PEERLESS NANCY HANKS

Her Wonderful Performance Admired by All the World.

SHE LOWERED THE RECORD TO 2:04-

The Best Previous Effort on a Regulation Track Was Made by the Mare in 2:07 at St. Paul, Minn,-Budd Doble Ectitled to Bouner's \$5,000 Offer.

TERRA HAUTE, Ind., Sep. 29 .- "How long will it be before Nancy Hanks reduces the trotting record to two minutes?" is a question frequently heard here to-day. That the more can do it is doubted by but few of the sporting men here after her peerless performance of yesterday, when she lowered her record of 2:07, made at St. Paul, to 2:04. Both these records have been made on regulation tracks. The mare a few weeks ago made a mile on a kite-shaped track in 2:05 1-4.

The 10,000 people who saw the act sat breathless for a moment after the little are passed under the wire, and even Doble, always modest of speech, declared then carried to the judges stand on the coulders of the crowd and called upon or a speech that he was "hourse and ancy Hanks went so fast it took my

reath away."
It was about 4:40 o'clock when Starting Tudge Walker amounted that Nancy Tanks would go to beat her record of 2:07

Hanks would go to best her record of 2:01 made at St. Paul.

The daughter of Happy Medium worked two niles in 2:32 and 2:25 respectively. The runner, Abe Lancolu, stood opposite the flag while Nancy was taken well up the stretch for the start. Coming like a whirlwind down the stretch, Abe was at her wheat and Dalla northed for the worl. er wheel and Doble nodded for the word,

her wheel and Doble nodded for the word. The clip was a terrific one. She was at the eighth in 15 1-2 seconds and at the first quarter to 31 seconds.

The second, an "up-hill" quarter, was done in 31 3-4 seconds, the half being reached in 1:02 3-4. The excited crowd began to cheer, but at a word of admon-ition from the judge, lapsed into silence. This was broken by murmered "ohs" when the third quarter was done in

20 3.4 seconds.

Even the judges were appalled at the wonderful outburst of speed and thought the mare was running away. So last did she come that no one could tell her gait. On she flew and into the stretch, hand, and clucking gentle "whom" to keep her steady, squared her away for the great flight home. Even her light hoof beats sounded loud to the silent

As Doble gathered her for the final effort be touched her gently with the whip, gave two of those mastertul lifts of his and the world's record, either pace or trot, was lowered 1 1-1 seconds and the record for regulation track three

The excitement over the great mile did not really begin until evening when the crowds gathered about the hotels. Nearly every noted driver in the country is here, and all are unanimous in declaring that it was the most wonderful mile ever done. Mr. Doble received hundreds of telegrams of congratulation from all over the country. He wired Mr. Bonner; "Nancy Hanks, 2:04 over a regulation track." This is a gentle hint that the owner of Mand S. and Sunol can present him the \$5,000 offered for the first horse to trot a mile in 2:05 over a regulation track.

VERHOEFF WAS NOT EXPELLED. Prof. Brush of Yale Says the Gambling Story Was Magnified.

New Haven, Sep. 29.—The officers of the Yale Sheffield Scientific School deny the statement published recently that John M. Verhoeff, the missing member of the Lieut Peary expedition to the Aro-

tic regions, was expelled from Yale.

Prof. Brush, the director of the school, said in relation to the matter: "Ver-hoelf was not expelled from Yale, neither did he leave the coilege in disgrace. The gambling story has been greatly magni-fied, and was in no way the cause of his leaving Yale.

"He was in the class of '90 and remained through his freshman and junior years, and some time during his senior year withdrew, fearing that he would not e able to graduate, owing to low marks." In his studies Verboeff is represented by his instructors as being very bright, but possessed of that uneasy disposition which prevents the owner from going very deeply into subjects which require hard and constant effort. Those who knew Vernoeff in New Haven believe that
