AFTER LIEUT. CASSIDY

His Arrest Will Probably be Effected To-day.

INDICTMENTS IN BRODERICK CASE.

The New York Officer is Charged With Murder in the Second Degree—Another Indictment for an Unknown—Indignation in the Twenty-second.

BUFFALO, N. Y., Nov. 5.—The grand jury has indicted in the Broderick case and has found true bills for murder in the second degree against Lieut. Cassidy of the Twenty-second Regiment, New York City, and "Richard Roe," a member of the detail which pursued Broderick and whose name is unknown.

The report which the grand jury made to Judge Lambert recites the facts in connection with the shooting of Broderick and says the jury has learned that an officer reached over the fence and shot Broderick while he lay on the ground on the other side.

The grand jury disposes of the claim that the civil authorities have no jurisdiction by advising that the case be sent to the highest court and the question determined.

In closing the report says: "We have identified one of the parties who did the shooting and have indicted him; as to the other we are unable to procure evidence as to his identity."

An officer has started for New York to arrest Cassidy and if possible to get the true name of "Richard Roe" and arrest him. A most interesting trial will follow these indictments unless the courts decide that the grand jury has no authority to act in the case.

New York, Nov. 5.—First Lieutenant C. O. Cassidy, of Company H, has served in the Twenty-second regiment a dozen years or more, and when it was learned at the armory that he had been indicted there were men in his company who said hard things about Buffalo.

"Why, Lieut. Cassidy had nothing more to do with the shooting of Broderick," said a Company H man, "than the man in the moon. He simply happened to be the officer of the guard. The shooting was unfortunate, but justifiable."

Major Franklin Bartlett, who was in command of the First Battalion of the Twenty-second Regiment at Buffalo, in his report of the shooting said that stones had been thrown at the workmen on the train and at the Seventy-first Regiment men who were guarding an incoming train. A captain of the Seventy-first Regiment pointed out Broderick as one of the stone throwers. A detail of the guard pursued Broderick, and when he refused to halt, after he had several times been ordered to halt, he was shot by one of the detail, whose name is unknown.

"No order to load or fire was given by the officer of the guard," said Major Bartlett.

STAMPEDE REPORTED PROBABLE.

Homestead Strikers Greatly Disaffected—Several Apply for Old Positions.

HOMESTEAD, Pa., Nov. 5.—The matters of a break in the ranks of the strikers is becoming more ominous and there is a strong prospect of a stampede occurring among the locked-out men of the mechanical department before long.

Every effort is being exerted to keep the ranks unbroken. These men are not members of the Amalgamated Association, but as is well known, came out in sympathy.

It is learned that three of the most responsible employees of this department have applied for their old positions and it is said will return to work by Monday.

A good deal of the dissatisfaction seems to rest in the fact that the large fund promised from Chicago failed to materialize.

Duty on Wilson Barrett's Secretary.

PHILADELPHIA, Nov. 5.—Seven thousand dollars have been deposited with the collector of customs here for Actor Wilson Barrett as duty on \$20,000 worth of scenery which came over on the steamer British Princess, and which was held for customs duty. The duty may amount to \$12,000 after an appraisement has been made, but it is estimated now at 35 per cent of the value of the effects. Mr. Barrett's friends are confident that the tax will be refunded, as a similar case, in which Irving Irving is the principal, is now pending in court, and a decision favorable to the actor is hoped for.

Valuable Steamship Concession.

NEW YORK, Nov. 5.—The Hamburg-American Packet Company has just obtained a most important concession from the German Government, having been granted the use of the Harbor of Wilhelmshaven, the Chief Imperial Naval Station on the North Sea, which has heretofore been used exclusively for naval vessels. This concession is a most valuable one, as in the event of a recurrence of cholera, or of influenza on the Elbe, the harbor, which is in all respects a most desirable one, would be always accessible.

Mountain Fire Extinguished by Rain.

FORT CLINTON, Pa., Nov. 5.—The fire on the Blue Mountain has been extinguished by the rain, after doing immense damage. Thousands of acres of timber were devastated. The flames reached the upper part of this place, and thousands of men fought them to save buildings from destruction. The fire started in Drebersville, where much damage was done, and extended to Hamburg, a distance of 10 miles.

Grip's Reappearance in New York.

