necessary to suppose that the pelican not go fishing, but while it really estlmated daily the time when it must later he was found unconscious on the make its excursions to the beach, it road home and was taken to the hospital. was informed of the return of Sunday There the physicians learned that his skull by what was going on at the house, as, was fractured. His condition is precari-

nized Government of that country. Secretary Foster said to-day that he had heard notifn ; from Minister Scruggs hearing on the report circulated in New York by the Venezuelan revolutionists there elcomed the delegates to the city. He was followed by State Senator that the steamship Caracas, flying the United States flag, had been boarded at La Guayra by Pulldo's soldiers and insults offered, followed by a refusal to

apologize. Secretary Foster said he had received a despatch from Mr. Scruggs on Saturday bost, and that there was nothing in the

exhaustive non-political article which is a blow between the eyes for the pro-British howlers against American tin plate. It names the forty-two establishments in operation or preparing to make tin or tern plate in the United States, and to this list must be added large steel rail mills preparing to annex the tin plate industry. There are nearly five hundred rolling mills in the United States; of which already eighty roll sheet iron which can readily beturned into sheets for coating with tin. Let workingmen and others ponder on this comment of the Ameri- authwesterly winds. foun Architect:

Very much depends as to the future investment of capital in making and coating of plates ou the outcome of the autumnal Presidential election.

The sentiment among manufacturers is that if four years' more adhesion to existing policy can be assured, that accident breaks it? many works will be put into shape for making and coating plates, and a large amount of capital Invested in this industry.

JUST THE THING.

Publication has already been made in the newspapers of the proposed system of the Post-office Department under which the letter-carriers will collect the letters from the separate buildings along their routes as well as deliver them to their designated thinks tough glass; and may be, he of its three occupants, Mrs. Henry of addresses. Postmaster General Wan- his business. amaker has been making a careful study of this question and, matching theory with experiment, has become convinced that it is not only feasible but economical of time, and therefore desirable. The plan is to have at each houses letter box, sutomatic in its action, in one compartment of which

to start on a hunt by seeing him with gun and game bag."
