New Cabinet Constructed from

the Remains of the Old.

CHARLES DE LESSEPS ON TREAL.

Astounding Bevelations Adduced Ovacorning the Panama Canal Company-Little Excitoment in Paris Over the Resignation of the Ministry.

PARIS, Jan. 11 .- Although the rosig nation of the Ministry caused widespread excitement there was no attempt to ereats disorder. The order that is prevailing throughout the city may be, and no doubt is, due to the fact that the lawless element well knows that any disturbance will be put down with a strong hand by he military.

The new Cabinet organized by M. Ribot is as follows:

- M. Hibot, Premier and Minister of the Interior.
- M. Develle, Foreign Affairs, M. Dirard, Fire
- firard, Finance.
- M. Bourgools, Justice. Gen. Labrillon, War. M. Burdeau, Colonies and Marina.⁴
- Dupuy, Instruction.

Viger, Agriculture, Siegfried, Commerce Visite, Works.

The most notable difference between this Cabinut and its predecessor is shown by the absence of M. de Freyclues and M.

Loubet's lukewarmness as regards the Loubst's lusewarmness as regards the investigation of the Panama scandal has been ill concealed. In fact, he has de-clared in a newspaper interview that the Deputies had rushed into the inquiry with reprehensible recklessness of cons ITTERES.

DE LESSEPS ON TRIAL.

He Makes Assounding Admissions Begarding the GaunPs Affairs.

PARIS, Jan. 11.-The trial was opened in the First Chambar of the Court of Cassation, as the Court of Appeals is called, M. Perviver presiding. It was thronged with distinguished people. Procureur-General Tannon conducted the prosecu-

tion. A medical certificate was submitted to President Porvivier that M. Ferdinand do Lesseps is not in a condition to be present.

The President first began the examination of Charles de Lesseps, who said that It was against his advice that his father had undertaken the construction of the Panama Canal.

The President reproached Charles de Lesseps for having misied the public by an-nouncing that Hersent and Couvreux had undertaken to construct the canal for reasons of the construct the canal for 512.000.000 frames.

The prisoner was then questioned closeas to the relations of the American anama committee to the company. He said that 12,000,000 frances had been

placed at the disposal of the American committee and had been used by it for

he best interests of the company. The presiding judge questioned M. De Lesseps as to the bogus petitions present-ed to the Chamber and to the enormous payments made by the caual company to syndicates which assisted in floating the

SUFFERING AT GINEINMATI. RIBOT FORMS ANOTHER POOR IN DISTRESS ON ACCOUNT OF Rapasity of Coal Dealers.

CIRCINNAM, Jan. 11 .- It develops that in former despatches selling the story of the destructive ice gorges in the Ohie River during the past week a serious error occurred in naming various scal sompan ies as losers by the carrying away of 75 barges of soal. It now appears that the consumers of that indispensable commodity are losers.

The Cincinnati and Pistsburg Coal com bine have steadily advanced the price of Youghiogheny and Kanawha soal according to the soverity of the weather and the stages of the river. From \$2.50 per tom it went to \$8 and then back to \$5, at which figure is was quoted last week, and at that price large quantities were con-tracted for by consumers to be delivered. Then came the ice gorges carrying away a comparatively small amount of coal. The elevators are still jammed and there are yet many barges of coal safely moored at Cincinnati. The dealers, however, were not to let the opportunity for a squeeze to escape, and at a meeting held in this city between Pittsburg and Cin-cinnati coal barons it was agreed to raise the price of soft coal to \$6 per ton, which was done yesterday. With the mercury marking one degree below zero, some dealers who accepted contracts has week at \$3, now refuse to fulfil their obligations and offer to refund money paid on contract with a bonus of ten cents per

Poor people cannot buy coal at the resent price, and the suffering among he poorer classes is intense.

There is no prospect of a decrease, but, on the contrary, it is expected that the price will go to \$7 or even \$8 before the imit is reached. There is general and bitter indignation

expressed on all sides at the heartlessness of the coal dealers. MR. ROSENDALE'S REPORT.

New York's Attorney General Comptains That Citizens Want to Know Too Much. ALBANY, Jan. 11 .- The annual report

of Attorney General Rosendaie shows that 380 opinions were written in the departnent during the year. The report this year goes more than isual into details, and the Attorney Seneral shows how much of the attenion of himself and deputies the heads of he different State departments require. For yours there has been growing in the epartments a custom of answering all orts of inquiries from individuals, which as become almost an evil.

It is recommended that all the papers n proceedings for the dissolution of cor-porations he brought together in the Attorney General's office, where a com-plete record can be kept of such proceed-

igs. Thirty-two applications were made to Attorney General during the year re-questing him to bring actions in the name of the people. During the year the fol-owing actions and proceedings were comnenced by the Attorney Ganeral: Sequestration actions, 82; voluntary dissolution, proceedings, 84; foreclosure actions, 27;

partition actions, 10; actions for admeas-partition actions, 10; actions for admeas-turement of dower, 3. In addition 18 other actions and pro-ceedings have been begun, in which the Attorney General has appeared for the State or some State officer.