NEW YORK, Nov. 5.—The "grip" has made its first public appearance in this city since last fall. On the Health Board's bulletin yesterday were chronicled two deaths as follows: Female, aged 74, November 1, to grippe. Male, aged 24, October 29, tuberculosis and grippe. The Health Department would give out no information as to the names or residences of the deceased.

Nearly Lynched in Greene County, N. Y.

ROSDOUT, N. Y., Nov. 5.—Enoch Simpson was arrested in New York City a few days ago. He was wanted at Prattsville, Greene county, for robbing a farmer's wife at the point of a pistol. He was taken to Prattsville and a large crowd met the stage as it entered the village. A rope was procured and but for the firm interference of the officers the man would have been lynched.

MERCIER ACQUITTED.

Denial's ex-Premier Exonerated of the Charge of Hoodlum.

QUEBEC, Nov. 5.—After Mr. Belleau had finished addressing the jurors in the Mercier-Pacand trial, Judge Wartelle made his charge to the jury, which was very favorable to both Mercier and Pacand. He advised them not to take any cognizance of the first count in the indictment, viz., for having conspired to defraud Her Majesty, as it was clearly proven that the so-called Langlais contract was in reality no contract at all, as it was not signed by the Lieutenant-Governor. Consequently, the government, not being bound by that contract, could not lose anything, and, therefore, the defendants could not have conspired to defraud Her Majesty.

The second count, for conspiracy to defraud Launisse d'Economie, was the only one upon which the jury could deliberate. The honor repeated the charge in French and asked the jurors what time they would require to bring in a verdict. "Ten minutes," replied the foreman, and the immense crowd present then knew that the jurors had decided upon their verdict. It was whispered around that a demonstration would be given to the defendants as soon as the verdict was rendered.

Therefore, while the jurors were deliberating, Judge Wartelle requested the spectators not to make any demonstration, as he would be obliged to punish somebody for contempt of court if such an attempt were made.

The jurors returned to the court at 6 o'clock, and, as was expected, rendered a verdict of "Not Guilty" against both defendants.

Messrs. Mercier and Pacand were immediately surrounded by their friends who were anxious to congratulate them. Several hundred spectators awaited them at the court house door, and on their exit they were cheered to the echo.

Mr. Mercier was then escorted through several streets, being carried on the shoulders of some of the sympathizers, and upon reaching the residence of Mr. Launisse, one of his counsel, the ex-Prime Minister addressed a large crowd, and was followed by several other well known orators.

A grand torchlight procession is being prepared for to-night in this city and Mr. Mercier will leave for Montreal to-morrow afternoon, where his friends are making preparations to receive him.

This ended the most important trial ever known in the Canadian Criminal Court.

ONLY SEES AND FEELS.

A Girl Deprived of Other Senses by a Bulb Wound.

PHILADELPHIA, Nov. 5.—A rare but unsuccessful operation has just been performed at the Medico-Chirurgical college on Miss Lizzie Albert, the beautiful victim of the jealous wrath of Daniel Love, son of a New York stock broker.

In August last Miss Albert, who is 22 years of age and lives at Cantonville, Pa., was employed as a waitress in a summer hotel at Delaware, N. J.

Young Love, a boarder at the hotel, admired her, but was refused, and then shot her in the forehead. For two weeks Lizzie remained unconscious, hovering between life and death, and when she returned to consciousness she was deprived of all her senses except those of sight and feeling.

From these symptoms it was supposed the ball had passed along under the brain and had become encysted at the back of the skull.

To find the bullet Dr. Ernest La Place trephined a hole nearly one and one-half inches across, and with an instrument devised by himself for this occasion explored between the brain and skull all around the opening for a distance of three inches, but failed to find any trace of the missile. At some future time the front of the skull will be opened and the ball again searched for.

A Mine Owner Disappears.

NEW YORK, Nov. 5.—It has been reported to the police that Charles Gill, a wealthy African mine owner, has mysteriously disappeared. When last seen two days ago he had in his possession, it is stated, nearly \$250,000. He was stopping at a small hotel on West street and had a fellow lodger named W. B. Beinton, who has reported the disappearance to the police. Gill is 35 years old and a cripple, having to use two crutches.

Shot by Steinitz's Secretary.

