THE CLOSING SESSION

Important Work Yet Remains for the 52d Congress.

WASHBURN ANTI-OPTION BILL

It is the First Special Order for the Senate-The Free Coinage Bill-Appropriacions for the Current Year Likely to

WASHINGTON, Nov. 14 .- On Monday Dec. 5, three weeks from to-day, the 52d Congress will meet in final session. Iz the interest which has centred around the probable make-up and action of the fild Congress, sight has been lost for the time of the important work yet remaining uncompleted on the calendar of the

One of the first matters to be brought before the Senate will be the Washburn Anti-Option bill, which has already passed the House, and which has shown that it has a clear majority in favor of its passage in the Senate.

The title of the bill is "H. H. 7845, an Act defining 'Options' and 'Futures,' imposing special taxes on dealers therein, and requiring such persons engaged in selling certain products to obtain license, and for other purposes."

Its provisions are so sweeping that they would practically, it is charged, shut up the Chicago wheat pit, the New Orleans Cotton exchange, and other institutions of like character. A strong opposition was developed to the bill in the Senate, but there was a still stronger movement in its favor. in its favor.

Washburn, of Minnesota, who had air washire, of anthesota, who had the bill in charge, only consented to lay it aside so as to allow of an adjournment of Congress when August had far advanced, on condition that it should be made the first special order for the next session, and should be fought out to a

This accordingly has to be done. The Senate has a number of other important House bills on its calendar. These have slumbered hitherto in the Committee on Finance, but a determined effort will be made to bring them out and to send them up to the President for his action. The House may possibly be given an opportunity to reconsider its action and to take up the Senate's Free Coinage of Silver bill. The silver men will try to bring this about.

The appropriations for the current year will probably evoke little discussion except in one important respect. Secretary of the Treasury Foster, to whom the law requires that all estimates shall be sent prior to the meeting of Congress, has already intimated informally those estimates will simply be a duplication of the appropriations which Congress has already agreed to be necessary for this year, and that no recommendations will be made for any increases of expenditure

The one exception upon which a lively discussion may be looked for, is that part of the Sundry Civil bill which makes appropriation for expenses of United States courts, commissioners, marshals and deputy marshals. Mr. Allison stated to the Senate, when reporting the Sundry Civil bill for this year, as agreed upon in conference, that the reductions made by the House would inevitably result in a

The Senate wished to appropriate \$900, 000 for "Fees and expenses of United States marshals and deputies. The House cut the amount down to \$475,000 and stuck to that figure. The Senate gave \$145,000 for fees of United States commissioners; the House knocked off \$45,000. The Senate appropriated \$225,000 for fees of cierks, etc.; the House reduced the amount to \$175,000. Any attenual to appropriate for deferences. tempt to appropriate for deficiencies under these heads will assuredly procipitate a debate which will bring up the whole question of the election laws and

their enforcement.

In the absence of Mr. All son in Europe ttending to his duties as member of the International Monetary Conference, Mr. Hale of Maine will be acting chariman of the Senate Committee on Appropria

to the Maybrick Petition, Washington, Nov. 14 .- The celebrated international case of Mrs. Maybrick, the young American confined in Waking prison, on a life sentence for the murder of her husband near Liverpool, several years ago, is the subject of renewed agi-Gail Hamilton, the well known writer, has taken a deep interest in the case, and it was largely through her efforts that an immense petition was sent to Queen Victoria asking that the unfortunate woman be pardoned and re-

leased from prison.

The petition was based on the assertions that no proof was adduced on the trial to connect her with the crime charged, and further, that the commisalon of the crime itself was not proved. This petition was signed by Mrs. Harrison, the wives of the members of the Cabinet, including Mrs. Blaine, and many prominent ladies all over the

It was forwarded to England and ultimately found its way to the office of the Home Secretary. The potition received a semi-official character by being for-warded through the State Department and the United States Logation in London, and the response to it was communicated direct to this Government by the British officials.

This reply, which has not been made public, is reported to be exceedingly caustic, so much so, in fact, as to cause Gail Hamilton, in her last letter on the subject, to refer to it as "senseless, vnigar, and brutal insolence towards a friendly republican nation pleading for its own

TWO STATES STILL IN DOUBT.

Official Count Must Determine the Result in California and Ohio.

San Francisco, Nov. 14 .- The nnexpected closeness of the vote in California on the National ticket has thrown the result in doubt, although at one time there had been little question as to a Democratic victory. The State outside of San Francisco has evidently gone Re-publican by a plurality variously esti-mated at between 6,000 and 8,000. City returns are still incomplete but thus far Cleveland has a plurality of about 5,500. It is yet difficult to judge whether Cleve-land's plurality in San Francisco will be sufficient to overcome the Republican plurality in the State.

