It is very adhesive, sticks firmly to anything, forming a tough, leather-like skin over the top, will not run or loosen from joints or cracks, summer or win ter. This remont needs no reference, it has stood the test for thirty two years, and never fails to give perfect satisfaction. It is the most useful article a roofer can have in his shop. The dement is prepared roady for me, an is to be applied with a trawel and is kept most by the point overed with water or of, and will not set stiff or dry. Colors, brown and black.
