DEMANDS FOR AN EXTRA SESSION

Pension Commissioner Baum's Annus Report-An Estimated Deficiency for the Present Fiscal Year of Over Ter Million Dollars-Pairchild for Secretary of the Treasury.

Washington, Dec. 1 .- Senators and Representatives are arriving slowly, and, although Congress convenes next Monday, hardly one-third of the members of the National Legislature are here. However, everything is being put in readines : at the Capitol.

The big white pile at the end of the avenue has been thoroughly overhauled during the recess. The Senate chamber and the hall of the House of Representa tives have been improved wherever defects needed remedy.

Some decided changes have been made in the hitherto very defective ventilation of both buildings, and it is hoped that the improved plumbing of the wast mar ble structure on Capitol Hill will bereafter give less cause for complaint.
It is noticeable that most of the South-

erners and friends of Speaker Crisp are loud in their demands for an extra session, while the older members from the other sections prefer to learn how near is the threatened deficit in the Treasury before they declare themselves on the

extra session question.

The first day of the new session will be The first day of the new session will be devoted to the reading of the President's message, provided Mr. Harrison can finish it in time. The Senate will be brought face to face at once with the Anti-Option bill, and there is much speculation as to its fats. The first week of Congress, however, will not be productive of much work.

PENSION COMMISSIONER'S REPORT. Estimated Deficiency for Present Fiscal Year \$10,508,621.

Washington, Dec. 1 .- The annual report of Gen. Green B. Raum, commissioner of pensions, shows that there were on the pension rolls June 30, 1892, 876, 068 pensioners, an increase during the year of 199,908

There were added to the rolls during the year 222,937 new pensioners and 2,477 pensioners previously dropped were restored to the lists. During the year 25,806 persons were dropped from

The total amount expended for pensions during the fiscal year was \$139,035,-

For the present fiscal year \$144,956,000 is appropriated, and, taking the cost of the pension allowances during the first four months of this fiscal year as a basis of calculation, the Commissioner estimates that a deficiency appropriation of \$10,508,621 will be necessary to supple-

ment this year's appropriation.

An es imate of \$165,000,000 is submitted for the next fiscal year, but Commissioner Raum says that it as many allow ances of pensions shall be made during the fiscal year to come as during the fis

cal year ended June 30 last this amount will not be large enough.

He says, however, that it is difficult to forecast pension payments so far in advance and that as Congress will be in session, no embarrasament will arise if his successor, in the light of actual cost of the work for the first six months of the next year, finds that a further ap-

propriation will be needed. Under the Dependent and Disability pension act 920, 957 claims have been filed of which number 403,859 have been allowed. The pension payments under the law up to Sept. 30, 1892, amounted to \$75,494,448.

The Commissioner heartily commends this Disability law.

FOSTER TO FITCH. Correspondence Over the Exemination at John L Davesport.

Washington, Dec. 1.—Secretary of the Treasury Foster has sent a letter to Congressman Fitch, of New York, chairman of the committee investigating the work ings of the Federal Election laws. It is part of the correspondence that has been in progress for some days over the exam ination of the accounts of Chief Super visor John I. Davenport, of New York.

The Secretary says that he does not de-sire to continue the correspondence now that they quite understand each other on the law in question. He takes it that Mr. Fitch is satisfied that he has a right to appear in court when Mr. Davenport presents his accounts and resist their alowance if any illegal charges are made therein against the United States.
Also, that Mr. Fitch is equally well

satisfied that under the ruling of the Supreme Court, in the Jones case, there is at least a serious doubt about the right of the Treasury Department to review such accounts after they have been allowed by the Circuit Court, except in case of clair and unequivocal mistakes. "Under such circumstances," says the

Secretary, "I respectfully submit it is part of prudence and wisdom to resort to the courts in the first instance. If, lafter the hearing, you shall be of the opi that further inquiry is demanded, or required to protect the United States, will listen with great pleasure to an suggestions you may see fit to make looking to that end and to the end that any further relief that shall be in my ver may be granted."

A FIFTH ONE FATALLY INJURED.

Two Mee, Their Wives, and a Young Woman Drive in front of an Express-The Engineer Knew Nothing of the Accident - Patal Wreck in Arkansas,

ELMIRA, N. Y., Dec. 1 .- One of the worst gaccidents that have ever curred in this city took place shortly after 11 o'clock last night.

