THE TARIFF TESTED.

The Democracy's Cry of Higher Prices Not Sustained.

New Industries Developed and Wages Are Advanced.

What is shown in the Comment on the McKinley Law from Experience in All Sections of the United States on the Operation of the Act.

A few years ago the Republican party went before the people with the proposition of protection, stating that with the McKinley bill manufacturing would be increased, more labor employed, and wages advanced in America; all promises made have been fulfilled, so now that the Democratic managers see that prices have not been advanced, as they stated that they would be, they fall back upon the very unique position that all legislation of a protective nature is unconstitutional, and should be annulled. Strange it is indeed that Americans have no right to pass laws for their own benefit, yet this is the position that the Democratic party assumes, but why they should do so is beyond the comprehension of intelligent people, who in their verdict this fall will show to the world that they can no longer be deceived with the fallacy of free trade. It is not a question any longer whether we can make the protected articles in this country or not; the fact is that we do make them, so the only question now is in regard to this matter, will the people permit the Democratic managers to close up our manufacturing or make the employees work for starvation wages, like they are compelled to do in the old country, by vicious legislation that they now threaten and will attempt if they get in power.

Standing by Protection.

Farmers are getting ahead, under the McKinley bill. It has given them better prices and an ampler market. They realize this on the one hand, while on the other hand they realize that the Democratic party is committed, in virtue of the tariff plank which it adopted at Chicago, to the destruction of the protection policy root, trunk and branch—if it gets a chance. Hence when invited to vote for Mr. Cleveland they may well shake their heads and remark: "We really cannot afford to; American industries unprotected would mean American industries jeopardized; if you Democrats came into power the country would not know precisely what to expect, while that declaration of yours that protection is unconstitutional would justify the people in expecting the most radical sort of a change. Oh, no; as sensible, practical men, with families depending upon us, we are opposed to a change. It is our plain duty to use our votes and influence against you."

This is the argument which is proving of greatest weight with the majority; the argument which is doing the most to secure the election of the Republican ticket. The farmer, the manufacturer, the merchant, the workman, the business and trade of the country in their numberless branches, must do one of two things—they must either vote to maintain protection or vote to strike it down. To maintain it is to conserve the common prosperity. To strike it down is to invite widespread financial disaster.—New York Tribune.

Protection Advances Wages.

The Massachusetts labor report, recognized as the most thorough and most trustworthy in the country, being prepared with great impartiality and by the best trained statisticians, is a document of great value in discussions of the effect of the tariff. It compares the year 1891, which was all under the new tariff, with the year 1890, of which nine months were under the old duties. The general result is an increase of 2.65 per cent. in amount of wages paid during the year and 43 per cent. in number of days in operation. The value of goods produced increased only 1.33 per cent., being less than in former years, for the obvious reason that prices of manufactured goods were in almost all classes reduced in 1891, as the report of the finance committee showed, so that larger production in quantity represented a less increase in value.

Theory and Condition.

The theory of Mr. Cleveland is that the Republican tariff has greatly added to the customs taxations of the people. The condition is that our importations free of duty for the past year exceed by 21 per cent. the non-dutiable imports for the year 1889.

The theory to which Mr. Cleveland is committed is that reciprocity is a sham, and that our trade with foreign countries is blighted by the Republican policies. But the condition is that our foreign commerce has increased during the past year more than \$400,000,000 over the average of the previous ten years, and the balance of trade with foreign nations for the fiscal year 1892 was \$205,944,342 in our favor.

Workingmen Cloth Like Princes.

The free trade papers that are prating so much about the shoddy that they claim; taking the place of good woolen goods; in this country are invited to contemplate the spectacle of free trade England importing 75,000,000 pounds of foreign rags annually to manufacture into shoddy for her working people. The American workingman is clothed like a prince compared with his English brother.—Rochester Democrat and Chronicle.

They Probably Know.

The 13,000 people who have found employment the past year in our revived industries will probably know where to place the credit. Not only has the average rate of wages increased under McKinley protection by 2.6 per cent., but 13,000 persons not before employed have found profitable and steady employment.—Springfield (Mass.) Union.

Ask Your Wife.

The terrible oppression of the McKinley act! What is it? Ask your wife—who, we hope, holds the purse—when she could buy so much for the dollars you earn as she can now buy. Protection gives you the dollars and the worth of them. Stand by it.

To Cut Down Wages.

The Democratic party is now making the greatest political battle ever waged by a party to cut down the wages of the workmen of this country.

A Democratic Confession.

McKinley prosperity has ceased to be a Republican campaign hallucination. It is a reluctant and compulsory Democratic confession.—New York Tribune.

CURED FREE.

Those Addicted to the Rum, Tobacco and Opium Habit,
There are many in this county slaves to rum, tobacco and opium, who would gladly throw off the yoke if a cure was guaranteed. The editor of the New York Mail and Express has undertaken to open institutes in that city for the cure, free of charge, of any of these habits. Dr. Irvine, who has charge of the institute, has sent out the following card:

"Are you addicted to liquor, opium or tobacco? If you are and you honestly wish to give it up you can be treated free by the Morrell Cure by applying to me at Broome street Tabernacle, No. 303 Broome street any day at 2 p. m. If you cannot come at that time send me a postal card and I will come and see you."
"The City Mission has investigated the Morrell Cure, and found that those who have been treated by it give it the highest commendation. It cures 100 per cent. of all those who undergo the treatment. Sincerely the lodgers' friend."

It is claimed that
1. It is a cure in all cases.
2. Treatment does not interfere with usual employment.
3. No sore arms or other disagreeable accessories accompany treatment.
