

THE KIND THAT CURES

HE DISCOVERED ARSENIC
Witness Hunt Expected to Give Startling Testimony.
PROCEEDINGS IN THE POISON CASES.
Dr. Cooper Says He Has No Doubt One of the Men He Treated Was Doomed With Arsenic—Chemist Hunt's Reported Findings in His Investigation.
PITTSBURGH, Jan. 13.—So far the trial of Hugh J. Dempsey for complicity in the poisoning of the Homestead workmen last summer has not revealed much that is not already known, but there is a large-sized surprise in the background and the counsel for the prosecution and a half dozen doctors and expert chemists know.
 The witness through whom this mine is to be exploded is Capt. Hunt, the analytical chemist, of the firm of Hunt & Clapp. He has been engaged for some time in making analyses in the cases of several Homestead workmen who died under suspicious circumstances.
 He refuses to reveal anything as to the results of his examination, but it is learned from an authoritative source that arsenic in considerable quantities was found in one stomach, traces of croton oil in another, and traces of arsenic and other mineral poisons in other bodies examined.
 The evidence of Dr. Cooper yesterday was pretty positive as to the poisoning of one of the men who worked at Homestead by arsenic. Dr. Cooper said after he left the stand that he had no doubt that the man Spayde, whom he treated, had been dosed with arsenic.
 "Then it didn't surprise you, Doctor, to learn that arsenic had been found in the bodies of Homestead men?" was asked.
 "No," was Dr. Cooper's reply. "Of course they found arsenic, and other poisons, too."
 The prosecution has naturally taken all sorts of precautions lest this strong link in their case should get out before the proper time, but this, the first authoritative announcement of the results of the post-mortem examination will be confirmed in detail in court.
 Capt. Hunt sat in court through yesterday's session, and was in frequent consultation with the attorney for the Commonwealth and the medical witnesses. He had a valise with him, which is said to contain some of the results of his analyses.
SENATOR KENNA'S FUNERAL.
Services in the Senate Chamber—The Body Taken to West Virginia.
WASHINGTON, Jan. 13.—The funeral of the late Senator Kenna occurred yesterday in the Senate Chamber before both branches of the National Legislature, while a blinding snow storm was raging outside.
 The Chamber was crowded with the family, friends and co-workers of the dead Senator. A delegation from the two legislative houses of West Virginia were present at the ceremonies. The grief of Mrs. Kenna and her children at taking leave of the remains was a very sad sight, the agony of Mrs. Kenna being especially too great to be witnessed by even her dearest friends. After the services were conducted by the chaplain, the body accompanied by the family and the Senate Committee was put aboard the train to be carried to its native State.
No More Storage Passengers.
WASHINGTON, Jan. 13.—The United States Council at Rotterdam reports to the State Department that the Netherlands-American Steam Navigation company has issued a public notice that after Jan. 1, 1920, it would suspend the transportation of storage passengers to the United States. The transportation of first and second cabin passengers, however, will not be interrupted and is not subject to any restrictions.

WOODPORT, N. Y., Jan. 13.—Fire which broke out about 7 a. m. in the Stickle House completely consumed that building. Efforts were made to save the Stickle Block which adjoins but at a critical point the water gave out and soon both structures were a mass of ruins. Some of the household goods were saved in the hotel.

If I should be nominated I would accept and make the best campaign I know how."

THE KANSAS TROUBLE

Populists and Republicans Still Remain Firm.
A RESORT TO VIOLENCE FEARED.

The Populist House of Representatives Reorganized by Governor Lowelling—Republicans Commence Proceedings Against the Secretary of State.
TOPEKA, Jan. 13.—Mandamus proceedings against Secretary of State Osborne have been begun in the Supreme Court to compel him to hand over to George L. Douglas, Speaker of the Republican House of Representatives, a certified copy of the roll of members elected to the Kansas House of Representatives on file in his office.
 The returns were compiled by ex-Secretary of State Higgins and show 64 legally elected Republican members of the Legislature, a majority of two, entitled to certificates.
 Mr. Douglas is the Speaker chosen by the Republican organization, and the object of the suit is to obtain from the court a decision as to whether or not the Republican organization is the House of Representatives. The court laid the matter aside for consideration to-day.
 The Republicans have no doubt that the court's decision will be favorable to them, and in this way hope to checkmate the latest move of the Populists, which resulted last evening in the reorganization of the Populist House by Gov. Lowelling. Excitement, however, is great, and a resort to violence is feared. Many of the Republicans say they will not leave the hall until driven out by the militia.
 The arms and ammunition in the State armory have been quietly moved since Tuesday to another part of the city. The armory is in the Capitol square. Some of the Republicans believe a regiment of the State militia will be called out to drive them from the House of Representatives. They declare they will not yield or leave unless they are removed by force.

