

PUBLISHED DAILY, SUNDAY EXCEPTED. H. C. ROYER, Editor and Publisher. W. J. WATKINS, Local Editor.

ALL THE NEWS FOR ONE CENT

The EVENING HERALD has a larger circulation in Shenandoah than any other paper published. Books open to all.

SUBSCRIPTION RATES: DAILY, PER YEAR, \$10.00. WEEKLY, PER YEAR, \$3.00.

Entered at the Postoffice at Shenandoah, Pa. as Second Class Matter, October 10, 1878.

Will, Pennsylvania rule Cleveland?

It is said that the new Governor of Illinois is old gold (Altgeld).

The next Legislature will be Republican by over a two-third majority.

We will be permitted to eat our Thanksgiving turkey under President Harrison.

"Dick" Crocker of New York, is spoken of for Secretary of War, under Cleveland.

There was a landslide in New York, but it was not the kind we were looking for. Ugh!

It should have snowed before; perhaps, then, we might have had a different result to announce. Who knows?

Much is expected from Representative-elect Coyle and we can assure his constituents that they will not be disappointed.

GENERAL SLOCUM would not eat crow. Will he be disciplined? General Slocum swallowed the unsavory morsel and was elected to Congress.

THE Republicans will lose a United States Senator in New York and gain one in Delaware. It is a game of six of one and half a dozen of the other.

WHAT HE THINKS.

"S. M'S." of the Philadelphia Star, has this to say on the recent Republican rout on Tuesday:

"What is the explanation? Without going into details the answer is that the people wish to have the McKinley tariff bill repealed. What they desire in its stead is a matter of conjecture. The solid South wants free trade. It holds a big hand in the Cleveland deal, and it generally rakes in what it reaches for.

"At any rate the result, if it means anything, means that the McKinley bill has to go. It is evident that the workingmen do not want it. What they wish to have in its stead does not concern Republicans.

"Cleveland is a free trader. I would not be putting it too strong by saying that he is a rank free trader. The people who elected him are overwhelmingly in favor of free silver. Cleveland is dead against it. The dickering will come in when he asks Congress for free trade and they ask him for free silver.

"What will Cleveland do about pensions? Hit one whenever the opportunity offers. The great bulk of the voters who supported him hate the beneficiary of a pension, and their representatives in Congress would never vote a dollar for the cause if it were not for the fact that political considerations in certain sections demand it. But as things go, the pension business is a small matter. The old soldier is not in it. Harrison was a soldier and Cleveland sent a substitute to the war. Stevenson was a copperhead.

"The ex-confederates are on top again. They are a clever people, however. They will cheat at elections, but that doesn't make any difference when you are a Democrat.

"Harrison has given the country a splendid administration. He ought not to have accepted a re-nomination. Mr. Blaine could have beaten Cleveland. Blaine predicted when the McKinley bill was sprung in Congress that it would wreck the Republican party.

"Even if the Senate should be Democratic by a clear majority, there will be enough Republicans in the body to vote with the Democrats to make a revision of the tariff an absolute fact.

"What a lucky man Cleveland is. He has a right to have the big head.

"Prepare yourselves for four years of the Baby Ruth twaddle in the newspapers."

A Straw

Shows which way the wind blows and so does the amount of travel on the Nickel Plate show that the new train service has made that line more popular than ever. Rates, however, still remain as low as via any other line.

CANADIAN COMMENTS.

How the Dominion Papers Regard Cleveland's Election.

Toronto, Nov. 10.—The "Mail" commenting on the result of the Presidential election, says it looks as if the vast majority of Americans regard the policy of protection as legislative robbery.

The "Globe" says it is a positive proof that in spite of the tremendous influence of a privileged class, which is making millions annually out of the existing protective policy, the principle of free trade commerce from its withering shackles has at length commended itself to the intelligence of the people.

The "Empire" says the result matters very little to Canada and that there is nothing to show that so far as fiscal changes affecting Canada are concerned, any radical departure from the present condition of affairs is in serious contemplation.

The "World" says Cleveland's administration in its foreign relations will certainly not be so hostile to Great Britain as Mr. Harrison's was, under the auspices of Mr. Blaine, and that it is possible it may be disposed to establish reciprocal trade relations with Canada beneficial to both countries.

Ottawa, Nov. 10.—The "Citizen" government, says of the result of the Presidential election: "We may be grateful at the prospect of a diminution of the tariff now levied on Canadian goods. Apart from the commercial aspect of the situation, the Dominion cannot be more friendly to Canada than the government of Mr. Harrison, and we may hope for an improvement in this respect."

AS GERMANS VIEW IT.

Berlin Press Comments—Regret That Phelps Must Retire.

Berlin, Nov. 10.—Most of the newspapers comment upon the American Presidential election, which has been observed in this city with exceptional interest.

The "Tagblatt" says that the election was the most important election ever held in the United States, and that its results should cause general satisfaction both in Europe and America.

