## STEVENSON'S ANSWER

The Democratic Candidate Formally Accepts.

CAMPAIGN QUESTIONS DISCUSSED

The Vice-Presidential Somines Cive His Views on the Tariff and the Curoncy-Nearly Balf the Document Devoted to the Lodge Bill and Smiller Attempted Laglaintion,

CHARLESTON, W. Va., Det. 30:-Th letter of acceptance has been sent to the President of the National Democratic Convention by Gen. A. E. Stevenson:

CHARLESTON, Uct. 29. TO THE HON, WILLIAM L. WILSON, CHAIR MAN, EW.

When, in the presence of my country men I scorpted the bouur conferred upon me by the convention over which you presided, I prumised to indicate by lette o a more formal manner my acceptance I the busination tendered me by the as sublini representatives of the Democratic erry of the United States.

Since that time I have been engage contamulty in the discussion before the people of many States of the Union of the leaner emphasized by the convention and opresented by our candidate for Presi nd, Graver Cleveland, Opportunity has me been desied me to write with the red would like to the more forms

answer promised to your committee.

The full discussion of public questions commonly expensed from a cambidate for Vice trendent, has been rendered less impossive by the complete presentation of the Democratic creef, by the guntle-man with whom I have the honor to be iscented as a candidate on the Nation ticket. His treatment of the issues now before the country for discussion and settlement, was so complete that I can do it is who were in attendance little more than endorse his position and the committee was appointed. give it the emphasis of my unqualified

approval.

The greatest power conferred upon human government is that of taxation.
All the great struggles of the past for a broader political liberty have looked to-wards the limitation of this power by right to tax-a right which should alway be limited by the necessities of the gov-ernment—and the benefits of which may be shared by all whenever this power is used to draw tribute from the many for the benefit of the few, or when part of the people are oppressed in order that the remainder may prosper unduly, equality is lost sight sight of, injustice hardens into precedent which is used to excuse new exactions, and there arises arcificial distinctions which the beneficiaries come to look upon in due time as vested rights

sacred to themselves;
It is plain that our present inequitable system of tariff taxation has promoted the growth of such condition in our hand, tayored though it has been by an indus-trious and enterprising people, a friendly climate, a productive soil and the highest development of political liberty. If the beneficiaries of this system shall be able to add a new tenure of power to those they have already enjoyed, the development of unfavorable conditions must continue until the power to tax will be lodged in those who are willing and able to pay for the perpetuation of privilege originally conferred by a confiding people for the preservation inviolate of their own government.

There is no longer pretext or excuse for the maintenance of a war tariff in times of peace and more than a quarter of a century after armed conflict has cease. The platform of the National Democratic Convention demands the reform of this system and the adoption in its place of one which will insure equality to all our people. I am in full and hearty accord

with these purposes.

The convention also declared its position on the currency question in no un-meaning words, when it said in the plat-form: "We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold silver, without discriminating insteller metal or charge for mintand: ago, but the dollar unit of both metals must be of equal intrinsic and exchange-note value, or be adjusted through international agreement, or by such safe-guards of legislation as shall insure the arity of the two metals and the equal ower of every dollar at all times in the narkete and in payment of debt, and we demand that all paper currency shall be kept at par with and redeemable in such

To this plain and unequivocal declara tion in favor of sound, honest money, subscribs without reservation or qualifi-cation. A safe circulating medium is a sountely essential to the protection of the business interests of our country, while to the wage earner or the farmer it is all important that every dollar, what-ever its form, that finds its way into his pocket should be of equal, unquestioned, and universal exchangeable value and of

equal purchasing power.

Another issue of great moment in the pending contest is the Force bill, the magnitude of which cannot be overstated. It may mean the control of the stated. It may mean the control of the selection of Representatives in Congress by the bayonet. The Republican party, by its acts in the Fifty-first Congress, and by its platform in its late national convention, stands piedized to the passage of this hill. That it will pass it when it has the power no same man can doubt. To all our rescale who distribute the power for same man can doubt. To all our people who desire the peace and prosperity of our common country

cincs my nomination I have been in eight of the Southern and Southwestern States of the Union, and have talked with men of all classes and conditions there. I found a general of growing apprehension of the evils, which, it is believed, would result from the Lodge bill or similar threatened legislation. I found the industries established by Northern capital during Mr. Cleveland's administration in a languishing condi-tion, and that the immigration of labor and the investment of capital invited to

stition had ceased. The enactment of a Force bill into law, while it would threaten the liberties of the entire people, would undonbtedly re-tard the material growth of the States at which it was specially simed, would inand invite retallatory legislation, which would discontinue and destroy the secur-ity of Northern investments.

lis reflex action upon the Northern States would result in a consequent loss of commercial and trade relations with the vast territory now becoming tribu-

the un-American and revolutionary spirit involved in the Lodge hill, which was pronounced by a Republican Senator "the most infamous that ever crossed the threshold of the Senate."

