to go to Buffalo, and did duty there while other regiments in New York and Brooklyn were allowed to stay at home.

NO CHOLERA AT ELIZABETH.

It Was Believed That a Case of the Disease Existed in the Hospital.

ELIZABETH, N. J., Sep. 20.—The case of suspected cholera in the hospital here turns out to be cholera morbus.

John Cusick, a Pole, employed in some chemical works on Staten Island, was admitted to the hospital here suffering from what physicians thought was Asiatic cholera.

The hospital authorities at once telegraphed the New York Board of Health to send a cholera expert to diagnose the case.

All the nurses and patients in the hospital here were able to move left the building in a fright.

DIED ABROAD OF CHOLERA.

Mrs. Corland Delany Evans Succumbs to the Plague in Caribbad.

PLAINFIELD, Sep. 20.—Word is received in Plainfield that Mrs. Clara Milliken Evans, wife of Corland Delany Evans, and daughter-in-law of the late ex-Mayor John H. Evans, died last week at Caribbad of the cholera. She had been taken to the watering place for her health early in the summer. Her uncle and guardian, Samuel Milliken of Plainfield, had received no particulars of her death.

Wanted an Increase of Wages.

READING, Pa., Sep. 20.—The employes of the Reading Iron Company are signing a petition for a 10 per cent. increase of wages. The wages at present are: Head welders, \$8.15; second, \$1.80; head straighteners, \$1.65; second, \$1.40; firemen, \$1.70; pokers-in, \$1.10; laborers, \$1.

To Try a Dying Girl.

MEMPHIS, Tenn., Sep. 20.—Judge Du Bose has ordered the case of Lillie Johnson to go to trial. She was with Alice Mitchell when the latter killed Freda Ward. Miss Johnson is dying of consumption, and the Attorney-General wanted the case dismissed.

NEW YORK'S SCARE OVER.

Not a Case in the City—Situation at Quarantine and Camp Low.

New York, Sep. 20.—New York's ill-bred and ill-supported cholera scare has passed its last gasp and passed away among the things to be forgotten. As there never was any good reason for its existence, it was at its strongest a very feeble creature, and its short life came easily to an end with the announcement that six days had passed since the publication of the first alleged case of cholera in New York and not another case had developed in all the city.

The quarantine steamer William R. Fletcher, with 355 immigrants, arrived at Camp Low, on Sandy Hook, at 7:30, accompanied by Second Officer Pergeluis, of the steamship Hugia, on which they came across the ocean.

Thirteen of the Scandia's passengers also arrived. It was a pitiful sight to see the two families that had left two of their dear ones behind dead. Each male member of the two families wore a small piece of black craps on his hat.

General Hamilton has done everything in his power to make them comfortable, and they seem to appreciate his actions. The Hoffman Island authorities sent the poor immigrants here without a mouthful of food and it was impossible to feed them immediately, which caused a great deal of excitement among them, some crying out lustily for food while others appealed to all with whom they came in contact to give them something to eat and drink.

Quite a scene occurred between General Hamilton and Second Officer Pergeluis of the Hugia.

Pergeluis went among the immigrants using foul and boisterous language to them, and when General Hamilton called him to account for it, he began in the same way on the General. The General grabbed him by the throat and used very forcible language to him, which caused him to subside.

The immigrants are loud in their denunciations of the steamer people in regard to the treatment they received. Hoffman's Island is now deserted so far as immigrants are concerned. Gen. Hamilton says that by nightfall everything will be in good shape at Camp Low.

At Quarantine this morning there is no change for the worse, and Dr. Jenkins and his assistants are consequently happy. The yellow flag was run up from the Scandia and Bohemia shortly before noon. A case of sickness was reported from each vessel, and the patients were at once removed to Swanbourne Island. Dr. Jenkins, when seen this morning, said that he was not disposed to pay any attention to reports of bad treatment received by women at Hoffman Island until they were made personally to him. He doubted the truth of the reports, and said he had not heard of them before. He will, he said, inquire into the subject as soon as possible.