The "Boersen Courier" thinks that the election of Cleveland is a guarantee that the system of extreme protection will not be carried to further lengths.

Regret is expressed that the apparent approach of a change in the American tariff could not have been anticipated by the countries invited to exhibit at Chicago next year, as the fear of still further increase in the tariff has kept the manufacturers of most countries from preparing to send their wares to the World's Fair.

The necessity of the retirement of William Walter Phelps as the only source of regret connected with the defeat of Mr. Harrison.

Mr. Phelps has been the most popular Minister from the United States that Berlin has received in many years, and he has been distinguished by numerous exceptional courtesies from the Emperor.

VOTE BY STATES.

Table with columns for STATES, Majorities, Electors, and Electors. Lists states from Alabama to Wyoming with their respective electoral college votes.

WHAT HE THINKS.

ON TRIAL FOR HERESY

Dr. Briggs Before the New York Presbytery.

HE MAKES SEVERAL OBJECTIONS.

Contends That the Presenting Committee Has No Power to Bring New Charges After Action Had Been Taken on Old Ones.—The New Allegations.

New York, Nov. 10.—What is hoped will be the final trial and settlement of the charges of heresy brought by the Presbyterian Church in the United States against Prof. Charles A. Briggs, of Union Theological Seminary, is now being conducted before the Presbytery of New York in the old Scotch Presbyterian Church in West Fourth street.

After the prayer opening the trial, the Moderator asked for the charges, but was interrupted by Dr. Briggs, who asked leave to interpose several objections.

In a short address he outlined the line the prosecution had taken in regard to the old charges and contended that the presenting committee had no power to now bring these new ones.

Col. J. J. McCook, counsel for the presenting committee, answered the objections very technically, but deplored the fact that he was compelled to argue with the defendant.

Dr. Briggs, when Col. McCook had finished, arose to reply, but was checked by Rev. Thomas Booth, who made the point of order that the discussion was irregular.

Dr. Briggs claimed that he had only been able to state his objections, while the prosecuting committee had been allowed to answer them and say several other things which he could controvert by quotations from theological law.

The request to allow him to answer the presentation was denied by the Moderator, and, on Dr. Briggs' appeal from this decision, the Moderator was sustained—73 to 58.

The amended charges and specifications against Dr. Briggs were then read. As revised, and a little more explicit and with more attention to detail than the old charges, they occupy 35 pages of a good sized book, but cover the same ground as the old charges. They were compiled by and signed by the full presenting committee, consisting of Dr. Birch, chairman; J. A. Lampe, D. D., R. J. Sample, D. D., John S. Stevenson and J. J. McCook.

The reading occupied the remainder of the day's session.

After the charges were read Dr. Briggs said: "These are new issues and charges very different from the former charges. The order of General Assembly gives the power to amend the charges without changing their nature. I had my answer to the first charges ready, but these are so different that I will have to revise my answer. I may also demand to the amended charges. I reserve that right and shall decide upon my course during the ten days allowed me to prepare my answer."

DEATH OF MARLBOROUGH.

Found Lifeless in His Bed at Blenheim Palace.

LONDON, Nov. 9.—George Charles Spencer Churchill, Duke of Marlborough, was this morning found dead in his bed in Blenheim Palace, Woodstock. He was 48 years of age.

The news caused great excitement in club and society circles.

Although the Duke had not been in good health for a long time, his sudden death caused great surprise, and shared public interest almost equally with the American election.

The Duke retired Tuesday evening, as usual, and when a servant went to his apartment, in the morning, to assist in his toilet, he found his master dead.

The cause of death has not yet been ascertained.

George Charles Spencer Churchill, Duke of Marlborough, Marquis of Blandford, Earl of Sunderland, Earl of Marlborough and Baron Churchill, of Sandridge, all in England, Prince of the Holy Roman Empire, and Prince of Mindelheim, in Suabia, was born May 13, 1844, and in 1869 was married to Lady Albertina Frances Anne Hamilton, sixth daughter of James, the first Duke of Abercorn, and they have a son, Charles Richard John, born November 13, 1871. This son now becomes Duke of Marlborough. They also have three daughters.

Lady Albertina secured a divorce from the Duke in 1873 on account of her husband's infidelity.

The Duke remained unmarried until June 29, 1888, when he was married by Mayor Hewitt at the City Hall, New York, to Lily Warren Hamersley, the wealthy widow of Louis Hamersley, and daughter of Cicero Prior, a commander in the United States Navy.

Would you rather buy lamp-chimneys, one a week the year round, or one that lasts till some accident breaks it?

Common glass may break or not the minute you light your lamp; if not, the first draft may break it; if not, it may break from a mere whim.

Tough glass chimneys, Macbeth's "Pearl-top" or "Pearl-glass," almost never break from heat, not one in a hundred.

Where can you get it? and what does it cost?

Your dealer knows where and how much. It costs more than common glass; and may be, he thinks tough glass isn't good for his business.