ORANGE, N. J., Nov. 5.—Ernest Triebel was shot by Nathaniel Williams, private secretary to Steinitz, the world's champion chess player, while the two were shooting in the woods back of Montclair. The shooting, it is said, was accidental. The injured man was taken to the Montclair hospital, where his arm was amputated. Williams was arrested.

No Decision in Dr. Newton's Case.

NEW YORK, Nov. 5.—Bishop Potter was seen this morning in regard to the report that Dr. Newton had been exonerated of a heretical character by the commission appointed to investigate. The Bishop said that no decision had been reached, despite reports to the contrary.

Denmark Pardons Ex-Consul Ryder.

WASHINGTON, Nov. 5.—Secretary of State Foster has received a cable message from the United States Minister to Denmark, saying that the Danish government has pardoned Henry D. Ryder, late U. S. Consul at Copenhagen, who was recently convicted of embezzlement and sentenced to imprisonment.

The Homestead Trials.

PITTSBURG, Nov. 5.—The trials of the Homestead rioters will begin next week. Elyvester Cretchenfeld, charged with the murder of T. J. O'Connor, will be tried first. The case will open on Wednesday. The trial of Jack Gifford, who is also charged with O'Connor's murder, will follow Critchfield.

Acting Register of the Treasury.

WASHINGTON, Nov. 5.—On the recommendation of Assistant Register of the Treasury Harry H. Smith the President has designated Mr. S. J. Kimball, the superintendent of the Life Saving Service, to act as Register during the temporary absence of Gen. Rosecrans and Mr. Smith.

Robbed of Diamonds Worth \$15,000.

OMAHA, Nov. 5.—W. G. Pollock, agent for a New York jewelry house, was attacked by a robber on a train en route from Omaha to Missouri Valley, shot twice, and robbed of \$15,000 worth of diamonds.

FROM THE OTHER SIDE

The Prohibition of Live Canadian Cattle Importation.

SURPRISE AT THE ANNOUNCEMENT.

Latest Sensation in the Deacon Case—Russia's Greatest Warship Launched—The Sultan's Favorite Physician Arrested—Cream Reapited-Tax Riots in Sicily—Other Cable News.

LONDON, Nov. 5.—The prohibition by the Board of Agriculture of the free importation of Canadian cattle has caused great surprise. Henceforth Canadian cattle must be slaughtered at the ports at which they are landed.

This order is the result of the discovery of pleuro-pneumonia among Canadian cattle landed at Dundee.

The cattle had become scattered in Scotland and Northern England, and by the orders of the Board of Agriculture 1,200 head of cattle with which they had mingled have been slaughtered.

The Canadian Government had used its best efforts to avert this action and it was supposed that the reports from Canada as to the non-existence of pleuro-pneumonia, backed by the representations of Sir Charles Tupper, High Commissioner to England, and the two members of the Canadian Ministry now in London, Premier Abbott and Finance Minister Foster, had reassured the authorities.

EDINBURGH, Nov. 5.—The slaughter of one thousand two hundred head of cattle, brought from Canada to Scotland on the steamship Huron and Monksiegan and supposed to be infected with pleuro-pneumonia, has caused many protests from the farmers of Fife-shire, Forth-shire and Forfarshire.

The Board of Agriculture proceeded undoubtedly without sufficient investigation, and thereby has caused severe losses among the men who accepted deliveries of the suspected cattle.

The board was confident that the cattle which had died had pleuro-pneumonia, but the examination of the lungs of two by eminent veterinary surgeons show that the disease was broncho-pneumonia. The farmers of the three counties in question will make a formal protest against the board's summary action.

FLED WITH THE CHILD.

Mrs. Deacon's Action After Her Defeat at Paris.

PARIS, Nov. 5.—Another great sensation has developed in the Deacon case. As soon as the Tribunal of the Seine delivered its decision dismissing Mrs. Deacon's suit for divorce and ordering that the eldest child, then in a convent, be delivered up to Mr. Deacon, Mrs. Deacon hastened secretly to the convent of Our Lady of the Assumption in the department of the Marne, bent upon carrying off the child, and thus defying the authority of the French Court and baffling Mr. Deacon.

The sympathies of the nuns of the convent and of the people of the neighborhood have been with Mrs. Deacon, who was known to the latter as "La Princesse Americaine," and was much beloved for her goodness and kindness to the poor and suffering.

