### BATTLE TO GO ON.

The New York Press has buckled on Its armor and enters into a new fight in the following vigorous manner:

The Republican party has met with a reverse that may be compared with the first battle of Buil Run. The exultant free traders will do well to remember that four years after Bull Run came Appomattox. The contest with Republicanism has waged in the past campaign has been one of the most important struggles in the history of the Republic. It has been a struggle for the nearest and dearest interests of the people; for the home, for the factory, for the farm and the school. It has been a strugg'e for the digulty, the self respect and indepen dence of the American workingman, standard of living and wages which accident—tough against heat.
Call for "Pearl-top" a protective tariff has made possible, and which free trade would destroy. It has been a struggle for honest money, and for the maintenance of national credit unimpaired. In this struggle the Republican party has had arrayed against it all the resources that free traders and foreign industries could bring to bear to break down American protection and place the American worklogman at the mercy of pauper competition abroad.

The Republican party has had to contend against a vast corruption fund, levied by Tammany Hall in the city of New York, with the addition of contributions from wealthy friends of the free trade candidate, and their fellow free traders in other countries. It has had had to confeud against the solid South, made solid by the open, undenied and flagrant violation of the National Constitution, and Inheriting from slavery a traditional devotion to free trade. The Republican party has met these foes and, for the moment, has been driven back, though not in disorder.

breeze above the vanishing smoke of caped. the conflict, and it will yet float over victories as great and memorable as any of the triumphs which the Republican party has achieved in the past. The free trade, pro-slavery Demoeracythought they had crushed the Republicans in 1856, but the reverse of that date only stimulated Republican preparation for the great success of 1860 and the added triumph of 1864. The Democracy declared, when Cleveland was first elected, that the Republican party had been swept out of existence. But the Republican party showed in 1888 that the repulse had been only temporary, and that the courage and resolution, the vigorous and aggressive energy which had characterized the party in former struggles, were as vital as ever, and as capable as ever of achieving suc-

The Press renews the combat today. It proposes to continue its aggressive campaign against the combination of free trade, fraud and violence, which has had a passing advantage over the forces of protection, and which is already proclaiming that the barriers which guard American labor against pauper competition abroad will be torn down. The Cleveland Evening Post is already demanding the repeal of the McKinley tariff, and its London ally, the Pall Mall Gazette, declared, in its issue of yesterday, that "both the merchants and unemployed workingmen of England have reason to rejoice at the Democratic victory, as with the possibility of the reopening of the American markets to the goods of Birmingham, Bradford and Manchester, capitalists will get a chance to procure some return on their money invested and the workingmen will have an opportunity to get a decent price for

their labor." In face of such declarations as these

it is imperative that the friends and supporters of American Industry should be fearless, earnest and outspoken in asserting the rights of American labor and opposing and exposing the schemes of its enemies. ALL THE NEWS FOR ONE CENT | The Press will do that duty thoroughly, and, we hope, effectively. It will keep a search light turned on the schemes of those who are plotting in the interest of British free trade, and against the welfare of the American workingmen. The Press was never more firmly convinced of the wisdom and equity of the protective tariff than it is to day.

President of the Carmaux Company Will Not Return to His Office for Some Time-How Marthorough Died-Euro peans Executed in Dahomey.

London, Nov. 12,-The Anarchists of Germany. The best are Mac-London held a meeting in South Place Institute, Moorgate street, last night to honor the memory of the so-called "Chi cago martyrs,"

The hall was crowded with men of all the nationalities who make up the Anarchists and the extreme Social Demo cratic party in this city.

Red flags were hung up over the doors, and the pictures of Parsons and his com panions were draped in mourning.

Above the pictures and on the wall

behind the platform were Anarchist mottoes—"Workmen, Unite!" "Remem-ber Chicago," "Liberty, Equality and Fraternity," "Death to Tyrants!" "Retribution to Our Oppressors," and many others in English, German and French. Comrade Mowbray, the friend of the

Socialist poet, William Morris, was the first speaker. He said that the history of the Ararchist movement was the history of the martyrdom of hundreds of noble or the martyrdom of hundreds of noble men and women. Their blood had been shed ruthlessly by the classes in power, in order that the monopoly of the world's good things by these classes might not be imperited. The propertied classes had applauded all the crimes committed in the name of the present order of society against the American. against the Anarchists.

The blood of the Anarchist martyrs cried out for revenge. The American Government had shown itself bental and despotic, despite all its protensions, in its treatment of the Chicago Anarchists. Anarchists in Great Britain need not thick, however, that the British Government was any better. It had shown Itself in the last few months to be as beutal and tyrannical as any other in the

In closing, he hinted that the example set by the Chi-cago Anarchists should be followed speedliy by the Anarchists of London.

Louise Michel was greeted with cheer-ing when she came forward to speak. Her address was in French, and couse quently only the foreigners in the audience applauded her incendiary words. She talked disjointedly about the Chicago and Paris Anarchists, and exhorted her audience to imitate the example of their beroes, like Parsons and Ravachol. martyrs, she said, died for Hberty, as did Ravachol, and, if the Anarchists of London would be equally brave and unselfish, they, too, might hope for such glorious deaths as these 'great lights of humanity" had experienced,

MARLBOROUGH'S DEATH. The Doctors Say the Duke Was "Old for Lin Age."

LONDON, Nov. 12. - The "Morning" states that the Duke of Marlborough was summoned to his wife's bedroom at midnight on Tuesday to help the maid bathe his wife's face with hot water, as she was suffering from violent neuralgia, and that he retired to his own room about 2 o'clock in the morning after bidding his wife an affectionate good night.

The physicians gave the opinion that the Duke was seized with spasms of the heart about 4 o'clock, and that his suffer-ing was too vielent to permit his calling for assistance.
