HOMESTEADERS' PLIGHT

Leaders Denounced for the Collapse of the Strike.

A STRUGGLE FOR EXISTENCE NOW

Starvation Staring Many of the Strikers in the Face-Only a Small Proportion Can Hope to Re-enter the Carnegie Mills-Nou-Union Men Will Not be Displaced.

HOMESTEAD, Pa., Nov. 21.-Now that the agony is over, and the great Home stead strike has been declared off by the strikers' advisory board, the men are not backward in expressing their opinions of the men who have posed as leaders, con fidently promising a victory when they knew for a certainty that the battle was hopelessly lost. These men are furiously denounced.

According to Supt. Wood, of the Homestead works, not more than 800 or 900 of the total number of employes will be able to secure employment.

Before the break of last Thursday there were left in Homestead 2,800 of the original 3,800 men who were locked out

Of these 2,800 men, 2,200 were me chanics and laborers, and 600 were me-chanics and laborers, and 600 were Amal-gamated Association men. Up to date, 1,100 men have applied for work, and it is estimated that not more than 350 have

been supplied with work. The question of declaring the mill open began to agitate the minds of cortain Amalgamated men as soon as it be came apparent that the mechanics in-

came apparent that the mechanics intended breaking away in a body. Not only the rank and file but many of the leaders recognized that without the numerical aid of the mechanics and laborers they could not hope to carry the day.

Money, or lack of it, also became an important factor. The failure to receive promised money of large amounts, together with the unfulfilment of other promises, all came in for consideration. They could not subsist upon promises and so told their leaders, who, seeing that it would be useless to try and hold the men would be useless to try and hold the men together longer took steps to place their brethren upon equal footing with the

mechanics in the grand rush for work.
Saturday's meeting was attended exclusively by Amaigansated Association
members, much to the chagrin and disappointment of the sympathetic mechanto their homes in silence, hope dead within them. The meeting was not a large one, and considerable surprise attended the announced resignation of Chairman Crawford.

When his resignation had been accepted s striker arose and moved that the lock-out be declared at an end and that the men be allowed to seek employment in

the Homestead mill.

Discussion of this question continued until 6 p. m., when the meeting ad-journed without result. Yesterday the same question was taken up, but those for and against such a move were afraid to force the question to a vote, so evenly were they divided. Only about 200 men

attended the meeting.

Those opposed to bringing the fight to an end struggled hard to prevent a ballot, pleading, arguing, and predicting the disintegration of the Amaigamated Asso-

These patriotic steel workers, who have repeatedly stated that they would prefer nakedness and starvation rather than defeat, were in the minority, and they knew it. Yet they pleaded with their breihren to stand firm, if for no other reason than to show the world that they had not for-gotten the men who were lying in prison cells awaiting trial.

It was of no avail. The question was put, the vate being a standing one. When Vice-President Carney announced the result, 101 to 91, there was no joyous outbreak.

For a few minutes the men sat and stared at each other. Then followed angry denunciations. The men slowly left the ball in twos and threes. The seemed loth to leave the building, the very rafters of which have quivered with the declaration, made a thousand times that victory was theirs if they would only be imtlent.

Last evening the men stood in small Last evening the men senseling the groups about the streets, discussing the groups about themselves in. With winter upon them, they see nothing in store now but a struggle for existence, which may assume the proportions of a

The oft-repeated declarations of the Carnegie officials that the non-union men will not be displaced to give employment to the strikers gives absolutely no hope for 2,000 of the defeated steel workers.

Was a Leader of Society.

New Yong, Nov. 21. -Mrs. August Belmont, widow of the financier and turfman, died yesterday afternoon at her home, No. 109 Fifth avenue. Her death had been momentarily looked for, and when it came she was surrounded by her family.

Mrs. Belmont had not been in good

Mrs. Belmont had not been in good health since the tragic death of her youngest son, Raymond, on Jan. 31, 1887.

Mrs. Belmont was the daughter of Commodors Matthew Galbraith Perry, and a member of one of the old historical families of America. Her grandfather was Christopher Raymond Perry, who served in the lawy during the Raymond.

served in the navy during the Revolu-tionary War. Christopher Perry mar-ried in 1784, and the male members of his family have served in the navy with

The two most notable were Commodore Oliver Hazard Perry, the hero of Lake Erie, who was Mrs. Belmont's uncle, and Commodore Matthew Perry, her father. When August Belmont met Miss Perry

her father was commandant at the Brooklyn Navy Yard. Mr. Belmont was 35 years old, and Miss Perry but 18. Miss Perry had many admirers, but she gave her hand to August, who was then

but little known.

