Southwestern Railroads on the Verge of Trouble.

ATCHISON STRIKE ENDS IN A DAY.

It Was Caused by a Telegram Purporting to Come from Grand Chief Ramsey, Calling Out the Operators-The Order Was

St. Louis, Oct. 18.—The railways throughout the Southwest are on the verge of what will probably prove to be the most complete tie-up in recent years. A press representative this morning asked Grand Chief Ramsey of the Order of Railway Telegraphers what was being done on the Santa Fe system. Mr. Ramsey said: "Mr. E. S. Tobey, my private secretary and Deputy Grand Chief has full and complete charge of the situation on the Gulf, Colorado and Santa Fe road. He ordered the telegraphers on that division to stop work and they obeyed. Yes terday the men on the Northern division between Purcell and Wichita were ordered out and I learn the order was obeyed

"If Mr. Tobey does not receive promp and favorable response to his demand, you may be assured that every telegraph operator on the Santa Fe system and its many divisions and controlled lines will

In regard to the Missouri Pacific strike matter, Mr. Ramsey said: "We have just fluished a conference with General Man-ager Smith and Superintendent Ham-mond and we will have a final meeting

to-day. If no decision and agreement is reached at this meeting we will then give our ultimatum, setting a time limit that will probably result in some surprising

IT WAS ALL A MISTAKE.

A Bogus Despatch Caused the Strike on the Atchison Road,

TOPEKA, Kan., Oct. 18.-A bogus despatch purporting to come from Grand Chief Ramsey, of the Order of Railway Telegraphers, caused 900 operators and train despatchers on the Atchison, Topeka & Santa Fe to desert their posts yes terday. The despatch was as follows:

"To all operators and despatchers—In view of the fact that the Gulf, Colorado & Santa Fe is operated by the Santa Fe, it is thought best that all operators on the Santa Fe should go out as well, as the company refuses to concede the conditions on the Gulf Colorado & Santa ditions on the Gulf, Colorado & Santa Fe schedule."

The waik-out resulted in the stoppage of all trains, and not a wheel was turned until the difficulty was settled.

General Manager Robinson, in speak-

ing of the unexpected strike, said that it was all a mistake. He claims that Chief Ramsey did not write the despatch that resulted in the walk-out, but that it was sent by an operator in Dodge City named

Johnson, who did it as a joke.

Last night a despatch from Grand Chief Ramsey, stating that the order to go out was bogus, was sent along the line, and the men returned to work.

This order did not affect the striking

employes on the Gulf, Colorado & Santa Fs.

General Manager Robinson said this morning: "The trouble on the Gulf, Colorado & Santa Fe is over the comcolorado & Santa re is over the com-pany's rules and regulations, and we did not expect the strike. I had expected to meet Mr. Ramsey to advise with him about that matter as soon as we could arrange a date."

Rio Grande Strike Will Not Spread. DENVER, Oct. 18 .- The strike of train men on the Denver and Rio Grands railroad remains unsettled and there is no immediate prospect of an agreement being reached. It is hardly probable that the strikers will receive aid from the other divisions. The switchmen and operators say the strike is ill-advised and nothing to do with it

The strike will therefore hardly spread beyond its present limits.

STAMFORD'S CELEBRATION. The City Filling Up With Visitors-Big

STAMFORD, Conn., Oct. 18 .- The event of last evening in the anniversary cele bration was a concert by 200 children in Town Hall, which was filled to overflowing. Pupils, in appropriate costumes, by means of tableaux, recitations and songs, illustrated the history of the town, State and nation.

The squadron of four vessels, the Mi-

antonomoh, Atlanta, Dolphin and Vesuvius, is now in the harbor, and thousands are visiting the ships to-day. The programme of to-morrow's exer-cises is completed. There will be 5,000

NEW JERSEY DEMOCRATS.

Tax Condition in That State Not Entirely Salisfactory, to the State Committee

TREETON, N. J., Oct. 18 -- Everything that has been attempted in the way of harmony by the Democratic managers has so far proved a failure. Governor Abbett's presence in the canvage prevents the patching up of factional differences His enemies in his own party proclaim their intention of laying him on the shelf. The anti-Abbett members of the committee are taking little interest in the Gubernatorial campaign and saldom visit beadquarters. In fact it is difficult visit headquarters. In fact it is difficult for Chairman McDermott to get a quorum to attend the regular meetings. Whatdone yet in the way of an active cauvasa will have to be transacted by Gov. Abbett's friends, who have control of the headquarters and the funds. Appeals are pouring in begging the committee to get Judge Werts to write an open letter pledging himself, in case of election, to repudiate Abbett and repeal all the acts

of the present administration.

Since the Newark "News" came out for John Kean, jr., for Governor, its old contemporaries have been jumping on it. They charge that the "News" misunder-stands Wert's attitude. To dispreve this charge the "News" has published a pava-graph referring to Mr. Werts" position in e campaign, in which it says that Mr. Werts was nominated, despite his pro-tests, on a platform which indersed the scandalous record of bossiam which has made the people of New Jersey groan in augush of spirit, and that he is likely to yield in the future to the behests of the

Bath Young and Stivetts were in great form, having speed, good control, and plenty of curves.
Young pitched the entire eleven innings without giving a base on balls. While there was a lack of base hits, there were several good fielding plays. The first basemen of both teams played their positions admirably. The Bostons found it impossible to steal bases on Zimmer, and the Clevelands got but one or two chances to try it on Kelly. The latter did not (catch particularly well. The nearest that rither side came to make The nearest that either side came to making a run was in the ninth inning with Cleveland at the bat.

