ONE OF THE CAUSES!

ANOTHER CONTRIBUTION ON THE PRESIDENTIAL BATTLE

THE PATRIOT MUST STEP DOWN

To Make Room for the Man Who Hired a Substitute When the Country Called for His Services.

HE battle is over and the victors are now preparing to seat their champion—the champion of the Solid South—the man whose history marks him as an evader of duty and as far beneath the sphere of manhood and patriotism that was embodied in Harrison as the serf is beneath the Czar. The man who shouldered his musket and fought for the preservation of the Union against the onslaught of the South will on the fourth of next March surrender the Presidential chair to a man who bought a substitute for his place at the front.

Cleveland, the pet of the Solid South, the Buddha of the ignorant and superstitious and the idol of the corruptionists of the country, will march triumphantly to Washington again and gladden the hearts of the Union's enemies by tendering to the Solid South the rags which were taken from her when she tried to rule.

"By the will of the people," the Democrats say that Cleveland was chosen, but they know better. Cleveland takes the chair by the will of the hurriedly and illegally naturalized foreign element that has gained or is rapidly gaining control of the large cities of the Union, such as New York, Boston, Chicago, St. Louis, Indianapolis and Milwaukee.

It will be a stupendous undertaking to dislodge the Democrats, even should they fail, as they undoubtedly will, in satisfying the independent element that gave them such a sweeping victory. They are evidently not going to let go the grip they have on the Solid South, and the hold Tammany has in having complete possession of the election machinery in New York makes it next to an impossibility for the Republicans to get a fair shake over there. The big settlement of foreign laborers in Chicago seems to have put the Democracy of that city in a position that will enable them to control the vote of Illinois for some years to come. This same foreign element in Boston is bound at no distant day to make Massachusetts Democratic. The Republicans do not appear to be able to catch any of the foreign element that comes to our shores in these days. For some reason (who can explain it?) these people go into the Democratic party.

It is only a question of time when the American born people and their descendants will be crowded out in every corner and those who come here and are naturalized before the smell of the sea breeze is out of their clothing will be absolutely in control. And then what will the Americans do? Nothing. For should they attempt to assert their rights they will be declared guilty of Know Nothingism, and if they persist in their claims the made-to-order Americans will resort to the policy that was invoked to kill witchcraft.

This is pleasant food for reflection on the part of the patriotic (?) Americans who are continually harping on "our country" and yet voted to again place at its head a man who did not have courage to go to the front and fight for her preservation when the South had its fingers clutched about her throat.

But "we've gone and done it!" and there is nothing for the villainous (?) Republicans to do but to sit down and await the raising of the curtain on Grover Cleveland's glorious (?) second term. Let us smile while we can and when Tammany puts her sachems in charge of the government we will try to smile again.

Yesterday morning the price of milk went up in town from 8 to 10 cents a quart and the housekeepers do not take kindly to the raise. The Democrats will of course say the election of Cleveland had nothing to do with the raise, but when a lady asked to-day if the scarcity of water had anything to do with it the milk man looked dreadfully indignant. It may be that the cows are on strike.

Democrats will laugh at the idea that the recent election could have an effect on milk, but there are some who will remember the free trade times of the 50's, when work was scarce and people were on the verge of starvation. They will perhaps remember the free trade times when about everything used in this country was made across the sea. The pieces of crockery, plates and other

dishes, will no doubt be recalled, with the English lion surrounded by blue on the bottom. The knives and forks and pocket knives from Sheffield, England; the locks upon the doors with the English lion and the unicorn stamped upon them; all these and in fact nearly all articles of household use will be remembered as having the foreign trade mark. And at this time, people some of our people will remember, that the authorities of a borough not a thousand miles from Shenandoah rented a hall and stocked it with flour, meal and vegetables, which were distributed among heads of families who received orders for a small pittance per day in return for work done on the public highways. State (Wild Cat) bank notes in circulation and mingled with the shiplasters, and miners and laborers received store orders and each colliery had a store.

The platform upon which Grover Cleveland was elected last Tuesday includes wild-cat bank and free trade policies, and the Democratic party was in full power when the times were as they are described above.

The only thing surprising is that all the milk in the country did not turn sour and remain so after the result of the election was made known. C. * Y.

FRIGHTFUL ACCIDENT.

Young Joyce was Practically Kicked to Death.

A young man named Joyce, aged about 20 years, and employed as a driver at Bear Ridge colliery, while returning to the stables, on the back of a mule, was thrown to the ground and horribly mangled by the hoofs of the animal. It is not known whether the animal became frightened by the rattling of the young man's cans or whether some boys who were playing in the vicinity threw stones at the animal. At each leap the hoofs of the mule struck the victim with distressing effect. Joyce died in great agony at about ten o'clock last night.

