WHETHER Mr. Patterson means it or not his candidacy is simply a Democratic side show.

A REPUBLICAN OPPORTUNITY. One of the most despicable traits in the human character is the trait of ingratitude, and the worst form of ingratitude is that which is shown by associations or organizations of men-The difference between individual ingratitude and the ungratefulness of an organization is that the former is a'ways deliberate, while the latter is turnally the result of thoughtlessness or inability to perceive the true situaation. While individuals are often ungrateful, organizations never are except by accident or miscirceted

There have been so many instances of political ingratitude in this county within the past ten or twelve years that we feel that we cannot impress this matter too firmly on the minds of the Republicans of this district. In an article published yesterday we showed that the Republicans of the Thirtieth Senatorial district were guilty of the basest ingratitude to John T. Shoener in 1886. After he had made a gallant and winning fight against the large Democratic majority in the district he was defeated by a few hundred Republicans who cast their votes for J. H. Kurtz, the Prohibition candidate.

The Republican candidate for the Legislature in this district this year is in a position exactly similar to that which Mr. Shoener occupied six years ago. In order to be elected he must first overcome the Democratic majority of the district and hold also the Republican vote. The first condition is accomplished now, and his election is certain if the Republicans stand faithfully by him and do not permit to be persuaded to throw away their votes on the Prohibition candidate.

Mr. Coyle's defeat now through lack of Republican support would be deeply angrateful. He has conducted a campaign that assures the election of a Republican member of the Legisla-

Evening Herald. ture from this district and if the party fails to show its appreciation of his efforts it will be notrue to itself and ungrateful to Mr. Coyle.

If Republicans will remember that a vote for Patterson is an indirect vote ALL THE NEWS FOR ONE CENT for the Democratic candidate, and that the polling of a few hundred such votes may result in Reilly's election. no considerable number of them will be persuaded to aid the Democracy in that way, and by their acts leave their . 1 50 own party open to the charge of ingratifude.

The opportunity which Mr. Coyle has created is one that should be appreciated by every Republican in the district, and the way to manifest a proper appreciation of it is by giving him every Republican vote in this district and thus insure his election.

Two of the new explosives that are being tested promise well. One is rosellite, a powder resembling in appearance moist brown sugar, and smelling like fresh concrete. It is made by mixing one part to seven of chlorate of potash and asphaltum oil. It is one of the safest known high explosives to handle, and can be exploded only by means of a detonating fuse. It ranks above dynamite, and ting fuse. It ranks above dynamite, and

Pirrangua, Nov. 3 .- The testimony of Dr. Ullum of Wavacsburg, Assistant Su geon of the Tenth Regiment, in the Jams' trial, created quits a sensution. Dr. Ullum said that the first he knew of the sed punishment of lams was when Dr. Neff ordered him to go along to assist in administering the punishment.

SMALL BETS SCARCE

A Strange Feature of the Present Campuign.

NEW YORK, Nov. 3 .- The most remarkable feature of the present campaign is the almost total lack of small bets among the masses of the people. What are called friendly bets are scarce. This is accounted for by the circumstance that there is less enthusiasm over the election in a spectacular way than has been the

Parades, and especially demonstrative torohlight parades, are, as a rule, pro-lific of bets, according to old campaigners, and there have been none to speak of

It has usually been the case that the pool sellers, small bookmakers, and others have placed considerable money. This election they have not done so They are not even taking coin at the rooms in Twenty-eighth and Twentyinth streets and other places where they often were willing to make commission in placing cash on elections or any other

The exchanges and poolmen without offices are sticking to horse race betting exclusively, for they have noticed no oppertunities to make money in placing election bets.

THE EARTHQUAKE CELEBRATION 10.5.2W Rombardment of Fort Sumter To-night -No Flags to be Horne,

CHARLESTON, S. C., Nov. 3 .- The earthquake festival is growing to enormous proportions. Last night the city was practically turned over to the wheelmen of the South Atlantic States. Nearly 500 wheels with lanterns were in the procession. Charleston was specially illuminated for the occasion and more than 40,-

000 people witnessed the parade.

The hombardment of Fort Sumter tonight will be the crowning event of the week. In order to avoid any misunderstanding, orders have been issued to the participants in the pyrotechnic display that no flags of any kind are to be born either in the procession of monitors or in the pyrotechnical floats which will be engaged in the display.
