

Speaker and... of the minority during the... was called to order in the Assembly... at 8:30 o'clock, by William E. Wheeler of Cattaraugus, who nominated Edward Gallagher of Erie, for Chairman. W. H. Dennison of Monroe and William E. Wheeler of Cattaraugus acted as Secretaries.

All the Republican members except Mr. Devo were present. Mr. Maiby of St. Lawrence was selected for Spenser over Hamilton Fish, jr., by a vote of 23 to 23.

Reuben L. Fox of Oneonta was nominated for clerk, J. H. Manville of Whitehall for sergeant at arms, Albert Needlok of Ithaca for doorkeeper and Wm. Loeb of Albany for stenographer.

Messrs. Ainsworth of Oswego, Woodbury of Chautauque, Fish of Putnam, Pierson of Tompkins and Nussbaum of Albany were appointed a caucus committee, and the caucus adjourned.

**Constitutional Convention to be Postponed**

While the Assembly caucuses were being held the Democratic Senators met and discussed in caucus the Constitutional Convention bill passed last year.

It was decided to postpone the convention until the second Tuesday of May, 1894, and to elect the delegates at the next November election as follows:

One hundred and twenty delegates by districts, four from each Senate district and 38 at large, no elector to vote for more than 16 delegates at large.

The remaining six delegates at large are to be chosen as follows:

Two shall be chosen by either of the leading parties receiving the second highest number of votes; two from any other organization, nominating by certificate, and casting the third highest number of votes; and the remaining two in the same way from the organization casting the fourth highest number of votes.

This bill gives the Prohibitionist and Labor parties representation, and avoids the constitutional objection to the law passed last winter, regarding the appointment of delegates by the Governor.

Senator Cantor will introduce the bill to-day, and expects to have it passed at once.

The bill will also be introduced in the Assembly.

ALBANY, Jan. 3.—Chas. R. DeFreest of Troy, said to-day that Edward Murphy, jr., wouldn't open headquarters here to contest his canvass for the Senatorship, although several of Mr. Murphy's friends in Troy have engaged quarters at the Delevan House and will keep open house here until a Senator is chosen.

**The New York Senatorship.**

ALBANY, Jan. 3.—It is stated that but little time will be wasted before a caucus for the settlement of the Senatorship question will be held. Next Monday the Governor will receive the members of the Legislature and the Electoral College, and on the following night, it is thought, the caucus will be held. The election of a Senator cannot be held until January 17, but if Mr. Murphy is chosen as the Democratic candidate in caucus all fear of a candidate rising against him will be swept away.

**Pennsylvania House Caucuses.**

HARRISBURG, Jan. 3.—The caucus of Republican members of the House selected C. C. Thompson of Warren for Speaker and Charles E. Voorhees of Philadelphia for Chief Clerk. The Democratic caucus of the Lower House nominated Walter E. Ritter of Lycoming for Spenser and E. B. Kearnes of Pittsburg for Clerk.

**Will Meet in Joint Caucus Jan. 17.**

HARRISBURG, Jan. 3.—At the Republican Senatorial caucus last evening a resolution was adopted providing for the holding of a joint caucus of the Representatives of both houses on Jan. 17, to consider the nomination for United

A new style... vogue in London is done with... braid of various widths. The braids are flat, very narrow and datuty. The widest does not measure more than an eighth of an inch, the narrowest about a sixteenth of an inch. They are similar to certain braids used in some kinds of lace making. For the tassels, buffed covers and doilies decorated with the braid, linen is principally used, though it is said to have an equally good effect on silk and other art-cloths. The simplest way of using the braid is in geometric patterns, in simple scrolls and in conventional forms, where the braid is run on the lines of the design with invisible stitches with cotton thread that matches or harmonizes in color. At the angles and corners the braid is turned over and fastened down by a stitch. One color or a pretty combination may be used, and large open spaces are then dotted with French knots or covered with embroidery stitches. Sometimes spangles that are said to be washable are used.

As no picture has been made of little Ruth Cleveland, a lady in Richmond, Va., who has received the following description, thinks that the editor would like to publish it:

"Baby Ruth is a very winsome, bright child, always a bright smile upon her happy face, and her eyes are very beautiful. Her complexion is simply perfect, dazzling in its whiteness, and her cheeks like lilies dipped in wine."

**CHILDHOOD AND OLD AGE.**

The Tender Grandchild and a Well-to-Do Old Gentleman of 72 Acknowledge Obligations.

The preparation that can be taken with safety and benefit by the tender infant, and that nourishes, strengthens, and cures throat and indra, is one that can truly be called scientific. Such a preparation was discovered by Dr. David Kennedy, a well-known medical professional, as of all diseases produced from impure condition of the blood.

This beautiful child whose picture is shown here, is the grandchild of Mr. J. E. Palmateer of Athens, N. Y., who had been cured of gravel in the kidneys and insomnia, (sleeplessness) finishes his letter by saying:

"But this is not all Dr. Kennedy's Favorite Remedy has done for our family. My little grand daughter had eczema the worst way; she was a mass of running sores from her ears around the entire neck to her cheeks. My wife gave her Favorite Remedy in small doses, and what was the result? To-day the sores have all disappeared, the skin is smooth and clear, and she is fat and rugged and as bright as a silver dollar."

Mr. Solomon Davis of North Kortright, N. Y., finds himself at 72 years, suffering

from neuralgia, felt tired all the time, weak, languid, poor appetite, and no ambition. Thought at his age nothing could do him any good, but like hundreds of other people in his condition tried Dr. Kennedy's Favorite Remedy and began to get better at once, and now feels as hale and hearty as he ever did.

It is particularly pleasing when sickness is as common as now, to know that there is a remedy that cures disease, builds up the weak and debilitated, strengthens the nerves, and has restored to health and strength, men and women who have been confined to their homes for months on beds of sickness.

**MRS. MARTHA J. LAMB.**

Her Death Removes One of the Famous Women of the Century.

NEW YORK, Jan. 3.—Mrs. Martha J. Lamb, editor of the "Magazine of American History," died in her apartments at the Coleman House yesterday. Her death was due to pneumonia. She was confined to her room but a few days.

Mrs. Lamb was one of the advanced women of her generation. The greater portion of her life was spent in arduous literary work, the results of which have given her a reputation, as well as at home. She was born at Plainfield, N. J., Aug. 13, 1829, and was a member of the New York State Legislature.

Jan. 3.—The Legislature met yesterday, but beyond the organization of the House no business was transacted. In that body Ralph Davis, of Shelby county, was chosen Speaker. The inauguration of Gov. Turney will take place next Monday. A lively contest for the position of United States Senator to succeed ex-Gov. W. B. Bate is expected.

**Connecticut Manufacturing Statistics.**

HARTFORD, Conn., Jan. 3.—The manufacturing statistics in the report of the Connecticut Bureau of Labor Statistics for 1891 represent forty lines of industry, having an invested capital of \$134,632,000, producing goods valued at \$159,888,000 and affording employment in productive labor to 367,850 people, to whom \$39,500,000 were paid in wages during the year.
