DR. BRIGGS HIT HARD

His Demurrer to the Allegations of Presbytery.

ATTACKED THE HERESY CHARGES.

He Declared That the Indictments Accased Him of Teaching Doctrines Which He Had Repeatedly Disclaimed - An Adjournment Saves Bie Loquisitors,

NEW YORK, Nov. 29 .- In the Presbyterian heresy trial Dr. Briggs is ahead up to date. His was the victory yesterday, and he owes it to his logic. He led his accusers off into a side issue and confused them with his arguments. He mixed them up to that they failed in their answers. The merits of the case were not touched.

In a demurrer he attacked the two most essential counts in the indictment In another moment Presbytery would have voted to strike out these two counts, but Colonel McCook saved his committee from total defeat by calling for time.

The issue yesterday was upon the sub stitution of the new indictment for the oid. Dr. Briggs was in his seat beneath Moderator Bliss' chair. The court was assembled in the great auditorium of the Old Scotch Church.

Then began the response of Dr. Briggs to the amended charges. He objected to the amended charges as being insufficient in form and legal effect, and also to the regularity of the proceedings. He stated his objections in clear, concise, compact

form.

Dr. Briggs laid bare the legal sspect of the case. But this did not stir up the audience. It was when he reached the evidence and the charges that interest was awakened. He found the indictment was radically changed by the amendments proposed by the committee, and that the evidence proposed as proof of the new charges was also radically changed.

The two counts picked out by Dr. Briggs as a centre of attack are num-bered 4 and 7 in the indictment.

They are, respectively, that his address teaches that "many of the Old Testament predictions have been reversed by history, and that the great body of Messhanic prediction has not and can not be juililed, which is contrary to the essen-tial destrine of the riely Scripture and of the Standards of the Church, that God is true, omniscient, and unchangeable and that "the processes of redemption extend to the world to come in the case of many who die in sin, which is contrary to the essential doctrine of Holy Scrip ture and the Standards of the Church, that the processes of redemption are limited to this world."

He warmed up in stating his objections to these charges. Not only were they entirely new, but they charged him with teaching doctrines which he had repeatedly and expressly disclaimed.

They were entirely without justifica-tion from snything taught in his inaugural address. They misrepresented and misquoted the doctrines of the address. He considered this an offense against Christian courtesy and an imputation on his veracity.

The Court heard these heated words in absolute silence.

The olerical and lay jurors listened

with the closest attention as he went on to show how he had disclaimed any such teaching as second probation, or that the prophecies relating to the coming of Christ were not to be fulfilled.

The motion to quash counts 4 and 7 was laid on the table and adjournment

What the committee will do cannot be said. They may muster up courage to stick for the two charges. These charges are the most serious, for they touch the gravest questions at issue in the higher criticism and the new theology, namely, the force of the prophetic writings and the future state of the dead.

The case continues to-day from 2 clock to 5 o'clock.
