All the Talk About Canada's Burning Desire Misleading.

SIR CHARLES H. TEPPER'S VIEWS

The Minister of Marine Says that Only Thuse Who Do Not Know the Dominion Talk of Annexation-The Pishery Treaties-Emureation.

Naw York, Jan. 25.-Charles H. Tupper, Minister of Marine and Fisheries in the Canadian government, arrived at the Hotel Brunswick yesterlay, and leaves today on the Majestic for Europe. Mr. Tupper is the agent from Canada for the British government to the Behring Stratts Scaling Arbitration commission, which meets in Paris on Feb. 26 next. Speaking on the topic of annexation last light, Mr. Tupper said:

"It is a great surprise to me and to most Canadhaus to note the stir that some of the New York newspapers make about the annexation of Canada to the United States. This talk of the great desire of Canadians for annexation is en tirely misrepresented.

"Canada does not want annexation We want to be good neighbors, and that is all. No one in favor of annexation could be elected on that platform to even the smallest office in Canada. The party now in power in Canada is kept in be-cause of the distrust that the opposition might have even slight thoughts toward

"There is no fear that Canada will be forced into annexation, for we are as self-contained and contented as any nation in the world. Caunda is most prosperous; comfort reigns in all the provinces, and no policy of the United States can change our political feetings. Our prosperity is increasing yearly and we are ever so much alread of where we were too wars are ahead of where we were ten years ago The United States cannot crush or con-trol Canada any more than England could crush or control the United States. Only those who do not know Canada talk of annexation. A trip through the Prov-inces would speedily convince them of the

folly they utter. "As to the lishery treaties, I can only say that since the modus vivendl was established in 1888, there has been no friction between Canada and the United States on the subject. Of course there have been a lot of unfounded newspaper Stories, but there was no basis for them. Cannin has, however, had some differences with the Newfoundland government, because the government gave the United States fishermen privileges that were denied to their Canadian brethren. These, however, are being settled now, and there virtually exists a modus vivendi

butwhen Newfoundland and Canada. "I think that eventually the virgin wheat lands of Canada must draw the getting for it seems to me that the Anterior that the United States is now getting, for it seems to me that the Anterican lands will carry all they can bold. We shall soon send our grain over in the shape of beef, and thus make a double gain.

"As our population increases the grain grown will be fed to the cuttle we shall raise, and we will with our great railroad and steamer facilities, be most formida-ble compentors to the present leading meat supply sources of the world."

BAYARD, LAMONT, CARLISLE. Stated that These Three Will surely be In the New Cabinet.

New Your, Jan. 25.—One very positive assertion was made last night by a Democratic leader who enjoys confidential relations with Mr. Cleveland and Mr.

"I know," he declared emphatically,

"that Thomas F. Bayard will again be Secretary of State. Mr. Cleveland had hoped to persande Mr. Whitney to accept the place, but has given it up.

"Senator Carlisle has all along been fixed for Secretary of the Treasary, but until yesterday it had not been positively determined whether Col. Lamont would be Secretary of the Navy, Postmaster-General, or Secretary of War.

"Mr. Cheveland desires him in the Cabinet as an advisor more than approximately an include the control of the Cabinet as a positive of

inet as an adviser more than apything else, and so to the War Department he will go unless plans are changed."

FOR THREE NEW STATES. Republican Senate Caucus Favors Admis

sion of Okiahoma, Utah and New Mexics. Washington, Jan. 20.—The Republican caucus decided by a majority vote to take favorable action upon the admission of the Territories of Oklahoma, Utah and New Mexico, but left Arizona out in the cutd.

The caucus developed into a contest between the extreme West and the East and appears to be a victory tag the younger members of the Senate.
It is considered a victory, however, in

name only, for the subsequent action of the caucus negatived the result of the caucus. It was agreed that the question of the admission should be made the or-der of business to follow the discussion of the Nicaragua ennal.

After the present matter of the Chero-kes Strip is disposed of, the Senate will take up the various Interstate Commerce bills that have been or will be reported and will then begin the discussion of the Nicaragua Canal biil.

FUNERAL OF BISHOP BROOKS. Dishop Potter, of New York, Will Conduct the Services.

Boston, Jan. 25,-The funeral services over the remains of Bishop Pailtips Brooks at Trinity Church to-morrow will be conducted by the Right Rev. Henry Costman Potter, Rishop of New York, assisted by Bishop Clark, of Rhods Island, and Rev. Dr. E. Winchester Donald, rector of Trinity Church.

While those who are directing the arrangements for the funeral realize the place that the late Bishop held in the hearts of the entire community within and outside the limits of his own Church and realize as well that even roomy Trin-ity will be unable to hold probably thousands who would like to be admitted, they have found it necessary to govern their arrangements so as to ac-commodate the members of the Church in the diocese and kindred associations, so that when that is accomplished it is doubtful if there will be any seats left for the general public.
Arrangements have been made whereby

the remains of the late Bishop Brooks will be in state in the vestibute of Trin-ity Church from S to 11 a. m. to-morrow, previous to the funeral.
