A STARTLING FACT.

SIXTEEN PER CENT. OF LIFE INSURANCE APPLICANTS REJECTED ON ACCOUNT OF DISEASED KIDNEYS.

The Trouble Comes From Lack of Care.

Dr. Lambert the general medical director of the Equitable Life Insurance Company, N. Y., said:

"We reject sixteen per cent of the applications made to us for insurance, and I have saved the lives of many of these rejected applicants by the rejection of those who had diseased kidneys, and who died within two years after they were insured."

"This appalling statement coming as it does, from such high medical authority, should have the attention of our citizens. There is no reason to-day, why people should allow kidney disease to get such a hold on them."

Kidney troubles are warning in the slight pain in the back, poor circulation of the blood, sediment in the urine. When any of these symptoms appear, Dr. David Kennedy's Favorite Remedy should be taken in small doses at once, and this drive the poison out of the blood and restore the kidneys to healthy action.

To our knowledge this is the only medicine that surely and effectually cures this almost universal complaint.

We note the happy recovery of Mr. Oscar Lambert, of Jertico, Mo., whose case has been talked of in the papers the world over.

Quoting from his letter:

"I neglected the first symptoms until I found myself in bed with a complicated disease of the kidneys. No mortal cure offered more and lived. My physician failed to help me. I then used Dr. David Kennedy's Favorite Remedy, made at Rondout, N. Y. It relieved my kidneys almost immediately, and in a few weeks I was clear of all pain, and entirely cured. I owe my present health to this Favorite Remedy."

It is used and recommended for what it accomplishes. Writes Mrs. A. J. F. Manchester, from Providence, R. I.

"I began using Dr. Kennedy's Favorite Remedy for kidney disease, when Doctors failed to relieve me. It drove a lead bullet out of my back, cured my kidney trouble, and I am truly glad to say I have my life."

Wm. Huston the popular West Shore R. R. engineer, came out in an open letter stating how he had suffered with kidney disease. Physicians treatment, and the use of various preparations failed to benefit him. Dr. David Kennedy's Favorite Remedy, was procured and it made him well.

Favorite Remedy has had more free advertising in the columns of the daily papers, than anything we know of, from the fact that it does as is promised, "cures disease."

Dr. Kennedy's Favorite Remedy possesses marvelous strength giving qualities, that render it especially valuable to the aged or infirm. For a general all around tonic, and to cure any disease arising from an impure condition of the blood, it has no equal. Druggists are selling more of it than all others combined.

It cures Colds, Coughs, Hoarseness, Whooping Cough, Bronchitis, Asthma, Hay Fever, and all other ailments of the throat, chest and lungs.

ELLA NEWTON'S DEATH

No Clue Yet Found to the Mount Vernon Mystery.

WAS IT MURDER OR SUICIDE?

The Chief of Police Certain that Some Man Tied the Anchor to the Girl's Waist, and Says He is on the Trail of the Individual.

MOUNT VERNON, N. Y., Dec. 7.—Did Ella Newton tie a stone to her waist and drown herself in East Chester creek, near Mount Vernon? Or was she inveigled to the lonely spot and thrown into the water to drown? If the latter, who did it? These are the questions that have excited Mount Vernon folk from the time the girl's body, recovered from the creek water at Inverness, the inn by the shore, was identified by her stepfather from New York.

The fact that she had run away from an unhappy home points to the self-destruction theory. But the chief of police feels certain that some man tied the anchor to her waist and threw her into the water. He thinks that he knows the man.

Death was caused by drowning alone, and the fact that the girl was inviolate removes the most common cause for murder from the case.

The girl's movements have been traced only up to within four hours of her death. She left New York city, starting from the Grand Central depot, Monday morning, reaching Mount Vernon at about 10:30. She went to James Kenn's tailor shop, where she had been employed more than a year, and applied for a situation as nurse. Kenn and his wife referred her to Mrs. Meyer's intelligence office.

Mrs. Meyer sent her to Mrs. George Bard, who said she would want a nurse within a few days, and asked the girl to leave her address.

Ella replied that she had no address in Mount Vernon. Before going to Mrs. Bard's house Ella had called for the second time upon the Kearns to ask them the way to the address Mrs. Meyer had given her. She never returned. She made a second visit to Mrs. Meyer, to whom she reported failure to obtain the situation.

That was the last seen of her alive. Mrs. Meyer and her son as well as Mrs. Bard and the Kearns are positive that on all of her visits to them Ella was alone.

While Ella was wandering to and fro between Mrs. Bard's house, the tailor shop and the employment agency, another girl was diligently seeking her for the purpose of offering her a place as nurse to the children of Mr. and Mrs. Anshah. She followed Ella to all these places, missing her by a few minutes at each place.

That Ella Newton did not go out to East Chester on the one horse, single track railroad is almost certain. Jake Brown, driver and conductor of the only car that runs from Sixth street to Inverness on the Sound, Weber & Clough's hotel, does not remember having seen her, and his passengers are few enough for him to remember them all.

The environments of the place where the body was found preclude the possibility that it might have floated thither with the tide from up or down the stream. If she committed suicide Ella must have waded out thirty paces with 30 pounds weight of stone certain. Jake Brown, who deliberately drowned himself in water by no means so high as her head, Sailor Jack and the other boatmen living along the creek agree that all the knots in the rope were tied by a man long used to boats or ships. The staves had undoubtedly been used as anchors for a rowboat.

ALL HANDS LOST.

The Norwegian Bark Drimningen Sinks With Her Entire Crew.

LIVINGSIDE, Dec. 7.—A heavy gale prevails and a tremendous sea is running at the mouth of the Mersey. Yesterday the Norwegian bark Drimningen, ran on Burbo Bank. She had no pilot. The sea made a clean breach over her, sometimes completely hiding her.

Fifteen minutes after she struck her mainmast and mizenmast went over. Shortly after the vessel fell over on her side and was submerged. Lifelines put out, but the bark went down before they reached her. Everybody was lost.

When the lifeboats reached the scene not a living person could be found.

Nearly Asphyxiated by Coal Gas.

ELIZABETH N. J., Dec. 7.—Sarah Markthaler and three daughters were found asphyxiated in their home yesterday. The father left home early, and turned the stove damper. The escaping gas entered the bedroom where the family were asleep. Neighbors found all four unconscious in their beds. They were resuscitated after several hours work.

Interest in Monetary Conference Wanting.

BREITENBURG, Dec. 7.—Sir William Houldsworth's proposals will be submitted to-day to the Monetary Conference. Interest in the proceedings is abating somewhat, as the belief is gaining ground that the conference will have no appreciable results.

Commercial Cable Dividend.

NEW YORK, Dec. 7.—The board of directors of the Commercial Cable Co. has declared a quarterly dividend of 1.34 per cent., payable Jan. 2, 1893.