The complexion of the Legislature is

also uncertain. Neither party can have more than a small majority on joint ballot, although the indications favor the Democrats.

The "Chronicle" (Rep.) claims the State for Harrison by 2,000, while the Democratic State Committee's figures indicate a victory for Cleveland by 800.

The official canvass will have to be

awaited to ascertain the result. COLUMBUS, O. Nov. 14.—The Ohio tangle is as complicated as ever. Both sides claim the State, including electoral vote and State officers, but each side condedes one electoral vote to the other. One thing is now apparent. It will require the official count to decide and in this the Republicans have the advantage, if any is to be gained therefrom.

The Republicans claim the Secretaryship of State by 1,055 and the election of 22 out of 23 electors by 917.

The Democrats gave out no figures but they still adhere to the claim made in their former statement that Col. W. A. Taylor is elected and that 22 electors out of 28 are chosen for Cleveland.

Georgia State prison, is plotting more blackmall and scandal from behind prison bars. A note was sent to the newspapers yesterday by a prominent lawyer stating that Beresford was endeavoring to sell to papers in New York, Chicago, Philadelphia and Pittsburg, a most scurrilous manuscript, reflecting upon the honor of two well known, wealthy society ladies of the metropolis.

The lawyer was seen at the Union

The Desperate Affray in Which Seven Negroes Came Near Being Exterminated by a Bloodthirsty Crowd-The Colored Men Game-More Deputies Asked For.

HOMESTEAD, Pa., Nov. 14 .- The period of comparative quietness which has prevailed in Homestead since the militia left has died out. The pent-up feelings of the strikers broke out afresh yesterday in a riot, in which at least 50 shots were fired, but miraculously no person was killed, though a score were hit by the flying bul-

A party of seven colored non-union men were on their way to their boarding house about 4:45 p. m. yesterday, when a man, supposed to be a striker, attacked two of the negroes, Charles Carroll and Fred Lewis. Lewis was knocked down.

This was a signal for a large crowd to gather at the scene of the trouble. and a terrible riot took place between the colored men on one side, and the crowd, supposed to be all strikers, on the other

The two sides fought desperately and fired their revolvers and slashed each other with knives at closs quarters for several minutes, when the negroes made a dash through the crowd for their board-

They were followed by the hooting and bloodthirsty crowd, which, by this time, numbered at least 2,000, including many women and children. The crowd fired and threw stones at the floring negroes, and they in turn returned the fire on the crowd, and how so many escaped instant death is a miracle.

The colored non-unionists living on Shanty Hill, hearing of the assault upon their brethren in town, were about come down and rescue them. Over of the colered men were ready to make an onslaught at a moment's notice, a coal and iron police had much difficulty

in restraining them.

THE PLOT AGAINST SIMPSON-Mr. Harvey Said Jerry Helped Put Ur

Harvey had been charged with giving out secrets of the committee, and to de tend humself, he exposed the plot which was arranged in Topeka to have an at tempt made to assassinate Jerry Simpson. Harvey says the parties to the scheme were W. C. Jones, Chairman of the Demo

"The plan," says Secretary Harvey,
"was to bave Simpson return to his district and be waylaid and beaten and

NEW YORK, Nov. 14. -Russell B. Har rison, son of the President, is stopping at the Plazza Hotel. A newspaper corre spondent asked him whether there was any truth in the report that his father intended to live in Boston after he re tired from the White House.

He stated that the President would return to Indianapolis and pass the remainder of his days among his associates and friends. He spoke feelingly of the great family affection and intimated that his father was not at all disappointed by the result of the election because he could retire to quiet life.

He did not care to speak at length

He did not care to speak at length upon the result of the election, but added; "I think my father is proud of the good showing made in Indiana. Two years ago the State gave the Democrats a majority of 10,000, and now they sarry it by 8,000, showing a Republicant gain of 11,000. It was not even a doubtful State for the Democraty had carried. State, for the Democrats had carried it

"Other States that were conclusively Republican until the election proved the contrary are the ones that cause surprise. Look at Ohio, which gave McKinley a majority of 20,000 or more when he was elected Governor, and which has always been considered a Republican State in national years, and consider the great revolution wrought there. In view of the overwhelming change of votes in that State, I certainly think the President has cause to be proud of his own State and the great gains he made in two years.