A Hoax.

Considerable excitement was caused in town last night by the circulation of a report that a big fire had started in Mahanoy City and more than half the town was in danger of destruction. Investigation showed that there was no foundation for the report.

We need a new sitting-room chair. I want it upholstered in blue. And since, sir, my daughter is fair I think you had best make the chair a little too small, sir, for two.

THE SIXTH ATTEMPT!

BURGLARS WASTE TIME ON AN UNLOCKED SAFE.

THREE GENTS THE ONLY BOOTY

A Peculiar Gang of Burglars Who Seem to be Endowed With Great Patience—Much Waste of Time.

PERSISTENCY on the part of some unknown gang of burglars has again afforded the management of the Shenandoah Feed and Lumber Company with food for reflection and speculation. Last night some unknown parties forced open the office door at the lumber yard on East Coal street and turned their attention to "cracking" a drawer of a desk. After breaking the lock and splintering considerable woodwork the midnight visitors pulled out the drawer and exposed to view three copper pennies. To sniff at this find was but natural for a burglar, so the visitors turned their attention to a safe in a corner of the office. The safe door was unlocked. This should have been sufficient notice that there was not a gold mine in reach, but the burglars did not take the hint.

They opened the safe door and with a large chisel tried to break the woodwork away from the inner iron chest. This work was not pushed far and it is believed the workers were frightened off. This last was the sixth attempt that has been made to make a haul at this place and on no occasion have the burglars secured a cent. Each attempt has been made on Mondays following pay day.

The proprietors of the place say that the burglars are either very green and ignorant, or somebody is taking a big risk on practical jokes.

GIRARDVILLE GLEANINGS.

A Newsy Letter from a Wide Awake Correspondent.

I, Beth, the undertaker, is having a handsome stone pavement laid in front of his Parker street property.

Our town is indeed a heavy sufferer from the scarcity of water. There is not enough water to supply the gas company with a quantity sufficient to make gas enough for both street and domestic use, and in consequence our town was in darkness last evening. To make matters worse, the streets are all torn up, and people are in danger of injuring themselves.

The funeral of H. W. Foy took place Monday morning at 10 o'clock. Interment was made at St. Joseph's cemetery. The Mannerher and Girard Hose Co., No. 1, of which the deceased was a member, attended the funeral in a body.

Quite a number of our society people received invitations to attend the November assembly of the Omega Social Club, of Mahanoy City.

The boys of the High School have formed a foot ball eleven, and would be pleased to hear from other teams whose members are under 16 years of age.

The great mining play "Underground" will be the attraction at the Palace theatre to-night. The company is said to be a first class one, and will no doubt be greeted by a packed house.

The Girard Hose Co., No. 1, will hold a grand masquerade ball on the 23d inst., at the Palace theatre. A large number of tickets have been disposed of and a good time is guaranteed to all who attend.

A NARROW ESCAPE.

A Woman Made Prisoner on a Railway Track.

Mrs. King, of West Line street, had an exceedingly narrow escape from death on the Lehigh Valley railroad near the Bowers' street crossing yesterday afternoon. As she was walking along the track her foot became fastened in one of the frogs. At the same time the woman heard the whistle of a passenger train approaching from behind and in making desperate efforts to disengage her foot she was thrown face down upon the rails. Fortunately some men and women saw her perilous position and released her just in time to get her from the way of the approaching train. Mrs. King sustained several severe bruises by her fall and was prostrated by shock when she realized the narrow escape she had.

The Result of Merit.

When anything stands the test of fifty years among a discriminating people like the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steady increasing sale. Few, if any, medicines have met with such continued success and popularity as has marked the introduction and progress of Brandreth's Pills, which, after a trial of over fifty years, are conceded to be the safest and most effective purgative and blood purifier introduced to the public. That this is the result of merit, and that Brandreth's Pills actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest.

Brandreth's Pills are sold in every drug and medicine store, either plain or sugar coated.

A Testimonial.

Last evening the members of the Y. W. C. T. C. met in their rooms for the purpose of presenting to Mr. Arthur C. Morgan a token of their esteem and wish him a safe journey to Colorado. The presentation was made by Mr. J. T. Lawson. The token was a beautiful Oxford bible. Mr. Morgan was very agreeably surprised and in acknowledging the gift gave assurances of his good will towards the cause of the Y. W. C. T. C. A brief musical and literary programme followed.