Wm. Conkiin and wife, Mr. and Mrs. Edward Blanchard and Margaret Pett of Southport Corners, several miles south of the city, came to town vesterday. At about 11 o'clock last night they prepared to return to their home. The five got in a wagon drawn by one horse. While crossing Pennsylvania avenue an express train westbound crashed into the rig instantly killing four of the occupants and probably fatally injuring the fifth.

The engineer did not know of the accident until he reached the depot over a mile away. Upon examining his engine, he discovered a ghastly sight. Edward Blanchard and his wife and Margaret Pett were piled in a heap on the pilot of

the engine.

The bodies were removed to a con venient place and the coroner notified. While the bodies were being removed word came that another corpse lay beside the track hear the Pennsylvania avenue crossing and that a man lay dying near

He proved to be Wm. Conklin. Deep

mystery surrounds the affair.

If Conklin dies or does not recove consciousness before his death it will never be known how he came to cross the tracks in front of an express train. The ratiroad and municipal officials are now looking into the matter.

FATAL WRECK IN ARKANSAS- I Passengers Burled Down an Embankment-Two, at Least, Will Die.

ARRANSAS CITY, Ark., Dec. 1 .- The northbound Missouri Pacific passenger train leaving here at 12:45 p. m. yesterday jumped the track about one and a halmiles from this city.

The baggage car and two coaches left the track.

The coach next to the baggage can rolled down an embankment about 20 feet high and rolled over, a total wreck, injuring 12 or 15 passengers.

Three colored men, names unknown

were cut and bruised considerably. Two were sent to the Missouri Pacific hos-pital at St. Louis and are considered fatally hurt. Several others received some scratches.

The cause of the wreck is supposed to be the giving way of ties, allowing the rails to spread. The engineer of the train was P. J. Robinson.

The northbound train [from Mouros, La., to Little Rock, Ark, backed down 12 miles from McGhee and took pas-sengers, baggage, mail, and express to Little Rock.

DR. BRIGGS' CASE. The Prosecuting Committee Gains as Important Point.

The order of the day was the consideration of the formal damurrer of Dr. Briggs to the six remaining charges, the two most essential charges, four and seven, having been stricken out Tuesday by Dr. Briggs' friends after a long and bitter fight.

The attempt was made still further to weaken the case by striking out the last paragraph which specifies what was offered in evidence by the trial. The attempt failed after the hottest fight ever experienced in Presbytery and by a vote of 70 to 68.

On the vote the ministers were tied, and the elders' vote decided the question. Several conversions from Briggs to anti-Briggs were noted in the vote

ANOTHER EXPRESS PACKAGE OPENED And This Time the Sam of \$25,000 to

Extracted. GALVESTON, Tox., Dec. 1.—The sensu tion caused by the discovery of brown paper in a package delivered by the Wells Fargo Express company to the Island City Savings Bank, when the endorsements showed that the parcel should have contained \$10,000 in currency, shipped by the banking house of Kountz-Brothers of New York, was increased when it became known that the banking louse of Ball, Hutchings & Co. had been victimized to the extent of \$25,000 in a similar way yesterday morning.

Among the money packages received by this last named banking house was me purporting to contain \$25,000, shiped by the National City Bank of New York. This package was not opened until after banking hours when the cashler, upon cutting it open, was astounded to see bundles of commons brown wrapping paper, cut to the size of bank bills, tumble out on his desk.

The fact that the two banks received their packages from different institu-tions in New York made it certain that the robbery was perpetrated after the packages had been delivered to the express company by the New York shippers.
Gen. Supt. Christeson, of the Wells
Fargo company, and his assistant, Tart,
have arrived to look into the matter.
They decline to talk beyond the bare

acknowledgment of the robbery, and i is impossible to ascertain if they have any cine as to the point on the line where the cobbery was committed.

Thomas Shedford, a coal dealer, testi fied that business in coal was not as good as it had been, and promised to give the committee a statement of prices he has paid to wholesalers for several years When he was asked if he could go shoppin for coal as advantageously as in previous years he replied in the negative.

Thomas Torrey, the sales agent of the Delaware & Hudson Canal Company was sworn and testified that all its coal was shipped over the Eris Railroad.

Mr. Torrey admitted that the coal pro-

ducers arrivally had a common interest in the cargest possible output and highest prices, anoject to the limitations pro-duced by the public demand. Congressman Patterson then took hold of the witness and tried to pin him down to something definite in regard to the

actual purpose and intent of the month ly meetings of the agents. Mr. Torrey, however, would admit nothing which would imply that the agents had anything whatever to do with the price or output of coal.