When Mrs. Deacon arrived, the news of the court's decision was unknown at the convent, and Mrs. Deacon was admitted as usual.

But little is known of what occurred within the walls.

Mrs. Deacon had a carriage at the gate, and she seemed calm and serene as usual, evidently suppressing her emotions in order not to excite suspicion.

She asked and received leave to take the older of the children to ride, and after kissing the younger tenderly, she walked with the former to the carriage. At first she drove slowly, but increased her speed as the convent and the adjoining group of houses disappeared from view.

Mr. Deacon drove up to the convent shortly after his wife had gone. He was amazed and maddened when he learned the situation, but no more amazed than the Lady Superior when she learned the strategy of the good Mrs. Deacon.

Mr. Deacon at once appealed to the police who readily joined him in attempting to overtake his wife.

It seems impossible that she could escape from France, as the police everywhere have been warned to be on the look-out, and to arrest her and the child wherever found.

Deacon is determined to get possession of the child.

POISONER NEILL RESPITED.

The London Murderer Gets a Stay of Seven Days.

LONDON, Nov. 5.—Thomas Cream Neill, the woman poisoner, convicted of murder and under the sentence of death, who was to be hanged on Tuesday next, has been respited for one week.

Home Secretary Asquith intimates that the respite is granted solely to give time for the receipt of certain documents from America supposed to have a material bearing on the case. Should, however, the result of the inquiry be adverse to the prisoner the law must take its course.

The news of the respite has imparted to Neill renewed confidence.

RUSSIA'S GREAT WAR-SHIP.

The Cruiser Rurik Launched in the Presence of the Czar and Czarina.

LONDON, Nov. 5.—The St. Petersburg correspondent of the "Times" says that the Russian ironclad cruiser Rurik, the largest vessel of the kind ever built in Russia, was launched yesterday in the presence of the Czar and Czarina.

She is 435 feet long, 67 feet beam, 10,933 tons burden, and her engines are 15,250 indicated horse power.

It is believed that she will be able to cover the voyage from Cronstadt to Vladivostok, a distance of 19,000 miles, without coaling on the way.

Tax Riots in Sicily.

ROME, Nov. 5.—Tax riots are reported from Barcelona, Sicily. An additional levy was resisted by the people; the collectors were stoned, and the windows of the Municipal buildings were smashed by a mob. The gendarmes were unable to restore order, and several were injured in an attempt to disperse the rioters. Eventually the military broke through the mob. Ten rioters were wounded in the charge.

PROBABLY TEN LIVES LOST.

The Oil Laden Bark Norcross Burned in the Seine.

PARIS, Nov. 5.—The British bark Norcross, which left Philadelphia on October 2d for Rouen, France, with a load of petroleum, has been burned in the Seine, with a loss of certainly three and probably ten lives.

Captain Hoop, who was in command of the Norcross, had his wife on board with him, and both were saved.

How the fire originated is not known. When it was discovered it had gained considerable headway and every effort to prevent it from spreading to the petroleum was in vain.

As soon as the petroleum caught fire a series of explosions followed, and a bright flame shot up in the air, while dense smoke almost hid the bark from those on shore.

The crew who escaped the flames rushed to the side and leaped into the river. The Captain's wife was saved chiefly by her husband's exertions. Five others were also saved.

The remains of three, horribly burned, were found in the river, and seven others are missing and it is thought they have gone to the bottom. Several of the survivors were injured by the burning petroleum, which floated on the water in a fiery state some distance about the vessel, making approach to the scene of the wreck dangerous.

DIARY OF THE SULTAN'S MIND.

Abdul Hamid's Lifelong Friend and Favorite Physician Arrested.

CONSTANTINOPLE, Nov. 5.—Mavroyesh Pasha, the Sultan's favorite physician, has been arrested in consequence of his revealed wife sending to the Sultan her husband's diary, in which daily notes were made of the variable conditions of the Sultan's mind.

Mavroyesh Pasha had been a trusted friend and confidant of the Sultan since the latter's childhood.

He married a French woman, whose scandalous life has twice involved him in disgrace and finally compelled him to apply for a divorce.

DIDN'T FULFILL HIS CONTRACT.

Thompson to Receive No More Money for the New York Columbian Pageant.