President Maxwell Thinks the Company Can Prove Its Sincerity.
NEW YORK, Jan. 13.—In relation to the decision of the Chancellor of New Jersey sustaining all the points made by the Attorney-General in his application for a receiver of the Central Railroad of New Jersey, but delaying the appointment thereof in order that an opportunity may be afforded to the defendant company to submit proof before a Master in Chancery that they have honestly complied with the order of the court, and that, therefore, it is not necessary for a receiver to be appointed, J. Rogers Maxwell, President of the Jersey Central Railroad company, said to a reporter this morning:
 "We think we shall be able to prove to the satisfaction of the Chancellor that we have obeyed his order, and that the lease to the Fort Reading railroad company has been cancelled, and also that the contracts between the Lehigh & Wilkesbarre Coal company, and the Philadelphia & Reading Coal and Iron company have been cancelled, and that both the Central railroad company and the Lehigh & Wilkesbarre company are being operated independently."

WANT THEIR ACTS LEGALIZED.

Efforts in the Senate to Aid the Indicted Brooklyn Officials.

ALBANY, Jan. 13.—The special order in the Senate during the morning hours was Senator McCarthy's bill legalizing the appropriations made by the Supervisors of Kings county for the Columbian celebration in Brooklyn.
 Senator O'Connor proposed an amendment providing that the bill shall not affect the right of any taxpayer to bring suit. He said that he did not think it a good plan to legalize the illegal acts of officials, but it was constantly done, and he did not see why it should be done for Brooklyn. With his amendment he thought that the bill would not nullify the pending indictments.
 Senator Aspinall protested against the passage of the bill. He said that Brooklyn was well provided with highly paid city officials who had plainly been delinquent in their duty. There was no excuse for them. This was a Brooklyn affair and Brooklyn could manage it without interference. A prominent Brooklyn lawyer had telegraphed him that the bill would nullify the indictments which had been found. He did not vote for the bill.
 Senator O'Connor said that he supposed that the bill with the amendments proposed would be satisfactory.
 Senator Aspinall declared that the bill would legalize the expenditures not only of the \$1,000 named in it but of the whole \$90,000.
 Senator McCaree said the money had been spent in good faith. The bill was intended merely to legalize a technical violation of the law.
 On motion of Senator McCarthy, the amendment proposed by Senator O'Connor was adopted and the bill re-committed to the Judiciary committee for a hearing.

LOTTERY TO KIDNAP A PRINCE.
Thirty-six Conspirators Killed and Ninety Wounded by Troops.
BUDA PEST, Jan. 13.—Despite official denials the "Pesti Hirlap" insists upon the truth of reports concerning a plot to kidnap the Prince of Montenegro. The plot was concocted in Cettigne, the capital of Montenegro and was of clerical origin.
 It was discovered just before its maturity, but a desperate effort was made by the conspirators to carry it into execution. About 200 men started for the palace to seize the Prince.
 Warning was received at the palace, already doubly guarded, and all the military in the city were called out. The soldiers met the conspirators a short distance from the palace and began firing at once.
 The conspirators, who were well armed, returned the fire and tried to charge the troops, but were repulsed.
 About 36 conspirators had been killed and 90 had been wounded in the attempt to seize the Prince was abandoned.
 Some 40 of the unarmured were arrested; the rest fled.
 Subsequently 38 priests were arrested for having led in the formation and attempted execution of the plot.

2,000 PERISHED.
Many Hundreds of People Burned in a Temple on a Chinese Holiday.
SAN FRANCISCO, Jan. 13.—A Canton correspondent sends this account of a terrible disaster in a country town about 50 miles from Canton, which occurred early last month, and resulted in the loss of nearly 2,000 lives.
 A band of robbers made a raid on the village of Kam Li, in the Sain King district. They first levied a tribute of several thousand taels on the priests of the temple.
 The latter had just received large offerings from the people who were celebrating a holiday with a dramatic entertainment under a big shed temporarily erected in front of the temple. The angry robbers applied the torches to this shed and the people in a panic rushed into the temple for refuge.
 The main entrance of the temple, which was of wood, caught fire from the fierce heat of the burning shed, and over 1,400 men, women and children were either burned, smothered or trampled under foot. Most of the fatalities resulted from suffocation, as a strong wind drove the smoke into the temple.
 At the time of writing the roll of missing numbered 1,940, and it may be that some of these were buried beyond recognition. The disaster is the worst that has occurred in south China for several years.

PAID, Jan. 13.—The Northampton bank robbery has been dramatized, and will be produced in this city before the end of the present season. James Dunlap, who, after 14 years' imprisonment in the Charleston jail for complicity in the crime, was pardoned on Dec. 29 last, will be the star.
Rosenweig Guilty of Murder, First Degree.
TUNKHANNOCK, Pa., Jan. 13.—The jury in the Dutch Mountain murder case after two hours' consultation found Rosenweig guilty of murder in the first degree. A jury in the case of Harris Blank, his fellow prisoner, charged with the same offense, was empaneled while the Rosenweig jury was out.
Earthquake in Indiana.