Dr. Byron's daily report to Dr. Jenkins is as follows:

Dr. Abbott is just back from the ships. He brings two bodies from the Scandia—Eugenia Giesdorf, aged 65, who died of heart failure, and Christine Oelson, aged 8, whose death resulted from miasmata, and one new patient, Scholem Chazan, aged 10 years, from the Bohemia. With this exception, all of our patients are out of danger, and the island will soon be free from cholera patients.

MRS. HARRISON'S REMOVAL.

Start to Be Made This Afternoon—Difficulties of the Trip.

LOON LAKE, N. Y., Sep. 20.—The Presidential party, including Mrs. Harrison, will leave this afternoon and expect to reach Washington to-morrow morning. The details of the trip to Washington are purposely withheld in order that it may be made as quietly and comfortably as the occasion demands.

Speaking generally, however, it may be stated that the trip will be made from Loon Lake to Plattsburg over the Champlain road, from Plattsburg to Troy over the Delaware and Hudson road, from Troy to New York over the New York Central road, and from New York to Washington over the Pennsylvania Central road.

It is expected that each of these roads will furnish a special train and make every arrangement for the safety and comfort of the President's wife.

One of the principal difficulties of the trip will be the removal of the invalid from the cottage where she now lies to the railroad station at Loon Lake, a distance of three miles, over a rough mountain road.

The transfer will be made in a long, covered wagon, especially adapted to the road and arranged to receive the cot on which Mrs. Harrison will be carried from her cottage.

There are great misgivings as to the result of the removal, but nearly every person concerned in Mrs. Harrison's welfare considers that it is the only thing to be done under the circumstances.

Mr. George W. Boyd, of the Pennsylvania road, will have charge of the trip. He was especially requested to do so by Mrs. Harrison.

Race War in Arkansas.

LITTLE ROCK, Ark., Sep. 20.—News has reached here of a fearful race war that culminated in a general fight, in which four negroes were killed and Captain James a white man, seriously wounded at Campagnolle township, Calhoun county, two nights ago. The negroes are said to be greatly excited and under the influence of vicious white men are threatening to kill every white man, woman and child in the county.

Three Men Shot Down.

CHICAGO, Ill., Sep. 20.—At 4 o'clock a. m. James Duffy, watchman in the Rock Island yards, shot and killed Antonio Demaris, and fatally wounded Robert Markey and Charles Johnson. On Thursday Duffy ordered a friend of Markey to the yard. Markey resisted this as a personal insult, and this morning went to Duffy's shanty with friends and started a quarrel, with the result mentioned.

Want an Increase of Wages.

READING, Pa., Sep. 20.—The employes of the Reading Iron Company are signing a petition for a 10 per cent. increase of wages. The wages at present are: Head welders, \$8.15; second, \$1.80; head straighteners, \$1.65; second, \$1.40; firemen, \$1.70; pokers-in, \$1.10; laborers, \$1.

To Try a Dying Girl.

MEMPHIS, Tenn., Sep. 20.—Judge Du Bose has ordered the case of Lillie Johnson to go to trial. She was with Alice Mitchell when the latter killed Freda Ward. Miss Johnson is dying of consumption, and the Attorney-General wanted the case dismissed.

A PRINCE ON THE SHOOT

The Kaiser's Adjutant-General Violently Insane.

FIRED AT EVERYONE IN SIGHT.

He Drove All the Guests From the Hotel at Lozd—Wounded Two Servants—Only Overpowered When Firemen Played the Hiss on Him.

LOZD, Russia, Sep. 20.—Prince Antor Radziwill, adjutant general of the Emperor's military household, head of one of the oldest families in Germany, became violently insane on Sunday morning and hunted with firearms everybody who approached him. Early last week the Prince and General von Werder were invited to the Czar's hunting party at Spala. They arrived at the Grand Hotel, Lozd, on Saturday. Early Sunday morning the house was roused by shots and shouting.