NEW YORK, Nov. 5.—The Auditing Committee of the Columbian Celebration Committee, after much deliberation, has decided not to make any more payments to Captain Thompson for the night pageant.

The chairman of the night parade committee reported that Captain Thompson did not live up to his contract. The committee say that Captain Thompson failed in this in more than one respect, and specify that he failed to furnish costumes to the paraders as had been stipulated in the contract, and also that he failed to furnish illumination or pyrotechnic display.

SHORT SKIRTS AT ANN ARBOR.

College Girls Don the Jeanees-Miller "Rainy-Day Dress."

ANN ARBOR, Mich., Nov. 5.—During the prevalent rainy weather dozens of the college girls here have appeared on the streets in the Jeanees-Miller "rainy-day dress."

The skirt is plain and tight-fitting, but the striking feature is that it reaches only about half way from the knee to the ankle. To make up for this gap the college girls wear long gaiters, and can now splash through the mud as well as the boys.

They have been threatening to adopt this suit ever since Mrs. Jeanees-Miller lectured here last summer.

CLEVELAND'S WINTER HOME.

With His Wife and Baby Ruth He Will Sojourn at Lakewood.

LAKESIDE, N. J., Nov. 5.—Mrs. Grover Cleveland, wife of ex-President Cleveland, is again to become a resident of this place. The Cleveland cottage is to be put in condition for early occupancy and Mrs. Cleveland, accompanied by Baby Ruth, will take possession, it is said, early next week.

The ex-President will remain in New York until after the election, when he will join the family here. It is expected that they will winter here.

Saved From Fire by a Student.

ROSTON, Nov. 5.—About 1 a. m. J. D. Hubbell, a Harvard student of the class of '94, while returning from Thursday night's Republican torchlight parade, in which he participated, saw fire burst from the upper windows of the four-story brick building 24 and 25 Dover street. He ran in an alarm and then forced his way into the house and aroused the sleeping inmates, who escaped in their night clothes. Hubbell was nearly overcome by smoke, but managed to get out of a second-story window and clinging to a sign until rescued by firemen.

Brutal Outrage on a Student.

SENNOPHIELD, O., Nov. 5.—A gang of masked students of Wittenberg College perpetrated a brutal outrage Wednesday evening upon William C. Frisby, a student from South Charleston. He was thrown under a hydrant and held for five minutes until thoroughly soaked. The gang then tied him fast to a rail, and, hearing him in the face enroute, dragged him to a creek and, after shaving part of his head, threw him, still tied to the rail, into the water, where his cries finally brought help. The faculty will investigate.

Her Death Suspected.

KEYPORT, N. J., Nov. 5.—The county prosecutor will be called upon to investigate the death of Maggie Boyce, aged 23, of this place. The girl died at the house of Herman Potter under circumstances which indicate that she is the victim of malpractice. She was recently driven from home by her father. Potter gave her shelter. She became sick and a child was prematurely born. No doctor was present. An examination after death showed evidence of malpractice.

Held for Her Husband's Death.

PHILADELPHIA, Nov. 5.—Mrs. Mary Shields has been held by the coroner's jury to answer for the death of her husband, Peter Shields. The latter was found dead on Wednesday morning at Schwesinger's dye works where he was employed as a watchman, and his death is alleged to have been caused by injuries received from vitriol burns, a pitcher of which his wife threw at him.

HEART DISEASE!

STATISTICS show that one in four has a weak or diseased heart. The first symptoms are short breath, oppression, fluttering, faint, and irregular pulse, pain in side, sleeplessness, swollen ankles, dropsical swellings, etc. For relief, see **DR. WILEY'S NEW HEART CURE** in a marvelous remedy. "I have been troubled with heart disease for years, but my pulse was very weak, could not sleep, and my feet were so swollen that I could not walk. I bought your medicine and after taking it for a few days, my pulse was normal, my sleep was better, and my feet were no longer swollen. I feel like a new man."—J. W. Miller, Philadelphia, Pa.

DR. WILEY'S NEW HEART CURE is a marvelous remedy for all heart diseases, such as Dropsy, Heart Failure, etc. It is sold by all druggists. Price 50 cents. Full particulars in booklet. Write for it. Address: **DR. WILEY'S MEDICAL CO., ELIZHETH, IND.**