WHERE IS SOMERBY!

He Has Made Himself Scarce Since Being Indicted.

PHILADELPHIA, Oct, 18.—The where-abouts of Freeman D. Somerby, Suprems President of one of the two reorganized branches of Iron Hall, is a matter of much speculation in this city. For nearly two months he has been visiting one city after another endeavoring to arouse enthusiasm for the order, but he carefully avoids Philadelphia and Indianapolis.

In the latter city there is already an indictment against him, and since the ar rest of Messrs Stockwell and Hayes he has not been seen here. From time to time reports of his doings in other cities have been received here, but when he will return to his home here is a question none

District-Attorney Graham refuses to say whother he intends arresting Somerby should he return home, and his son says he has no idea where his father is, as he seldom hears from him.

Only Twenty-Three Saved Out of Two Hundred on Board.

SHE WAS STRUCK BY A TYPHOON.

Driven on a Los Shore-Passengers Swept Overboard and the Boats Smashed to Piccos. The Ship a Total Loss - Het Cargo Very Valuable

Loxnov, Oct. 18 .- Later despatches oncerning the wreck of the Peninsula & Oriental steamship Bokhara in the channel of Fokien in the China Sea confirm the first reports of the disaster and give additional details.

The weather was terrifle, and the raging waters quenched the fires on the steamer. The steamer became unmanageable and sank, and the commander and a majority of the officers and crew were lost.

were lost.

There were 200 persons on board.
Of these 177 were drowned. Twenty
passengers, five officers and three sergeants of the Hong Kong garrison were
among the lost. Among the saved are
Dr. Lowson and Lieut. Markbam.
Some time after the Bokhara left
Shanghal the barometer began to fall,
and the vessel was made sing allow and

aloft to ride out the gale that was known to be approaching.
In a few more hours the wind was

blowing a terrific gale. The steamer was to the westward of Formosa, where ty phoous are of frequent occurrence, and in the cymparatively narrow waterway she did not have safe sea room. The sea was running tremendously high and efforts were made to lay the steamer head on; but with the wind shifting about the compass, a peculiarity of typhoons, this was impossible.

Soon a terribly high cross sea was run-ning and the stoomer was pitched about like an empty bottle. Her hatches were closely battened down, but the sens that boarded her soon tore the tarpanlins off, and shortly the hatches themselves were lifted and carried overboard. Spare sails were then lashed over the openings, but these were of little service in preventing the seas from entering the hold, and soon tons of water had entered the steamer. Water began to pour into the fire room, and, though every effort was made to keep it out, it began to gain on the pumps, which were working at their ut-most capacity.

Consternation prevailed among the passengers. None of them was allowed on deck.

They were mostly Chinese, and had it not been for the fact that they were locked below many would undoubtedly have jumped into the sea. Soon the coal pissors and firemen were drowned out by the water rising in the fire room, and a few moments later the

fires were extinguished.

The situation of the ship was now most precarious. Hawsers were thrown out to keep the vessel's head up to the wind, but she broached to, and she was soon

rolling and pitching fearfully in the cross seas that were pounding her, and very often making clean breaches over her. Suddenly, above the howing and shricking of the wind, a duli, booming sound was heard, and those on board knew they were drifting on a lee shore, and that the sound they heard was the sound of the crashing of rollers on the

Soon through the blinding rain land was seen close at hand, and in a few minutes the steamer struck. Everyone was ordered on deck. The passengers had put on life preservers, but these were of little use, as many of the people were swept overboard and drowned by the seas breaking over them.

It was impossible to lower the boats. Those on the windward side of the steamer were smashed to pieces soon after she stranded, while those on the lee side could not be approached because of the seas that were aweeping the steamer's

forded, but every time a sea surged over the vessel their number graw less, some of them having been carried away

FLOWER AND THE HUGHES CASE The Governor Defers Action Until After the Election

ALBANY, N. Y., Oct. 418.—Gov. Flower was asked if he would make any reply to the resolutions of the Central Labor Union, of New York, denouncing him for refusing to pardon James Hughes, of Rochester, and citically threatening the Democratic , sty with the loss of 12,000 votes if the pardon was not granted before election! The Governor

replied; "I am not in the habit of granting pardoes upon the demand or threat of any citizen or any body of citizens. Applications for executive elemency are considered on their merits. Nor do I conceive it my duty to grant pardons for

campaign purposes, "On account of the political espect which is give friends have given to the application in his behalf, I have refused to consider it until after election. It may as well be understood now as later that the Governor of this State is not to be buildezed just before election, or at any other time, in the discharge of his official obligations."

THE BRITISH FLAG INSULTED. An Outrage Perpetrated in New York By an Unknown Man.

New York, Oct. 18.-It has just been learned that an outrage on the British flag was perpetrated in Wall street on

About 5 o'clock, when the street was crowded with people going to their homes after the day's business, an unknown man dashed up the stoop leading to the building of the Bank of British North America, No. 52 Wall street, and seizing hold of an English flag flying alongside of the American emblem tore it from its fastenings in front of the building, tore the flag to shreds, trampled it under his feet, all the while muttering maledictions, broke the staff into pieces and walked

The crowd looked on in amazement at the acts of the man, and although his proceeding were heartily denounced, no ne interfered.

The man disappeared and no trace of

him could be found, or anything which would lead to his identity.

The flag was a part of the decorations on the building in honor of the Colum-

bian celebration.