Running from their rooms the guests saw the Prince with a fowling piece in his hand and two revolvers in his belt, firing at everybody in his sight. Two servants lay wounded at the head of the grand stairway. The Prince had shot one in the neck and the other in the breast.

After all the guests had fled from the hotel the chief of police called out the fire brigade and four jets of water were directed at the Prince. A company of soldiers who had been summoned entered the room just after the Prince had been floored by the water, overpowered him after a desperate struggle and bound him with chains. The Prince was sent to a private asylum.

The cause of his sudden madness is a mystery. He is 60 years old, and throughout his long court life has been universally esteemed for his kindness of heart and nobility of character. He married a grand niece of Tallyrand. His wounded servants are likely to recover.

PENNSYLVANIA DEMOCRATS.

Convention of Societies at Scranton—Many Notables Present.

SCRANTON, Pa., Sep. 20.—The convention of Democratic societies of Pennsylvania opens to-day, and the election of officers will be the first business. There is no evidence of opposition to the election of President Beach, Secretary Workman and Treasurer Kiser. Three thousand delegates are expected to be in attendance.

There will also be solid bodies of organized clubs in attendance from Philadelphia and Pittsburg. The local arrangements for the gathering are complete and Pennsylvania Democrats will be royally welcomed to Scranton.

The proceedings will be held in the Academy of Music, where will also follow a mass meeting in the evening at which Attorney-General Hensel, James M. Brek and Bourke Cockran will make addresses.

Gov. Pattison is also expected to be present and ex-President Cleveland has been invited but he cannot attend.

MURDERER MORGAN CAPTURED.

Detective Harvey—Bans Him Down, Gaining \$50,000 in Rewards.

KALAMAZOO, Mich., Sept. 20.—On the night of June 21, 1899, George Morgan, then a resident of DeFuniak Springs, Fla., murdered his wife and sister and fled. The crime was most unprovoked and cold blooded, the sister being shot and the wife terribly cut and stabbed with a butcher knife.

The wife's family is rich and influential, and immediately offered heavy rewards for Morgan's capture. The city and county officials added to the amounts until a fortune was piled up for the man who made the capture.

Hundreds of officers all over the country took up the search, but, as time went by and no clues were obtained, they dropped it except Detective L. J. Hartvelt, of St. Augustine, Fla. He had money, and going on Morgan's trail at once has persevered until he has captured his man, who was working on a farm near this place.

He is in jail here, and requisition papers have been sent for. Hartvelt is extremely joyful, as the prize he has secured is said to aggregate \$50,000.

Another Jersey Mystery.

NEW YORK, Sep. 20.—The body of a woman about 25 years old, 5 feet 7 inches in height, and weighing 120 pounds, was found during the morning on a pond on the estate of John Pettit, at Silver Springs, Montrose, New Jersey. The body, which was neatly attired in a close fitting black dress trimmed with black lace, had evidently been in the water about two weeks. The identity of the body cannot yet be determined. The police think it is a case of murder.

Did Not Serve the Subpoena.

BUFFALO, N. Y., Sep. 20.—Superintendent Morgenstern has returned to Buffalo without having served subpoenas on the soldiers who shot Michael Broderick. He registered at the Sinclair House in New York, and a few hours afterwards, and before he could look for the people of the Twenty-second Regiment, suffered an attack of rheumatism. He was obliged to return to Buffalo, and is confined to his house. It will be several days before he can get out.

The Steamship Carroll All Right.

BOSTON, Sep. 20.—The steamship Carroll, with 100 passengers and 40 sailors, which is three days overdue here from Halifax, and concerning which much anxiety has been felt both here and in Nova Scotia, has arrived at Booth Bay, Me., with her crank pin broken, but otherwise all right.
