AMUSEMENT NOTES.

References to Ferguson Theatre Coming Attractions.

For thrilling scenes romantic, realistic and terrific border life, "The Bandit King," at presented at the Academy last night by Jas. H. Wallick and his dramatic company is superior to anything of a similar character that has been produced in this city in some time. Mr. Wallick is a great actor displaying dramatic nower that is seldom seen on the stage, and we believe honors await him in the more refined line of the drama. His support is good .- New York Times. "The Bandit King" will be produced at Ferguson's theatre on Friday, Nov. 25th.

"KAJANKA," The pantomimic farce comedy entitled "Kajanka" was given at the Temple last evening before an audience that filled every seat in the house. The piece is well-known here and is always a favorite. It is one of those lively, interest sustaining pieces, that will make the soberest of people laugh till the tears roll down their cheeks. Kejanka, the clown, is admirably played by Amny and so is the part of the priest by Harry Campen The dancing of the Mariposa dancers was also well received, but the finest work was done by the Cornallas seven acrobats, who have never been excelled here. Some of their acts are truly marvelous. "Kalanka" will be repeated this evening.-Dulath Daily News. "Kajanka" will be at Ferguson's theatre next Saturday evening, Nov. 26th.

This city is looking for a new water sup sly and it needs it. I do not know of anther town in the county that is more in seed of it. It has been suggested that this strough join the Shenandoah water movenent and use the proposed supply from Davis' Run, but I learn that this idea has seen dropped, because it will be impossible to furnish sufficient water from the proposed ource for two towns like Shenandoals and Mahanoy City. It has also been suggested. that a source be picked on Locust Mountain, but an old resident of town who formerly resided in the neighborhood of Locust creel for many years, says the supply from this source would certainly be inadequate and during a dry spell such as we have just experienced the stream would be useless.