Indicted for Miss Ayres' Murder.
SACRAMENTO, Cal., Jan. 13.—The grand jury has indicted George B. Jeffries, the locomotive engineer, now in jail on suspicion of having killed Miss C. A. Ayres, the Brighton station agent.

WASHINGTON, Jan. 13.—Mr. Blaine is resting comfortably this morning. Last evening he was not feeling so well as he was during the day.

CHILDHOOD AND OLD AGE.
The Tender Grandchild and a Well-to-do Old Gentleman of 72, Acknowledge Obligations.
 The preparation that can be taken with safety and benefit by the tender infant, and that nourishes, strengthens, and cures the aged and infirm, is one that can truly be called scientific. Such a preparation was discovered by Dr. David Kennedy and named Favorite Remedy. It is prescribed and recommended the world over, by the medical profession, as the best medicine for the cure of all diseases arising from an impure condition of the blood.
 This beautiful child whose picture is shown here, is the grandchild of Mr. J. E. Palmateer of Athens, N. Y., who had been cured of gravel in the kidneys and insomnia, (sleeplessness) finishes his letter by saying:
 "But this is not all Dr. Kennedy's Favorite Remedy. It is also the best medicine for the cure of all diseases arising from an impure condition of the blood.
 My little grand daughter had eczema the worst way; she was a mass of running sores on her face around the entire neck to her cheeks. My wife gave her Favorite Remedy in small doses, and what was the result? Today all sores have disappeared, the skin is smooth and clear, and she is fat and ruddy and as bright as a silver dollar."
 Mr. Solomon Davis of North Kortright, N. Y., finds himself at 72 years, suffering from neuritis, felt tired all the time, weak, languid, with poor appetite, and no ambition. Thought at his age nothing could do him good, but like hundreds of other people in his condition tried Dr. Kennedy's Favorite Remedy and began to get better of once, and now feels as hale and hearty as he ever did.
 It is particularly pleasing when sickness is as common as a cold, to know that there is a remedy that cures disease, builds up the weak and debilitated, strengthens the nervous, and has restored to health and strength, men and women who have been confined to their homes for months on beds of sickness.

THE PANAMA TRIAL.
PARIS, Jan. 13.—Testimony of experts is being taken, and the evidence confirms in every particular all that has already been published with regard to the disordered condition of the company's enterprise.
 People are still talking of new arrests to be made.
Hurt by the Overturning of a Car.
DOWNINGTON, Pa., Jan. 13.—As the early passenger train from Lancaster reached here a rail broke and one of the cars was hurled from the track and overturned. Peter Dampman, a bank director of Honeybrook, was seriously hurt in the crash, and James Fetter, Samuel Ludwig and a little girl sustained severe injuries.

JERSEY CENTRAL RECEIVERSHIP.
President Maxwell Thinks the Company Can Prove Its Sincerity.
NEW YORK, Jan. 13.—In relation to the decision of the Chancellor of New Jersey sustaining all the points made by the Attorney-General in his application for a receiver of the Central Railroad of New Jersey, but delaying the appointment thereof in order that an opportunity may be afforded to the defendant company to submit proof before a Master in Chancery that they have honestly complied with the order of the court, and that, therefore, it is not necessary for a receiver to be appointed, J. Rogers Maxwell, President of the Jersey Central Railroad company, said to a reporter this morning:
 "We think we shall be able to prove to the satisfaction of the Chancellor that we have obeyed his order, and that the lease to the Fort Reading railroad company has been cancelled, and also that the contracts between the Lehigh & Wilkesbarre Coal company, and the Philadelphia & Reading Coal and Iron company have been cancelled, and that both the Central railroad company and the Lehigh & Wilkesbarre company are being operated independently."

CHILDHOOD AND OLD AGE.
The Tender Grandchild and a Well-to-do Old Gentleman of 72, Acknowledge Obligations.
 The preparation that can be taken with safety and benefit by the tender infant, and that nourishes, strengthens, and cures the aged and infirm, is one that can truly be called scientific. Such a preparation was discovered by Dr. David Kennedy and named Favorite Remedy. It is prescribed and recommended the world over, by the medical profession, as the best medicine for the cure of all diseases arising from an impure condition of the blood.
 This beautiful child whose picture is shown here, is the grandchild of Mr. J. E. Palmateer of Athens, N. Y., who had been cured of gravel in the kidneys and insomnia, (sleeplessness) finishes his letter by saying:
 "But this is not all Dr. Kennedy's Favorite Remedy. It is also the best medicine for the cure of all diseases arising from an impure condition of the blood.