I appeal to the instinct of self interest and common justice in the American people. The arm of good feeling and remewed commercial relations, commencing with the election of Mr. Cleveland in 1854, about done to interrupted by the inauguration of a policy which tends to desirely popular representation and the purity of local set government, which furnishes an instrument to discretized Federal power to perpendate itself, which retiral power to perpetuate itself, which seeks to keep alive sectional jeulousies and strife, which threatens important commercial interests, and which offers no excuse or pallistion for its existence, except the perpetuation in power of a political party which has lost public configures.

Lacoupt the nomination tendered me, and, should the action of the convention ment the approval of my countrymen, will, to the best of my ability, discharge with fidelity the duties of the important trust confided to me.

Very respectfully,

Addat E. Stevenson.

MILWAUKEUB DISASTER

Measures of Reiter for the bufferers By the treat Fire. MILWAUEEE, Oct. 31 .- The work of re-

Hef goes steering on and plans are still being devised to execut the unfortunit people who lost their homes by the great Churches and public buildings have been thrown open to accommodate them

temporarily, while every society and orgamination in the city is marriaring plans for immediate thuncial relief. The subscriptions, some of which were started while the fire was still raging, are

being rapidly swelled. At a meeting of the Chamber of Commerce a general committee of relief was organized to forward the work, and sub-scriptions began to pour in from the citi-zons who were in attendance before even

Several subscriptions of \$1,000 were made on the spot and within a few hours the subscriptions reached the sum of about \$60,000.

It is estimated that 600 families were burned out, and that at least 1,500 indi-viduals are homeless. As most of their buildings, tenements and dwellings were uninsured, these people have met with almost total loss and are destitute.

The business district devastated is an important one, embracing many heavy wholesale houses. The total loss by the fire is now estimated at about \$5,000,000 with insurance of about \$3,000,000.

The corrected list of dead are: Henry Peddenbroch, fireman; Charles Stahr, fireman, suffocated by smoke; Mrs. Callahan and Mrs. Mary O'Brien, both widows, died of fright and excitement after being removed from the burning dwellings. dwellings.

Frank Rogers, who has been partially paralyzed for some time, is still missing. and it is now quite certain that he per-iabed in the flames.

Of the injured it is now believed that all will recover.

THREE KILLED, SEVERAL HURT. The Chimney of a Peromoc River Steamboat Blown Off.

Washington, Oct. 81.—The steam chimney of the steamboat Wakefield, belonging to the Potomac River Steamboat company, blew off at 11 o'clock yesterday morning, and killed three men, probably four, and more or less seriously injured three others. The steamer was on the return trip to Washington, and when of Maryland Point, about 50 miles down the river, the accident occurred.

Alexander Tolman and James Johnson, colored firemen, were instantly killed by colored firemen, were instantly killed by flying fragments, and William Clark, a colored bootblack, was blown off the boat by the shock and drowned. Another col-ored man is missing, and it is believed he met the fate of the bootblack. If. L. Gerdon, a white assistant en-gineer, was hadly bruised about the head and arms. He was brought to his home in Abracachia. William Notices.

The Demo-erats are especially delighted to find the Maryland Senator in such close communton with his old friend Mr. Whitney and Mr. Croker and the leaders of the State machine. This fact more than any other has contributed to the confidence of the betting men that Mr. Cleveland is to carry New York State.

The gentlemen in charge of the camthe gentlement is charge of the com-paign said that they were confident of Mr. Clarchard's election, but, for all that, they would not relax their efforts, and that they proposed during the week at band to put in their best licks. The Bepublican fighters, National and State, had all sorts of delegations visiting

them in the afternoon and evening. Most of the committeemen are in town, and most of them will remain on the scene until after election. The National Com-mitteemen were the most confident lot of citizens you ever met in a national fight. As has airwell loon said, if they are bluffing, they are nandres at the busi-

WONDERFUL STRIKE OF GOLD. A New First of the Meral in the Eclipse

Wine Causes a Sensation DESVER, Col., Oct. 31.—The past week

us been a surprising one in the Cripple reck gold camp, and at least one big liscovery has been made. The camp is all excitement over the wonderful strike made in the Eclipse mine yesterday.

The Eclipse is located in Requa Gulch. and has been a regular shipper for the post two months, averaging about a car-ical a week. The returns from these shipments have averaged over \$100 a ton, but there was nothing in the char-acter of the ore to prepare the men who were taking it out for the wonder/ul stuff that was uncovered yesterday.

As a depth of 95 feet a vein of white

tale and crystalized quartz was encoun-tered, the vein apparently being about four feet in width. The ore is full or russy gold, some of it being in large cubes, which even old miners pronounce the most wonderful display of free gold There is much to indicate that this

will be what expert mining men have been claiming all along—the greatest gold camp in the world. There are now over 30 shipping mines, and the advent of the railroad will double the number.
