THE Illinois Steel Company proposes to shut down its steel rail plant at South Chicago on December 15, because of uncertainty about the tariff; and 3,500 men will be thrown out of employment. Chicago's majority for "tariff reform" will cost the workingmen there a large sum of money.

A PAPER and pulp mill at Waddington, N. Y., which had been planned by New York capitalists, has been abandoned. A lumber and pulp mills to cost \$400,000, which was to have been erected at Tupper Lake, has been postponed indefinitely-all on account of "tariff reform."

THE Minnesota Populists are in a row over the conduct of their canvass this fall, when the party cast 4200) votes in that State. As a result of the disagreement it is said that the party will be disrupted and the voters will go back to their old political ailinnees.

GOVERNOR RUSSELL, of Massachusetts, owes his re-election it seems not to any upheaval of political sentiment such as the reform ers and dreamers 10ve to talk about, but simply to popular ignorance of the new ballot law, and to carelessness in complying with its requirements. In a word, Governor Russell continues in office, not because he people want him, but simply because they failed to take proper care in arranging their votes against him.

A MONSTER meeting is soon to be held in Montreal to discuss the question of annexation to the United States, which the Liberal press has recently been urging with renewed vigor. There is little doubt of the general sentiment in favor of annexation on Canada's part, and it seems as if the time for joining forces with her neighbors on this side of the border were bound logically to come. Our own anxiety to hasten such s consummation is less than hers, but if she will accomplish needed reforms and make her conditions conform somewhat to ours she will find Uncle Sam more than ready to meet her half way with an outstretched hand of welcome. THERE are are some capitalists who have been predicting that that prohibition community which was established at Harriman, East Tennessee, would find that some other quality than an absolute prohibition of alcohol is necessary to make such an undertaking financially successful. One year's service as president of the company satisfied Thomas L. James of that, and while Mr. Wagnalls is regarded as good a business man as he is Prohibitionist, yet he confesses that under his presidency the company has been obliged to pass its dividend. If it gets into nore serious trouble it will only fulfil a prophesy of the man hired to run a fine hotel. He set a good table and he got himself into trouble on that account, for some of the directors were there at dinner one day and discovered on the bill of fare "Reast ham with champague sauce," Champagne sauce caused a terrible commotion. The directors were indiguant. It was a violation of the articles of the corporation, they said, and the hotel manager became indignant as well, threw up his; job and predicted that prohibition which went so far as to prohibit the only sauce fit to serve with roast ham would be likely to ruin the enterprise. "I suffered for two years from a bad cough and pain in my closet. I tried a number of remedies, but Dr. Bull's Cough Syrup was the only one that effected a cure. P. J. Murphy, Ashley, Pa."