She was a good conversationalist, a patron of art, and a fine musician. These qualities, together with the wealth of her husband made her a leader in the

world of fashion. At her bedside when she died were her children, ex-Congressman Belmont, August Belmont, jr., Oliver P. H. Belmont, and Mrs. S. S. Howland.

The funeral services will be held at the church of the Ascension to-morrow.

GLEASON'S RE-ELECTION. Residents of Long Island City in a Fever

The matter will undoubtedly be carried to the courts, but as Gleason, on the strength of the clerk's certificate, has sen aworn in, he has the possession ad-

vantage of the matter. It is understood that Gleason claims the office on the ground that nearly a thousand defective ballots were cast for

his opponent, Sauford.

Banford was the candidate of the Jefferson Democracy. When City Clerk Burke counted the defective ballots where the names of the candidates were written on the ballots instead of being printed, he found 1,000 of them on which Sanford's name was written in many ways. Nearly all were wrong.

On many were written Santford, on many others Sandford, Sansford and Sanaford. After placing these various names in their proper columns and foot-ing up the totals, City Clerk Burke found that Gleason's ballot showed a majority over Sanford's proper ballot of

HE OBTAINS LEAVE OF ABSENCE.

This Attempt Will be Made Under the Auspices of the Academy of Natura Sciences, of Philadelphia-The Explor ing Party Will be Small in Number.

PHILADELPHIA, Nov. 21 - Information has been received in this city that Secre tary Tracy of the Navy Department has granted a three years' leave of absence to Lieut. Peary, who will head another expedition to the Arctic regions. This report was confirmed to-day by Gen Isanc J. Wistar, President of the Academy of Natural Sciences.

Owing to the need for additional civi engineers in the Navy Department, Pary's request for the necessary furlough was at first refused, but Gen. Wis tar, on behalf of the Academy, wrote to Secretary Tracy, which probably influ enced him to change his first decision.

The second Greenland expedition wil now be made under the auspices of the academy.
"There are three objects," said the General, "in sending the present expedition which may be stated briefly as follows:

"The first is to definitely determine the northern coast line of Greenland. The second is to determine if any land exists north of Greenland.

The third is to reach the geographical location of the North Pole, or to get as near to it as possible.

"This justicey will be attempted over the frozen auriace of the polar sea. I imagine the expedition will of necessity

be a small one.

"The journey over the frozen sea will be made by Peary with but one companion.

ECHOES OF THE GAME. Nothing But Praise for Harvard for He Plucky Fight.

New Haven, Nov. 21. - Yalo men are still rejoicing over the victory over Har vard on the football field Saturday, and it cannot be denied that they have not ye recovered from the surprise they received for they firmly believed that they had walkover with the Harvards this year The odds offered by their friends in the betting indicates just how sanguine the

all feit. Well may the Yale men be proud o their victory, for there is no denying that it was the hardest and most scientific football battle on record, and Harvard proved to be no mean opponent, but or the contrary developed unexpected strength, and her team, although beaten was one of the best that has represented

the college in years.
The game throughout was really a intest between coachers.

An old foot-ball player, referring to the

game, said:
"What a struggle it was! They fough so evenly that the great mass of human-ity looking on was kept in a continual state of exuberance and violent emotion.

"But the end came, and Harvard had to succumb. Not, however, until irreparable injury had been done to her ranks through injuries to Emmons and Upton. Both men retired near the end of the second half. Who knows but what the score would have been a tie and Vale score would have been a tie and Yale would not be reveling in the joy of vic-tory had not these men been injured! *Those who had predicted that Yale

would win by a score of 30 to 0 had lit-tle knowledge of the strength of Harvard. Those who had wagered their money at three and two to one felt so shaky as the game progressed that they would liked to have gone after a "bracer" had it not been that they were penned in so they could not move

'Harvard's defeat can be laid primarily to the absence of Upton and Emmons. The former was injured first, and re-tired when the second half was about ball over. Emmons had his leg injured in the second balf, but after a short delay he hobbled along on one leg and con tinued to play."
