Two Men Meet a Terrible Accident at Braddock, Pa.

EXPLOSION OF A BLAST FURNACE.

A Report Like that of a Voloanie Eruption-The Unfortunates Enveloped By the Molton Stuff-Companions Could Render But Little Assistance.

PITTERURG, Sep. 30 .- A frightful acci dent occurred at the Edgar Thomson Steel Works, owned by the Carnegie Com pany, at Braddock, yesterday morn-ing. Furnace H, one of the new blast furnaces was being charged. The mixture clogged up the opening and broke through the bottom. Hundreds of tons of molten metal, ore, coke, etc., were precipitated to the pit under the furnace. There was an explosion that shook the ground for hundreds of yards. The top of the furnace was blown off.

Michael Brannan and Andrew Srakol were filling in at the top of the furnace, 90 fest above, at the time. They wer standing on a small bridge between furn-aces H and I, and the shock almost three them into the red hot crater. Te explo-sion was in the nature of a volcanic eruption.

The two men could not escape the mixture of molten metal thrown up as it came down about them. The stuff ran atl over the little bridge to which the men clung in their terror and settled around them to a depth of about a fost. Their feet and lower limbs ware cooked by the hot stuff. Their companions be-low, seeing the awful plight of the two unfortunates, hurrled to their assistance. The explosion had wrecked the bridge to such an extent as to make it dangerous for anybody to go on it. After con-siderable difficulty the men were reached and taken off, the hot stuff still clinging

to their bodies. Their screams were agonizing as they were pulled from the fiery bed. They were removed to the Mercy Hospital, They cannot live.

The explosion will cost the Carnegie Company many thousands of dollars.

NEW YORK COAL DEALERS ALARMED. They Fear the Intended Chicago Move-

ment Against the P. & R. NEW YORK, Sep. 30 .- The announce

ment that the District Attorney of Cook county, Ill., proposes to ask for an injunction to restrain the Philadelphia & Reading Coal Company from selling coal in Chicago has made a profound impres-

sion among the coal dealers here. The head of one of the largest concerns has telegraphed a protest on the ground that such an injunction, if granted exparted exparted as in New Jersey, would advance coal probably to \$15 a ton, rather than the seiling rate of \$7.25 which rules in Chinese to day Chloago to-day.

An officer of the coal company said this morning that such an injunction could only effect the Chicago people by either advancing the rate to an exceptional higher figure or compelling the people to use bluminous coal.

DENIED BY MR. FRICK. Re Says Carnegie is Not Coming Back te Settle the Homestead Strike.

PITTSBURG, Sep. 30 .- A statement in an evening paper that Andrew Carnegie is on his way to this country for the purposs of settling the trouble at Homestead between the Carnegie firm and the men caused considerable talk in labor circles here.

Chairman Frick made the following statement this morning: "Well, if Mr. Carnegie is coming home I have not heard of it, and if he was coming I think I would know something about it. You can say that there is not a particle of truth in the story. We are satisfied with the way that our works are being run, and also with the men, and I don't see why we should make any effort to effect a settlement looking toward again engaging our old men.

You can also say that there is no truth in the story that our 23-Inch mill has been closed down and the men paid off, or that we intend to indefinitely suspend operations at our Homestead plant. Everything is going along very smoothly and we are satisfied with the situation.
