And it is Aggravating. As a rule most people are intensely ex sperated when, after wading through some sciting story in the newspaper which they have devoured with breathless interest, to find at the fluish it is only a trap to advertise some wonderful scap or medicine. Of course its disappointing, but just consider how eleverly its done, and, by the way, what a wonderful industry has been developed in this mode of advertising. Some of the great aedicine firms pay their advertising agenas high as ten thousand dollars a year, and a ertain manufacturer of soap pays his adveriser twenty-five thousand. Just think of it, and while you are thinking just remember that "She Couldn't Marry Three" is the best show on the road.

### That Was the Poll of Votes Yesterday

ONLY FIVE SHORT OF ONE

THOUSAND.

Miss Connelly Goes Over the Six Hundred Hark-Other Teachers Specding in the Contest

Bridget A. Burns., Little B. Phillips. Hattle Heas... Mary A. Laworiy. Carrie M Smiss. James H. Lewis

The returns published above certainly shows great interest in the HERALD'S popular teachers' contest. It took the people a few days to get a proper understanding of the affair and assure themselves that nothing that will allow any impartiality to intervens would be allowed. The people are satisfiedthe returns show it. Now we can expect ively contest. The votes polled yesterday aggregate 995 The total number of vote or all days, since the opening of the contes up to 4 p. m. yessershay, is 2,509. This fa arpasses the expectations of the manage cent, although the contest editor stated in his column on Friday last that he would not be surprised to see 2,000 votes polled by

Monday (last) night. Miss Connelly's strength in the contest is ronderful and it seems to be on the increase Vesterday this lady received 205 votes which ran her total up to 620. Miss Burns who holds second place, received a number of votes yesterday, but they did not materially strengthen her position, when the gains of ome of the other leaders are considered. Misses Phillips, Hess and Faust made rapid strides towards second place yesterday and the first two named ladies bounded over the 200 mark, making a perceptible gain on Miss Burns, who made such an excellent contest

with Miss Connelly for first place last week. As we stated last week such contests are ever won until all the votes are polled and to matter how great a lead one may have it is not safe to depend upon too long. In the uses of Misses Connelly and Burus the lead for first place changed in twensy-four hours twice last week.

Miss Carrie Faust, who was one of the late entries last week, has made an admirable run thus far and if her votes come in at the the week may find her a dangerous rival for

The increased number of teachers who have passed within the minimum for a place in the record tables obliges us to state that only the names of such teachers who have credit for 100 or more votes will be placed in the tables after Saturday, next.

We have received from a contesting teacher otes to see if a mistake has not been made whereby the teacher receives credit for 53 instead of 63 votes. We at first thought a typographical error had been made in the return table, but upon reference to the record votes received up to 4 p. m. su Saturday last have been made into a package, scaled and put in a safe place until such time as the judges will require them, we cannot review the coupons now, but the teachers' letter will be carefully filed and if at the end of the contest the number of votes which she believes are missing will tend to change the result the letter and all coupons will be in the bands of the judges for their decision.

We have also received the following: EDITOR HERALD: There are some people a this earth who want it all for one cent you obtained subsections; a not. The only fair any to wote in the HERALD'S teachers concurs way to vote in the figurally teachers consists the very you are now allowing it to be consisted by which you for each teacher must be represented by a separate coupen. Do not after the conditions. It is runnered here that you are selling the Harrally to clobe in Shenandoah at reduced rates—into the the rates given to agents. If so, don't do it hereafter, as it is maint to old subscribers who pay if per year, or one cent per copy and a fair to those therefore who are not backed by clobe. Each c upon voted should represent a one cent paper to the Harrally.

MANY SUBSCRIBERS.

Pottsville, Pa., Jan., 25, 1833.

The signatures of three very prominent Pottsville gentlemen who are regular subscribers to the HERALD were strached to the Diamond" was in charge of Charles Miller, above letter. We are pleased to have an engineer, and "Bart." Stout, fireman, opportunity to decide the question raised in the second part of the letter. The HERALD is not being sold to clubs at agents' rates and it will not be. Several applications have been made for special rates on promises of large orders, but all have been denied. We agree with the correspondents that to sell the papers to all who apply for them at reduced rates would be giving some contestants an unfair advantage over others, and more than that we would be destroying the HERALD'S

identity as a one cent daily paper. All suggestions regarding the contest will be cheerfully received and considered by the ontest editor.

Max Reese has stepped to the front and will present to the teacher who may have the second highest number of votes at the close of the contest a handsome tollet set.

have given considerable attention to the situation in the Second ward in regard to the School Directorship. It is generally supposed that there are two vacancies for directors in that ward, but such is not the case. William T. Williams still holds his seat on the School a letter requesting a review of the file of Board. Although he is working at Mt. Carmel, he still claims and holds his residence here, and he has not sent in his resignation. It is thought by many that if Mr. William intends to take up a residence at Mt. Carmel he should tender his resignation at once and book we find the figure is 53. As all the give his party a chance to elect his successor. If the resignation is not sent in and Mr. Williams should resign after the election the School Board will then fill the vacancy.
