HOSTILITY TO CARNOT His Enemies Trying to Force Him to Resign. TWELVE MORE DEPUTIES ACCUSED.

The Greatest Interest in the Trial of the Panama Boodlers Little Doubt as to Their Conviction and Speculation Rife as to the Sentences They Will Receive. Pants, Jan. 14 .- To-day the gravest rumors are affoat in regard to President Carnot. Soveral of the Deputies who invo been most earnest in pushing the Panama investigation make no secret of d.charing that they will not rest until Carnot is formed to rasign.

The strength of the case against the President depends upon the creditiin y of Balnut, the ex-Minister of Public Works. and Caraot's friends claim that no faith whatever should be attached to Balhut's li-closures) that he is malignant against Carnot for not having protected him from prosecution, and that he wishes to drag he President down with him

On the other hand, it is pointed out by the enemies of M. Carnot that Balbut's courges agree with the facts as known and that Charles de Lesseps would probally corroborate Balant if he were per-mitted to reveal all that he could. These emies of Carnot argue that the trial of he two De Lesaepa has been hastened a order to bring them within the grasp of M. Carnot and keep them silent as to my connection of the head of the State with Panama affairs. They argue also that M. Bourgeois has not been as earnest as be might have been in bringing the truth to light, and that the opposition of M. Bourgeois to the arrest of Bainut was really based upon his fear that Baihut alght accuse his former fellow Minister Constant.

Meantime President Carnot preserves a serves tempor, and seems in different to the measures upon him. These measures are not continent to himself. The Madicala mudemin Mine. Carnot for spending so much money on her dresses and trying to imitate the grande dames of the Fau-burg St. Germain. In addition they pretend that Monurculat hables and customs are invading the Elysso, and therefore, its present occupants must be turned out in the sacred interests of the Republic.

Constant the Instigator.

M. Constants its credited by nearly every one with being at the bottom of the attack upon Carnol. He is known to have a bitter feeling toward the Presi-dens, on account of his ejection from the Cabinet, and to be desirous also of removing Carnot from the Presidential

rivairy. Constans keeps very quiet and disclaims responsibility for the existing agitation, but his declaimer fluos no cre-dence among the well informed. All eyes are furned toward Constans as the coming master, if not already the master, of the situation, from a Republican standpoint.

The other prominent figure is that of General Saussier, whose control of the military in Paris would give him, in the event of an uprising, an all unlimited opportunity to gratify his own ambition or serve the purpose of others. It is known that Saussier has been sounded both by Royalists and Bonapartists, but these have not found the slightest en couragement for proceeding with their

approaches. Agents of the Duke of Paris have hinted at a ducal or princal title and the enormous revenues that would be the reward of treachery on the part of General Saussier to the Republic, and while these hurs have not been uttered directly to the General care has been taken that they should reach him. But General Saussier in immovable in his fidelity to daty.

THE CHESTERTOWN EXECUTION. Four of Dr. Hill's Murderers Pay the Penalty of Their Crime.

CHESTERTOWN, Md., Jan. 14 .- Business in this little town was almost wholly suspended yesterday. The streets were almost entirely descreed, except by the posse aummoned a couple of days ago by Sheriff Pluinmer. These guarls in twos, and threes, armed with guns, rifles and pls tols, patrolled the streets nearly all night long and until the execution of the four negroes took place;

He called separately upon Brooks, Comegos, Williams and Brown to pray. Between each prayer a hypen was stud. Connergyst proper was the most affecting of all. It was an agonized cry for help and succos, delivered to the peculiar sing-roug intonation of the plantation usero, and its burden was: "O Jesus, save my

Totano, O., Jan. 14 -- Clay Hopper, the young man whose case of suspended animation has attracted so much attention is dead for the second time. Life passed away yesterday. Undertaker Dennett was again called and for the second time he prepared the body for burnal. Hev. S D. The case has been the wonlor of the city over since it was made public. The deceased was supposed to have died from dropsy of the percardium, Dec. 29. Th would funeral preparations were made and the hearse was at the door to convay the body to the cometery, when the parents yielded to a vague premonition that their son was not dead.

They dismissed the undertaker and mourning fronds and called in Sickles,

a physician of standing. Continued efforts at respectation finally resulted in the patient opening its eyes and since then he has berained, his heart has fluttered, his feet and hearis have twitched, his pulse has been felt, and a faint smile has responded to inquiries if he knew those around him. Thursday he spoke. His mother sat

in a room pest to him, but only a few feet away. She was reading, when she heard a word which sounded like "Mother."

She supped to the bodside of the youth but scopped to the bound of the yound in the transe and found his breast heav-ing up and down randing. Dr. W. C. Gardiner, the president re-cently elected by the Tobelo Scalical Col-

The evidence so far in the Panama trial is regarded as assuring conviction. The report of M. Flory, the Government accountant, contends that the responsibility for the Panama frauds and decep tion rests upon the whole board of Pauama directors, because, having squandered the share capital, they con having cealed the real situation by false state ments in order to obtain subscription and protect their own interests. M. Flory's report leaves no doubt as to the deliberate character of the deception practised upon the public. The public are already beginning to

discuss the sentences that will be passed upon the de Lesseps and their associates in the event of conviction. It is believed that President Perivor will pronounce a severe penalty, as from the first he has exhibited considerable indignation toward the accused. Perivise has the reputation the accused. Ferivise has the reputation of being a perfectly honest man, lucap-able of being swayed by outside influence, however powerrul, and not inclined to cover up the guilt of any one, however influential.

Evidence Discovered Against Twelve Members of the Chamber.

Lospon, Jan. 14 .- The Paris correspondent of the Daily News telegraphs : "M. Franqueville has acquired fresh evidence, beiraying twelve deputies, four of whom are Boulangists. The incriminating entries on the counterfoils of the checks are in M. Arton's handwriting, together with the amounts fingered. They do not afford legal proof of guilty but will onlige the deputies to submit to examination and probably will lead to stronger testimony. A search has been critered among the photographers whom Arton ordered to photograph the Panama
