# HIS LAST CARD IN A DEEP GAME.

A Bold Move to Capture the United States Senatorship.

Pattison Used as a Figurehead to Carry Close Legislative Districts.

A WILY BOSS SCHEMES FOR HIMSELF

The Democratic National Chairman Will Not Carry Off the Scuatorship, as Republicans Are Alive to the Situation and Propose to Vote for the Regular Republican Candidates for the Legislature.

PHILADELPHIA, Nov. 2. What has been suspected for some time has become a confirmed fact-William F Barrity is a candidate for United States enator. The extraordinary tactics resorted to by the Democratic machine to enry close legislative districts are but part of a deeply planned scheme to capture the legislature and satisfy the latest ambition of this aspiring and enifty Democratic

Harrity has been playing a clever game. His friends have given it out that the Democrats, conceding the state to the Republicans in presidential year, do not propose to make any effort to win anything in Pennsylvania this fall. They have her remay reams this fail. They have ner-alded their intention to devote all their energies to raising money to send over to New York to be used there and in other doubtful states. Harrity has had himself interviewed so as to amounce that Penn-sylvania Democrats have contributed many thousands of dellars more to the national committee's campaign fund this year than

in any previous presidential campaign. Harrity at the Wire. Meanwhile, the willy national chairman has been in communication by private wire with Chairman Wright, of the Democratic state committee, and his licutenants in every county in the state. Desperate Chances Taken. Desperate Chances Taken.

Desperate chances have been taken in maing the machinery of the state department and the ballot commission, in which Harrity and his chief fleutenant, Hensel, constitute a majority, to prevent Republican counties from getting their official ballots printed in time for election day. There has been a most outrageons exhibition in the decisions of this commission, which have been made and reversed as which have been made and reversed a though the sole purpose was to embarras the county commissioners in the printing of the tickets. After the state department had certified nominations, and the printer West Centre street, roundly abused them when they took her seven-year-old son home between the hours of one and two o'clock Wednesday marning. The boy was found made, or that some names must be added the printers had started in to print the ickets and in some cases they had fin

Harrity's Last Card.

Harrity's Last Card,
Harrity reserved a "last card," which he
played this week. He is banking on it as
a big trump. Some weeks ago he had
stories printed in friendly newspapers, intimating that in the event of the Democrats carrying the legislature Governor
Pattison would be elected to the United
States senate. No boastful claim was then
made that the Democracy had any show
of electing a majority of the legislature.
Harrity's idea was to create an impression
in certain quarters that the governor
would be seriously considered for the
senatorship. The scheme was to use his
name in a few districts to inspire and
hoister up independent legislative nominess, where an intimation of Harrity for ness, where an intimation of Harrity for United States sensior would only draw he party lines closer.

the party lines closer.

Harrity's last card is in the form of a circular letter bringing out Governor Pattison as a full fledged candidate for senator. It is being sent as a "personal" communication through the mail. Through his close relations with certain gentlemen active in the Pattison gubernatorial campaign, Harrity secured a list of Republicans in every county who sated for Party. icans in every county who voted for Parti-

A Bogos Appeal.

The appeal is now being mailed to them as though coming from a Republican source, orging them to vote for the Democratic candidate for senator or representative, as the case may be, and thus insure the election of Governor Pattison to the United States senate. Harrity calculates that in a number of close districts he will be successful in influencing enough Republicans to desert their party candidates.

be successful in inflaencing enough Republicans to desert their party candidates so as to cleet Democrats to the legislature. Should this scheme succeed, the Pattison mask would be torn off after elsetion day and the Harrity senatorial boom would be launched in full public view. The Harrity limitenants would then point out that if would be wild politics to send Pattison to the senate and hand the governorship over to a Republican, Licatenant Governor Watzes. Once in the governor's chair, they would argue, Watter could turn the whole executive branch of the state government over to the Republican party. He could oust both Schrebary of State Harrity and Attorney General Hensel, and appoint Republicans in their stead, as he could with all other appointees of the governor.

with all other appointees of the governor.

No, it would never do to sand Pattison to the senate! Harrity conceived the scheme to capture the legislature, his heachmen would say, and to him the senatorship should rightfully belong.

To Gerrymander and "Michiganize."

To Gerrymander and "Michiganize." t Democratic legislature would need the

continuance of a Democratic governor in power to carry out the full purpose of the conspiracy upon which Harrity and his machine politicians are at work. Pattisen would have to be kept in the governor's office to sign the congressional and legisla-tive appointment gerrymander bills that would be passed to increase the Democratic,

would be passed to increase the Democratic, representation in congress, to make the state senate Democratic probably for years to come, and to wipe out many reliable Republican representative districts. Of course the first thing Harrity would do, with the entire state government in his control, would be to follow the factics of his friend, Dan Dickluson, chairman of the campaign committee of the Democratic united at committee, and Michigan in Pennsylvania.

pr Pennsylvania.
When theklason captured the Michigan legislature, through Republican disaffer tion, he passed the new ramous full elect ing presidential electors by congressional districts instead of in the state at long-With a Democratic governor and a Demo-cratic legislature. Harrity could make from ten to lifteen electors from Pennsyl-vania safe for the Democratic presidential candidate four years bettee by "Michigan-ising" the state

Republicans Will Block the Scheme Republicans, realizing the calamity that would be all the state should the Demo-rate get control of the legislature, as well as the executive branch of the govern-ment, have awakened to the danger of fritting away their votes on independent candidates for state senator or repre-sentative. There has been a marked closing up of the party lines during the last ten days. Republicans have resolved to stand

by the regular nominees.
General Carkson's warning about the close fight for control of the United States scenate appears to have been heeded. A Democratic senator from Pennsylvania might have the deciding vote by which the senate would be made Democratic, with the consequent repeal of the McKiniey tariff, should Cleveland happen to be elected. Pennsylvania Republicans have awakened to the importance of the situa-
