THE SCHOOL DIRECTORS MET LAST NIGHT.

ADJUSTING THE LOSSES BY FIRE

Louise Hamilton School Teacher McHale Acquitted of a Charge Made by a Parent-A Settlement With

Mrs. Cather.

CHOOL BOARD held its regular monthly meeting lost night and disposed of several important matters. Director Mulifoon served as chairman in the absence of Director

Coury. The other directors present were Mosrs, Gallagher, Lynch, Burks, Davenport, PHearn, Treslat, Gable, Brenman, Ogden, inchman, Beddall and Hanna.

H. W. Titman, representing the Shemanbah Heat und Power Company, appeared sefore the board and stated that he would ike to make a contract to heat the High School building with steam from the comuny's station at the corner of Lloyd and Bowers streets. Mr. Titman said the comonly would agree to furnish the heat for \$300 or a season of eight months, or from about September 15th to May 15th, and would keep a registered power of cight pounds in he building, and more in very cold weather The company could easily connect the pipes now in the building with its own pipes are mave the service ready in three days. The mly cost to the board for making the concetions would be \$25. Mr. Titman said if was the intention of the company to eventually secure a contract for heating all the school buildings and proposed to show the value of its service by introducing it in the

High School. The proposition caused quite a spirited argument. One member thought the price was protty high, as it only costs \$174 for conused in the building for a term of eight nonths. Others argued that the cost of coal nauling, the cost of a male janitor to look after the building and the annual expendiure for repairs to the beilers and heating pparatus ran the figure considerably above

hat fixed by the steam heating company. A motion that the board make a centrac with the company for the remainder of this erm, as a experiment, finally carried. Meson Barke, O'Hearn and Lynch making a rigorous protest. At the same time the board will rebuild the chimney and rearrange the nating system of the building so that it will se ready for use in case the company's service

es unsatisfactory. Mr. Josiah Johnson was also present and onde his report as adjuster for the School Board in fixing the damages sustained by the fire in the High-School building. Mr. Johnion said that the damages to the building nd heating apparatus had been agreed upor stween him and the adjuster for the immr ace companies at \$1,391.48, and that he would be willing to take a contract to repair he damages for that amount. The report

On motion, it was decided that M. J. PNeill be appointed to represent the School Board in the adjustment of damages sus ained by the school furniture by reason of the fire.

Superintendent Freeman said he could not present his statistical report, as the school nouth will not close until next Monday He announced that when the report is ready it will be furnished the HERALD for publiation. The superintendent also enumerated the arrangements made for the schools that vere disposessed by the fire and recomnended that the board get the High School building in order as soon as possible. He thought it well & only make temporary repairs to the building, as much more substantial and satisfactory work can be done in the summer time than in winter. The superintendent also presented a resolution algoly recommending Mr. A. E. L. Leckie, who recently resigned as teacher to accept a government position in Washington. The report and resolution were adopted by the

As a supplemental report the superintend ent stated that a Mrs. Seibert had complained that Richard McHale, a teacher, and abused her son. Mr. Freeman said he made a full uvestigation of the case and concluded to have it at the disposal of the board. Mrs. Seibert presented a petition signed by several supils, setting forth that instead of teaching Mr. McHale goes to sleep

In Mr. McHale's behalf there was a poper igned by a number of pupils setting forth that they denounce Mrs. Seibert's petition as a formery; that Michael Seibert, the boy threw a stone at the teacher, Mrs. Seibert used absusive language, and both Mr. and Mrs. Seibert abused the teacher.

Superintendent Freeman said that from what he could given the trouble gross in the night school taught by Mr. McHale. The boys attending that school made a practice of making a door mut of a towel used in the day school. One of the Seibert boys used the towel in that manner one night and Mr. McHale ordered him to put it where it belonged. The boy refused, but the teacher forced him to comply with the order. The boy's brother picked up a slate to throw at the leather, who kicked it out of his hunds. Committee will be held in the Connoil After the school was dismissed and while the chamber on Priday avening, next, at 8 teacher was on his way humn the brother welock. All members of the summittee are threw a stone at the teacher, but it missed requested to be on hand. the mark. Mr. McHale ran after the boy and caught him. The teacher says the pen-

ends to a Law Suit Agrinst Several Employes at the Philadelphia and Reading Freignt Depot.

phis and Reading Ruitdepot vesterday morning that did not create that she doesn't marry three. much excitement at the time, but it mes since developed into a

aw suit and is causing much comment. The facts of the matter as gleaned by a reorter seems to be that a freight ear of otnions arrived at the depot for Amandus Weemer and some question areas between Mr. Woomer and Mr. Neiman, the chief clerk at the depot, as to freight charges. Previous to this there had been a gristake as to the secure the extirpation of the saloon, local weight of the car and freight and the discusalon yesterday became quite warm. Finally Mr. Woomer mixed Mr. Neiman to bring ou the bill and he would pay it. Mr. Nelman ssked Mr. Wommer to go into the office as that was the place to pay bills. The afficiwound up with Mr. Woomer and his driver being that up in the 'reight or with the potatoos and they were kept there for some ime. The deput people then sent for the C & L police. Mr. Woomer and his clerk were released from the car and the former settled the freight bill.

It was thought by many that the matter would be dropped here, but such is not the ise. To day Mr. Woomer and his clerk owore out warrants against Mr. Neiman, Louis and Harry Harner and F. H. Hopkins, Jr., charging them with assault and battery deventh place yesterday and is past the 500 and false imprisonment. Constable Test erved the warrants to-day and the case wil e heard before 'Squire Dengler this evening unless it is settled in the meantime.

POLITICAL POINTS. A Few Paragraphs Bearing Upon the Ap

proaching Election. Those who would like to play an independent part in the coming municipal election but who, bound by party obligations, would besitate in regard to casting a vote for a can didate of a different political faith, should emember that politics have no rightfu place in the municipal election. The citizes who absents bluseli from the polls, or refuse to sever party ties by voting against un worthy candidates, will be locking in duty

to himself and the continunity. 'The Auditors' next duty will be to get ou the tiekets and issue the election proclams

Miss Louise Hamilton and "Poggs Perry" mes Monday next. The star and the play might to do a hig business, for the play is of a tight order. The first act shows us the ferry some on a rooky point, and with fields and neulows stretching away in the distance. The second takes place in front of a mundow where a delicious bit of comedy is introduced. All the scenery is new and earried by the company, and the third act is a steamboar oing at a lively rate down the river, who a be torpedo is shot at and exploded, and everything is safe. The members of the company are considerably above the average, judging from the well-known names of Louise familton, Miss M. Milne, May W. Hamilton, Brace Howard, Geo. Cirem, Wallace Murdock, Ward Render, T. C. Hamilton, Eugene Powers. and John Lawrence.
