IN HONOR OF THE GENOESE New York's Magnificent Co-

lumbian Celebration Now Fairly Under Way.

THE CITY DECORATED AS NEVER

BEFORE IN ITS HISTORY.

Buildings Along Broadway a Mass of L Fings and Bunting -College and School Parade To-day-Appropriate Services in All the Churches Yesterday .- The Matropolis Rapidly Filling Up With Visit ars-Programme of the Week.

NEW YORK, Oct. 10.-It is probable that no city was ever before so beautifully, so gaily, so artistically, and, above all, so generally decorated as is New York to-day. The citizens have responded with remarkable unanimity to Mayor Grant's request to aid in the Columbus celebration by decorating their homes and their office buildings.

It was to be expected that the city buildings, Federal buildings, hotels, club houses and prominent business houses would be respiendent in gala attire, but the ready response of private citizens comes as something of a surprise in the history of celebrations, even in patriotic New York. Some of the residential streets are as gay as Broadway.

Besides being the hanner of the United States no flag is as effective for decorating purposes as the Stars and Stripes, and of course, it is the piece de resistance of the decorations. The flag is seen everywhere, in all sizes and arranged in every con-ceivable form. Huge breadths of cotton, dotted with stars and barred stripes, and,

of course, colored red, white and blue, are also used extensively for drapery purp Next to the stars and stripes are most

frequently seen the red and yellow colors of Spain and Italy's cross in the centre of green, white and red. The three flags blend well and are effectively used together in thousands of cases. The portrait of Columbus occupies a promi-nent place in all the more elaborate decorations. The great discoverer is decorations.

shown in many different situations. The favorite picture represents him landing for the first time on the soil of the New World.

Tens of thousands of cheap prints showing Columbus with a sanctified look and earnest expression were hawked about the city by poddlers at a dime such. Every small shop on the cast and west sides has one in the window, with as appropriate frame of Stars and Stripes bunting.

Stripes bunting. Broadway and Fifth avenue, of course, carry off the palm for brilliancy and ef-fect. From the Battery to Twenty-third street. Broadway runs between two banks of color. Every building shows some effort. The City Hail, as befitting, is certaiuly

the most elaborately decorated building in New York. On all four sides the walls are literally smothered with flags, banners, shields, and all manner of gay levices. The cosmopolitan idea has been devices. carried out to its fullest extent. No matter from what country comes the stranger who stands in the park and views the historic pile he will see his nation's flag en-twined around the coat of arms. Surrounding all are gally fluttering strings of hundreds of small banners. Newspaper Row is respiendent. The

home of every journal is more or less at-tractively decorated. The most elaborate work has been done on the Pulitzer Building. Colored lights make the
