THE SOLDIERS' MONUMENT COMMITTEE MEETS.

A PERMANENT ORGANIZATION

Councilman James Made President, H. E. Dengler Secretary and S. A. Boddall Treasurer—Town Site

MEETING of the Soldiers' Monument committee was held last evening in the Council Chamber and some substantial work was done.

It was decided to go into permanent organization, and the following officers were elected: President, Thomas J. James; Secretary, H. E. Dengler; Treasurer, S. A. Boddall.

A committee was appointed to select a site for the monument and report at the next meeting of the general committee.

The secretary was instructed to invite by letter each society in the town not represented at the meeting last night, to appoint a representative to act with the general committee.

Mr. Ferguson thought a good method for raising funds for the monument would be to issue certificates of stock, as was done in connection with the Pottsville soldiers' monument, and by which six or seven thousand dollars was raised.

It was decided to let the plans for raising funds lay over until the next meeting, when it is expected all the societies in town will be represented.

And so the ball has been started. All the representatives at the meeting last night stated that the people are heartily in sympathy with the project and that there will be little or no difficulty in raising the necessary funds.

On November 24th the Women's Relief Corps will hold a supper in Robbins' opera house to raise money for the fund.

A committee of Henry Hornecastle Camp, No. 49, Sons of Veterans, has arranged for the production of a patriotic play at Ferguson's theatre for two nights in December and later on Walkin Waters Post will hold a fair.

THE WORK PROCEEDS!

CLEANING GROUND FOR THE NEW WATER WORKS.

THE GANGS STARTED TO-DAY

The Contractors Say They are not Enjoined by Monday's Proceedings—Considerable Work to be Done.

OTWITHSTANDING the proceedings in court last Monday, Messrs. Quinn and Kerns, the Pottsville firm which has been awarded the contract for constructing the borough water works, to-day put three gangs of men at work and expect to have good headway made before the close of the week.

The contractors and advocates of the project say that there is no injunction pending and that the work is in no way restrained.

Contractor Quinn says the object of putting three gangs at work now is to get the Girard Estate and others who may object into court at once.

Meanwhile the contracting firm does not hold the borough responsible for breach of contract, but the borough will be called upon to pay monthly for what work is done.

OBE'S OBSERVATIONS

What He Sees and Hears During His Travels.

Chief Burgess Smith was obliged to get to death the other day a large white dog that had suffered in the victim of some fiendish boys, whose names are at present unknown, but who will eventually be located, as the case was of such a fiendish character that several parties have volunteered to bring the guilty ones to punishment even though it takes months. The dog was a terrible sight when the Burgess found him. The boys had set his coat on fire after saturating it with oil.

Such a fiendish act as this is deserving of the most severe punishment the law allows, and any one who shields such guilty parties should also be held accountable.

The County Commissioners have their hands full making preparations for the coming election. They find great difficulty in securing suitable quarters for polling places. Commissioner Bowers spent the most of yesterday in town arranging quarters. For the First ward the drill room in the electric light station at the corner of Bowser and Lloyd streets, was secured. Schindler's hotel was picked for the Second ward.

The people of towns are beginning to bubble with campaign stories, some having and others tending to ridicule candidates for offices. Campaign stories are, as a rule, far more amusing to the readers than to the publishers.

I put myself in this light the other day before a gentleman of town and he did not think it right that the newspapers should put a "tax" upon political candidates. I asked him if it was legitimate for the county and state committees to require candidates to pay assessments, and he replied, "Yes, perfectly proper; you know certain expenses must be met." But when I put the question "who should pay us for putting the political bonanza in type, who should pay the rest, gas bills, etc., in proportion to the time consumed?" he stammered and then collapsed.

I'll admit that a newspaper is a more or less public institution and must devote some time and space to the ventilation of political affairs. But a newspaper is not a free hospital or gold cure institute, and specific cases with directions as to the treatment that shall be received must go upon the protective tariff list, and should be accompanied with the co-s-h. It takes experience to bring one in harmony with this doctrine. Bring along your \$\$\$ and the newspaper will soon answer your question, "Where am I at?"

Mr. Danacher, of White Haven, is to supply the stone for paving between the rails of the electric railway in town. He was in town Monday and said he would have all his material on hand within a few days. The stone has a red color and will be quite in contrast with the stone to be used in paving the rest of the squares. The mixture will be a sort of red, white and blue.
