WITH good men on the ticket-men of good business capacity-the Citiz-ns' party will stand an equal chance with the Democratic party.

THE Democrats in the First ward showed uncommon good sense h nominating James Kane for Council We always believed, and do yet, that Mr. Kune would make an honest and conscientious borough legislator. He will be nobody's tool. Muck that.

DESMARK is a small country yet last year it exported 100,000,000 pounds of butter. The Danes have the reputation of being the best butter makers in the world. If some of our farmers who are complaining that raising wheat doesn't pay would turn their attention to butter making they might find a profitable industry. It is evident we do not produce enough butter or there would not be such a sale of butterine and oleomargarine, So, too, in regard to ergs. We do not produce near enough for our consump tian and have to import them by the barrel, There are more ways than wheat growing by which to make money.

An idea of the number of men who may be called out to slaughter each may be had from figures in our tion of Egypt. It was rather ourlous that own War Department, compiled from latest reports by Lieutenant Hum-Bion, of the Fifth Artillery. In her active army Russia hus 1,070,000;
